

Purpose

The purpose of this quick reference guide is to step through the process of manually creating Leave Accruals. Users are reminded any adjustments made using this process do not result in a financial payment to a Payee. The intended audience for this document are Standard Users.

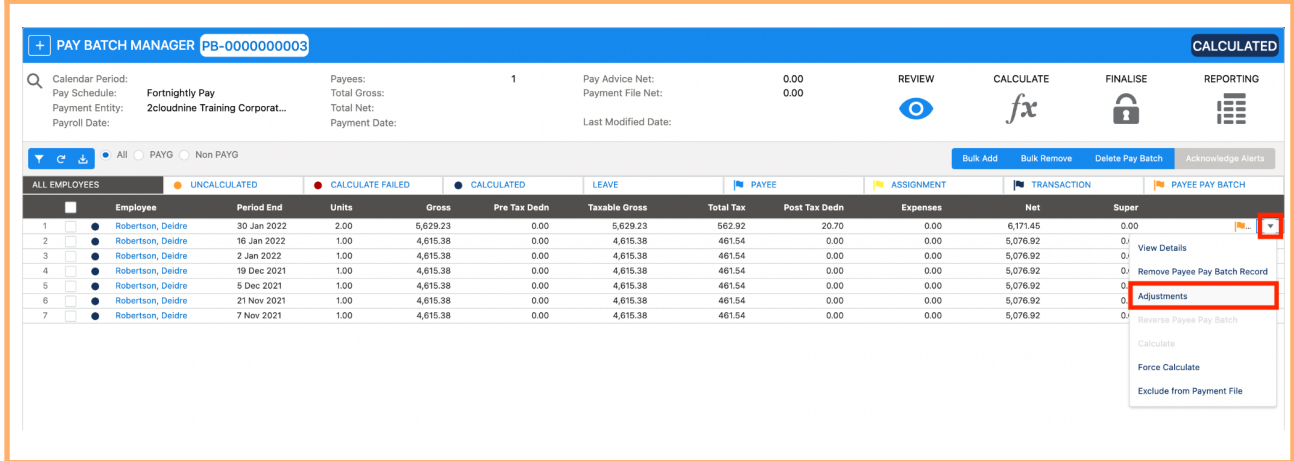

Steps

Create Leave Accruals Manually

To create manual Leave Accruals for a Payee for a period:

1. Open the Pay Batch and navigate to the Payee Pay Batch row that needs manual accruals created.
2. Click on the highlighted arrow and choose the **Adjustments** option. (See Figure 1)

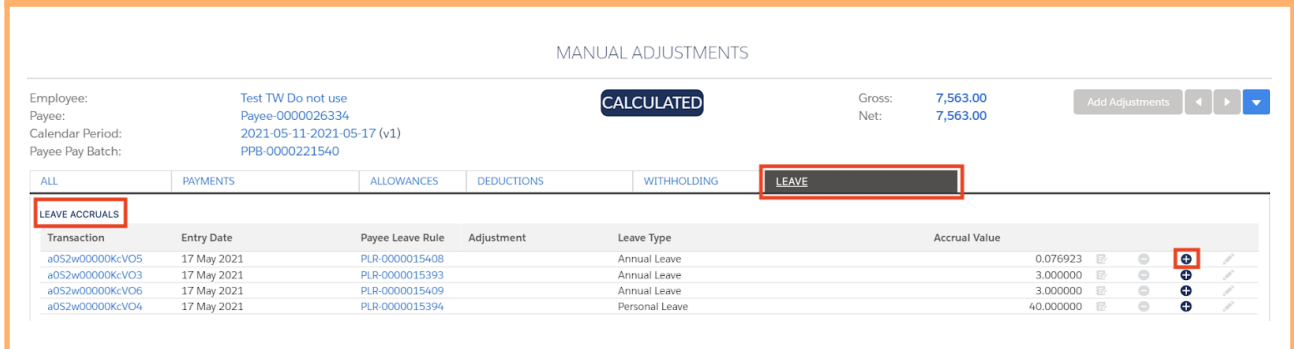

Figure 1

The screenshot shows the 'PAY BATCH MANAGER' interface for pay batch PB-0000000003. It includes a table of employees with columns for Employee, Period End, Units, Gross, Pre Tax Dedn, Taxable Gross, Total Tax, Post Tax Dedn, Expenses, Net, and Super. A dropdown menu is open on the right side of the table, with 'Adjustments' highlighted. Other options in the menu include 'View Details', 'Remove Payee Pay Batch Record', 'Reverse Payee Pay Batch', 'Calculate', 'Force Calculate', and 'Exclude from Payment File'.

3. Within the Manual Adjustments Interface, click on the **Leave** tab. (See Figure 2)
4. Navigate to the **Leave Accruals** section.
5. Click the  add button against the required Payee Leave Rule-Leave Type record.

Figure 2

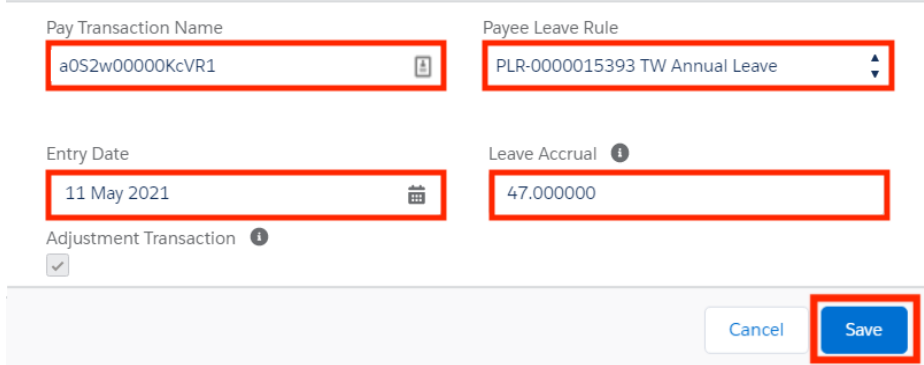

The screenshot shows the 'MANUAL ADJUSTMENTS' interface. It includes a table of employee details and a 'LEAVE' tab. The 'LEAVE' tab is selected, and a sub-tab 'LEAVE ACCRUALS' is also selected. A table of leave accruals is displayed with columns for Transaction, Entry Date, Payee Leave Rule, Adjustment, Leave Type, and Accrual Value. The 'Adjustment' column has a dropdown menu with a '+' button highlighted.

If there are currently no leave accruals listed in the Leave tab of the Adjustments UI you won't be able to select the  button, instead select the Add Adjustments button (top right hand corner).

6. This will clone the Pay Transaction that was selected, so please ensure the following pre-populated fields are updated to the values as required: (See Figure 3)
 - a. **Pay Transaction Name**
 - b. **Payee Leave Rule** (available as Picklist values)
 - c. **Entry Date**
 - d. **Leave Accrual** (hours to accrue)
7. Click on the **Save** button.
