

Purpose

The purpose of this quick reference guide is to step through the process of creating a Paid Family and Domestic Violence Leave Event as a Payroll User. The intended audience for this document is system administrators / standard users. This process does not need to be followed until there is a need to create the first Leave Event for Paid Family and Domestic Violence Leave for any Payees in the Org.

Please note that this is the proposed 2cloudnine solution for managing Paid Family & Domestic Violence Leave. In the event you wish to process this Leave type in a different way, please contact Customer Success. The steps in this QRG will process the Leave Events for record keeping purposes, and the Leave Events will not be processed in any Pay Batches. The Payees will be paid as per normal attendance to work, and if they are paid by Timesheets, they should submit their normal standard work hours on a Timesheet for Payment.

The Expiry Date of the Payee Leave Rule is determined automatically. If there is an Original Leave Service Date, the system will use that date, find the next occurrence of it, and enters 1 day less as the Expiry Date. If that is not provided, it uses the Payroll Start Date, finds the next occurrence of it, and uses 1 day less for the Expiry Date.

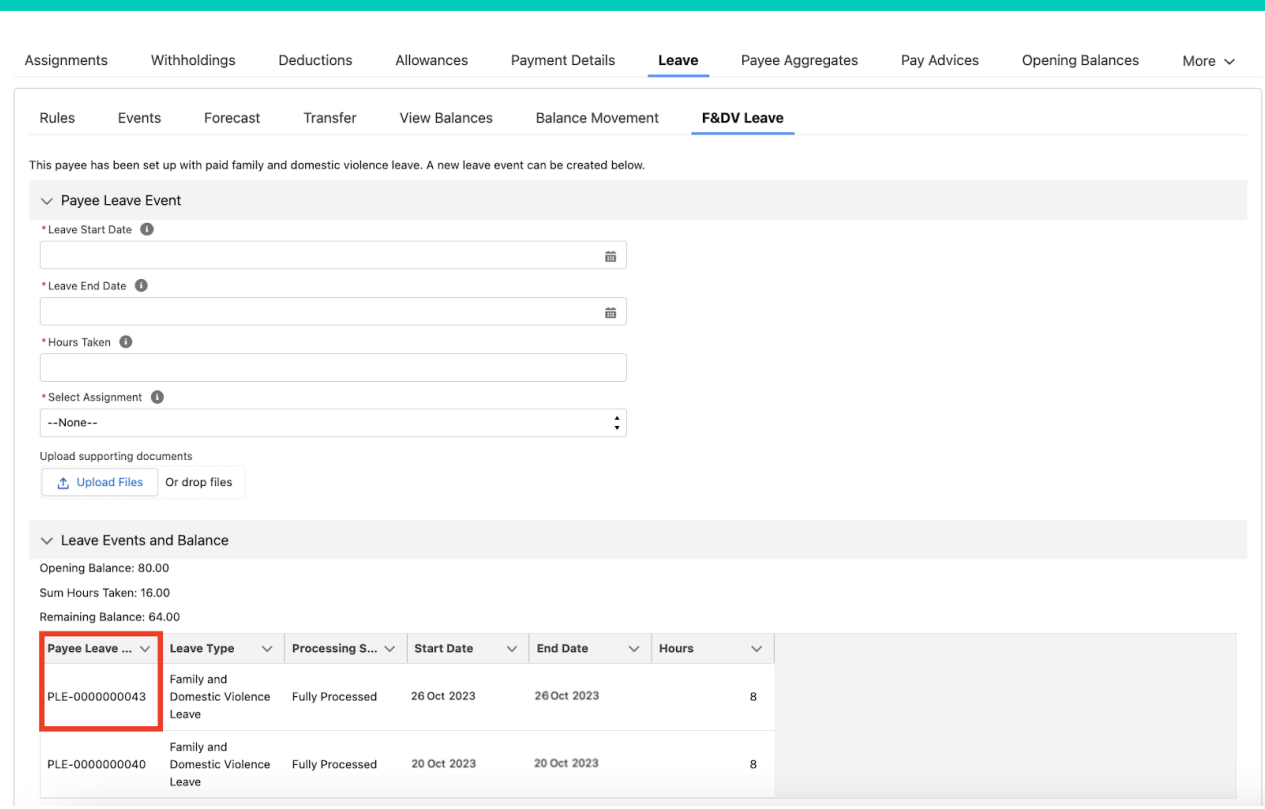

If an Employee is granted the Family and Domestic Violence Leave and the dates of the Payee Leave Events go beyond the Expiry Date of the current Payee Leave Rule, then Payroll Users will be required to create a 2nd Payee Leave Rule to continue immediately after the first, and to allocate all Payee Leave Events to the Payee Leave Rules and their dates.
