

Purpose

The purpose of this quick reference guide is to step through the process of creating Leave Rules. The intended audience for this document are System Administrators.

Steps

Create Leave Rule record

Leave Rules are created to determine available types of leave that Employees can use.

To create a new Leave Rule record, follow the steps below:

1. Click on the **App Launcher** icon. (See Figure 1)

Figure 1

2. Go to the **Leave Rules** object by using the Search function. (See Figure 2)

Figure 2

3. Click on the **New** button. (See Figure 3)

Figure 3

4. Select the required **Record Type** based on the types available and click **Next**. (See Figure 4)

Figure 4

New Leave Rule

Select a record type

- ☒ Annual Leave
- ☐ Compassionate Leave
- ☐ Family and Domestic Violence Leave
- ☐ Long Service Leave
- ☐ Parental Leave
- ☐ Personal Leave
- ☐ Purchased Leave
- ☐ Rostered Day Off
- ☐ Time Off in Lieu
- ☐ Unpaid Leave

Cancel Next

If you have a requirement for a different Leave Rule to be created that is not currently available in the Record Types, please discuss this with your System Administrator or relevant software support contacts.

5. Follow this step in the sequence given below:
 - a. Populate the following required fields to provide the base details of the Leave Rule record: (See Figure 5)
 - i. **Leave Rule Name**
 - ii. **Effective Date**
 - iii. **Service Calculated At**
 - iv. **Available In Portal** (must be 'Yes' for Community users)
 - v. **Credit Available in Portal** ('Yes', only if the Community Users require the ability to create leave credits in the Community, otherwise set to 'No').
 - b. Populate the following optional fields as needed: (See Figure 5)
 - i. To set an expiry date for the Leave Rule record, populate the **Expiry Date** field. If left blank, no expiry date will apply.

Figure 5

If Expiry Date is populated, once this date is reached the Leave Rule will no longer apply.

- c. Populate the following required fields to provide the base details of the Leave Rule record: (See Figure 6)
 - i. **Can Be Taken After Units**
 - ii. **Pay Codes for Accrual Calculation**
- d. Populate the following optional fields as needed: (See Figure 6)
 - i. To skip manager approval for this Leave Rule, populate the field **Skip Manager Approval** as 'Yes', or populate 'No' to make it mandatory. This can be overridden on a Payee Leave Rule.
 - ii. If the leave type is purchase leave, populate the **Purchase Leave Pay Rate** field

- accordingly.
- iii. To define the minimum allowable balance for this Leave Rule, populate the **Minimum Allowable Balance** field.
 - iv. To define the maximum allowable balance for this Leave Rule, populate the **Maximum Allowable Balance** field.
 - v. To define the minimum number of units which must be worked per day for leave to accrue, populate the **Minimum Daily Quantity Worked** field.
 - vi. To validate the available Leave Balance when a Payee Leave Event is created with a record type of Leave Take, populate the **Validate Balance on Leave Takes** field as Yes.
 - vii. If the Minimum Allowable Balance can be overridden at the Payee Leave Rule level, populate the **Allow Minimum Balance Override** field as Yes.
 - viii. If the Maximum Allowable Balance can be overridden at the Payee Leave Rule level, populate the **Allow Maximum Balance Override** field as Yes.
 - ix. To define the maximum quantity worked per day which will be considered for leave accrual per quantity worked, populate the **Maximum Daily Quantity for Accrual** field.

Validate Balance on Leave Takes ⓘ

--None--

If Skip Manager Approval is set to Yes, then all Leave Events on this Leave Rule will automatically be approved and can then be processed in Payroll.

- e. Populate the following required fields to provide the base details of the Leave Rule record:
(See Figure 7)
- Pay Code**
 - Unpaid Pay Code**
 - Reduce Auto Pay Units**
 - Pay Loading by Default**
 - Allow Leave Cash Out** (must be 'Yes' if leave cash out is required)
 - Cash Out Pay Code** (only if Allow Leave Cash Out = Yes)
 - Display On Pay Advice?**
 - Display Leave Balance As**
 - Pay Advice Display After Units**
 - Pay Advice Display After Period**
- f. Populate the following optional fields as needed: (See Figure 7)
- To define a Pay Code that will be used in the creation of Leave Loading Pay Transactions, populate the **Loading Pay Code** field.
 - If Leave Loading function is applied to this leave rule during Interpretation Rule processing, populate the **Apply Dual Leave Loading Calculations** field.
 - To offset Leave Accrual hours each Pay Calendar Period from a Payee's gross pay, populate the Pay Code in the **Accrual Reduction Pay Code** field.
 - If Time Off In Lieu leave type and the balance has an expiry period to apply, populate the **Time Off In Lieu Expiry Days** field.

Figure 7

The screenshot shows the 'Payroll Controls' form. The following fields are highlighted with a red box, indicating they are required:

- Pay Code:** Annual Leave
- Unpaid Pay Code:** Excess Leave
- Reduce Auto Pay Units:** Yes
- Pay Loading by Default:** No
- Allow Leave Cash Out:** Yes
- Cash Out Pay Code:** Annual Leave Cash Out
- Display on Pay Advice?:** Yes
- Display Leave Balance As:** Hours
- Pay Advice Display After Units:** 0.000000
- Pay Advice Display After Period:** Days

Other visible fields include:

- Loading Pay Code:** Search Pay Codes...
- Apply Dual Leave Loading Calculations:** --None--
- Accrual Reduction Pay Code:** Search Pay Codes...
- Time Off in Lieu Expiry Days:** (empty field)

You **MUST** populate different values in the Pay Code and Unpaid Pay Code fields.

- g. Populate the following required fields to provide the base details of the Leave Rule record:
(See Figure 8)
- i. **Allow Pay in Advance**
 - ii. **Available Pay Rates** (Standard Pay by default, and/or Half Pay and/or Double Pay. This is a multi-picklist field. You can select 1, 2 or all 3 values if required).
 - iii. **Can be Paid Out After Units**
 - iv. **Can be Paid Out After Period**
6. Click on the **Save** button.

Figure 8

The screenshot shows the 'Setup Leave Rules' form. The following fields are highlighted with red boxes:

- Allow Pay in Advance**: A dropdown menu with 'Yes' selected.
- Available Pay Rates**: A multi-picklist field. The 'Available' list contains 'Half Pay' and 'Double Pay'. The 'Chosen' list contains 'Standard Pay'.
- Can be Paid Out After Units**: A text input field containing '0.000000'.
- Can be Paid Out After Period**: A dropdown menu with 'Days' selected.
- Save button**: A blue button at the bottom right of the form.

The form also includes an 'Exit Controls' section with 'Cancel', 'Save & New', and 'Save' buttons.

7. A new Leave Rule record has been created. (See Figure 9)

Figure 9

8. You can create and relate a Leave Rule Item record to this Leave Rule record if there are accruals required (either Fixed Per Period, Units per Hour Worked, or Leave Grant). Please refer to the Setup Leave Rule Items QRG for more information.
9. To modify an existing **Leave Rule** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
10. When complete, click on the **Save** button.

In order to delete a Leave Rule, please ensure: a) the associated Leave Rule Item is deleted, b) Leave Rule is not used in a leave template, c) Leave Rule is not used in a Payee Leave Rule and d) Leave Rule is not used in a Leave Event.

Field Descriptions

Accrual Reduction Pay Code is the Pay Code used to offset Leave Accrual hours each Pay Calendar Period from a payee's gross pay. A common use case for this feature is the accrual of RDO.

Allow Leave Cash Out indicates whether Leave Cash Out can be processed for this Leave Rule.

Allow Maximum Balance Override indicates whether the Maximum Allowable Balance value can be overridden at a Payee Leave Rule record level.

Allow Minimum Balance Override indicates whether the Minimum Allowable Balance value can be overridden at a Payee Leave Rule record level.

Allow Pay in Advance indicates that Payee Leave Events related to this Leave Rule can be paid in advance. Only payee leave events covering complete Pay Calendar Periods can be paid in advance.

Apply Dual Leave Loading Calculations indicates if during Timesheet Interpretation, two Interpretation Rules are required for loading calculations.

Available in Portal? indicates whether the Leave Rule should be available within the Community.

Available Pay Rates defines which Pay Rates are available for user-selection when a Leave Take Payee Leave Event is created. Available values are Half Pay, Standard Pay and Double Pay.

Balance Only and Never Accrues 'Yes' means an accrual value will never be calculated but a balance will be maintained. This may be applicable to Leave Rules such as Unpaid Leave where there is never an accrual, grant or entitlement credited.

Can be Paid Out After Period indicates the type of period after which this Leave Rule can be paid out upon Payee Exit. The picklist values are Days, Weeks, Months and Years.

Can be Paid Out After Units indicates the number of units after which this Leave Rule can be paid out upon Payee Exit.

Can be Taken After Period indicates the type of period after which this Leave Rule can be taken.

Can be Taken After Units indicates the number of units after which this Leave Rule can be taken.

Cash Out Pay Code is the Pay Code that will be used in the Pay Transaction when a leave cash out is processed during pay batch calculation.

Credit Available in Portal? defines if the Payee Leave Rule is available in the Community to add a Payee Leave Event credit record.

Display Leave Balance As controls how the Leave Balance will be displayed on pay advice PDFs and in the Community. The picklist values are Hours, Days, and Hours and Days.

Display on Pay Advice? indicates whether this Leave Balance should be displayed on Pay Advice PDFs..

Effective Date is the earliest date this Leave Rule can be referenced in a Payee Leave Rule.

Expiry Date if populated, this date will be the last that the Leave rule can be used in any Leave Events, Leave Accruals, Cash Outs, and Payee Exits. If left blank, the Leave Rule is ongoing.

Leave Rule Name is the name given to the new Leave Rule record being created.

Loading Pay Code is the Pay Code that will be used in the creation of Leave Loading Pay Transactions when a Payee uses this Leave Rule.

Maximum Allowable Balance is the maximum allowable balance for the Leave Rule. This can be overridden on a Payee Leave Rule.

Minimum Allowable Balance is the lowest allowable balance for the Leave Rule. This can be overridden on a Payee Leave Rule.

Maximum Daily Quantity for Accrual is to be populated if there is a cap on the maximum quantity worked per day considered for the Leave Accrual. This is most useful for RDO Leave Rules where accruals may be based on hours per day.

Minimum Daily Quantity Worked is to be populated if there is a threshold of minimum units which must be worked per day for the Leave Accrual to apply. This is most useful for RDO Leave Rules where accruals

may be based on hours per day.

Pay Advice Display After Period indicates the type of period after which this Leave Rule balance will be available for display on Pay Advices. The picklist values are Days, Weeks, Months and Years.

Pay Advice Display After Units indicates the number of units after which this Leave Rule balance can be displayed on a Pay Advice.

Pay Code indicates the Pay Code used in Pay Transactions created for Payee Leave Events associated with this Leave Rule.

Pay Codes for Accrual Calculation indicates whether the Quantity of Units Worked for Leave accrual calculation will be based on all Pay Codes where 'Accrues Leave' = True, OR, based on a custom list. The picklist values are Defined on Pay Code and Custom List. This is most useful for RDO accruals where the standard accrual of leave does not always apply.

Pay Loading by Default indicates whether related Payee Leave Rules will be set up to pay loading by default when they are created. This can be overridden on a Payee Leave Rule.

Purchased Leave Pay Rate defines which Pay Rate the Payee will receive when they take Purchased Leave which is related to a Payee Deduction record. Either the average Pay Rate based on the total amount deducted, or the Pay Rate they are on when they take the Leave.

Reduce Auto Pay Units indicates whether leave takes for this Leave Rule should automatically reduce a Payee's Auto Pay Payment.

Service Calculated At indicates whether service is calculated at the start or end date of the pay calendar period during accrual calculations. The picklist values are Period Start and Period End.

Skip Manager Approval indicates whether manager approval can be skipped for this leave rule. This can be overridden on a Payee Leave Rule.

Time Off in Lieu Expiry Days defines how many days the Time Off In Lieu Balance remains available to be used. Once reached, any balance that has been here for that period will be removed.

Unpaid Pay Code defines the Pay Code that will be used for processing the unpaid component of a leave take when the Payee's leave balance has been exhausted.

Validate Balance on Leave Takes indicates whether the available leave balance will be validated when a Payee Leave Event is created with a record type of Leave Take.
