

Purpose

The purpose of this quick reference guide is to step through the process of completing Timesheets as a Payroll User. The intended audience for this document are standard users.

Steps

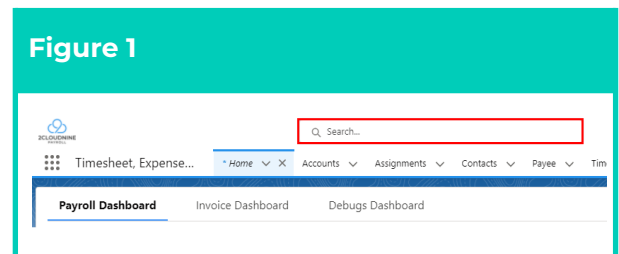

Complete a Timesheet record

The Timesheet record is used when processing Pay Transactions for the Calendar Period against a Temp Assignment. The record holds Timesheet Entries, Expenses, Leave Events, Allowances, Pay Transactions and Approval details.

Complete a Timesheet record as a Payroll User by following the below steps:

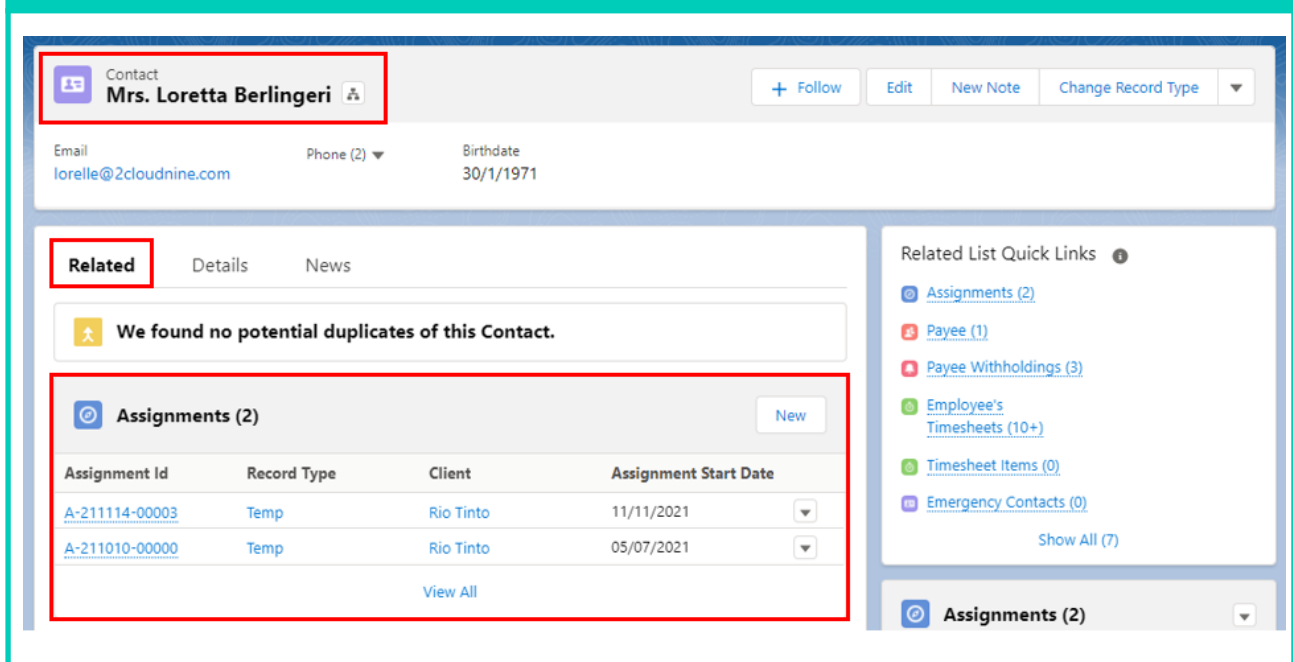

1. Open the **Assignment** record.
 - a. To identify an **Assignment** record from the **Employee** record, enter the **Employee** name into the Global Search (see Figure 1).

Figure 1

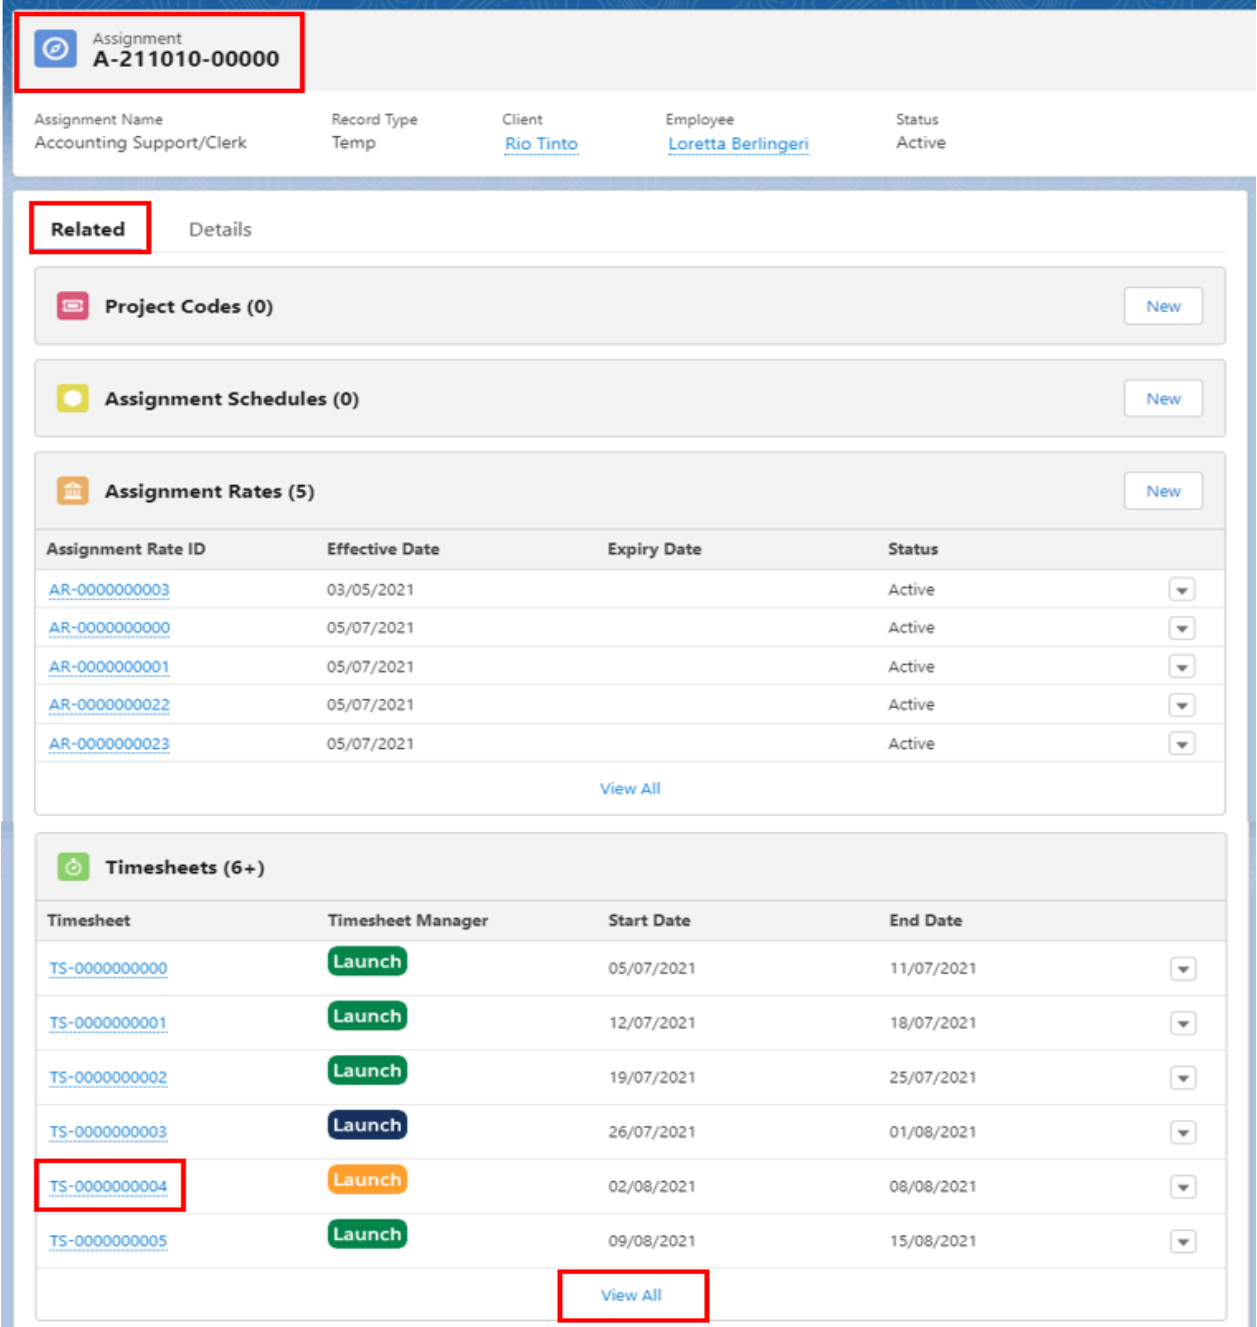

- b. Open the **Related** tab (see Figure 2).
 - c. Go to the **Assignment** related list.
 - d. Select the relevant **Temp Assignment** record. The assignment record will then open to view the Assignment's Details and Related records.

Figure 2

2. Open the **Related** tab (see Figure 3).
3. Scroll to the **Timesheets** Related List.
4. Select the appropriate **TS-** reference number to open Timesheet Manager.
 - a. Select **View All** to identify any Timesheets not included in the initial view of the related List View on the Assignment record.

Timesheets are created via system automation once a Temp Assignment has been configured with Assignment Rates, a Timesheet Calendar and an Interpretation Rule.

- If the Payee has the Time In Lieu Leave Rule available, users can determine whether any overtime should be attributed to Time Off in Lieu, by selecting from the picklist value in the optional **Update Process Time Off in Lieu?** field (see Figure 4):

Figure 4

Timesheet Actions

Update Process Time Off in Lieu

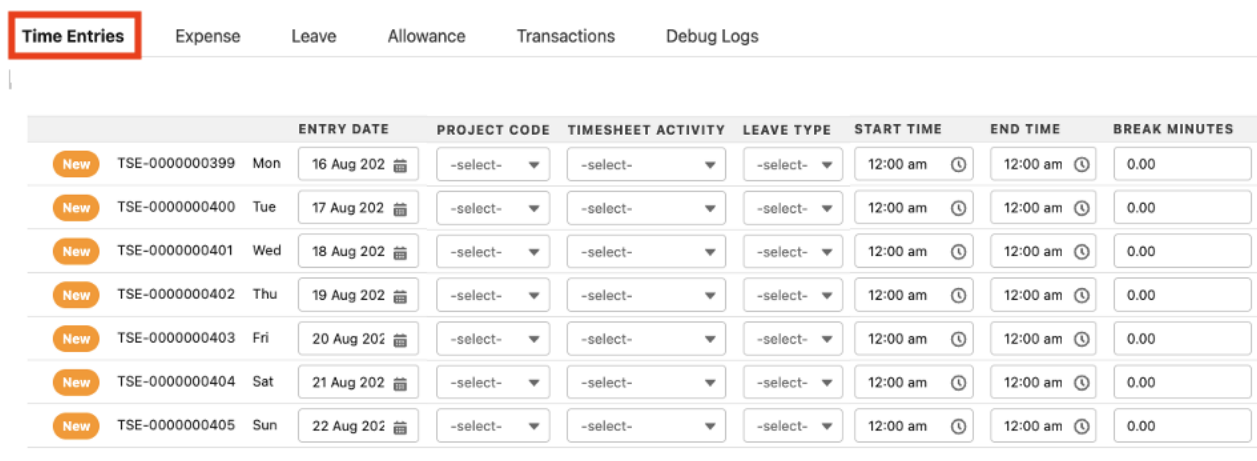

-Select-

Process Time off in Lieu? No

Timesheet Total Hours: 0

- Identify the Timesheet Entries within the Timesheet Manager **Time Entries** tab section (see Figure 5)

Figure 5

Timesheet formatting will differ depending on the Timesheet Calendar associated with the related Assignment record.

If the Assignment has an Assignment Schedule, then the Timesheet Entries may be pre-populated with the rostered work hours for the Employee. These hours can be manually overridden within the Timesheet Entry fields if needed.

7. Complete **Timesheet Entries**:

- a. To associate time worked with a Project record, populate the **Project Code** field using the picklist values provided (see Figure 6).

Figure 6

ENTRY DATE	PROJECT CODE	TIMESHEET ACTIVITY	LEAVE TYPE	HOURS	MIN	BREAK MINUTES	BREAK PAID?
Thu 11 Nov 2020	Assignment Rate Test	Assignment Rate Test Timesheet Activity	-select-	8.00	30.00	30.00	Yes
Fri 12 Nov 2020	-select-	-select-	-select-	8.00	30.00	30.00	Yes
Sat 13 Nov 2020	-select-	-select-	Personal Leave	8.00	0.00	0.00	No

- b. To associate time worked with a specific task detailed in the Interpretation Rule, populate the **Timesheet Activity** field using the picklist values provided (see Figure 7).

Figure 7

ENTRY DATE	PROJECT CODE	TIMESHEET ACTIVITY	LEAVE TYPE	HOURS	MIN	BREAK MINUTES	BREAK PAID?
Thu 11 Nov 2020	Assignment Rate Test	Assignment Rate Test Timesheet Activity	-select-	8.00	30.00	30.00	Yes
Fri 12 Nov 2020	-select-	-select-	-select-	8.00	30.00	30.00	Yes
Sat 13 Nov 2020	-select-	-select-	Personal Leave	8.00	0.00	0.00	No

- c. If the Payee has Payee Leave Rules available, the Leave Type column will be visible to select any of the Payee's available Leave Types. To include Leave, select **Leave Type** from the available picklist options within the Timesheet Entry row and enter either **Start Time** and **End Time** or **Hours** and **Mins** for any Leave taken along with breaks if they would normally take a break during that period (see Figures 8 - 9).

Figure 8

Fri 12 Nov 2020	-select-	-select-	-select-	8.00	30.00	30.00	Yes
Sat 13 Nov 2020	-select-	-select-	Personal Leave	8.00	0.00	0.00	No

Leave Events may also be viewed within the **Leave** tab. However, no additions or changes to Leave Events should be made using the Leave tab, which is only available to allow for the review of Leave Events related to a Timesheet. Interpretation for Leave can only occur if Leave Events have been recorded as Timesheet Entries within a Timesheet.

- d. To capture time worked, enter the **Start** and **End Times** or **Hours** and **Mins** for each day worked (see Figures 10 - 11).

Thu	11 Nov 20: 	Assignment Rate Test ▾	Assignment Rate Test Timesheet Activity ▾	-select- ▾	8.00	30.00	30.00	Yes ▾
Fri	12 Nov 20: 	-select- ▾	-select- ▾	-select- ▾	8.00	30.00	30.00	Yes ▾
Sat	13 Nov 20: 	-select- ▾	-select- ▾	Personal Leave ▾	8.00	0.00	0.00	No ▾

The **Break Paid?** field is only available in Timesheet Entries if the Timesheet Calendar associated with the related Assignment record has the **Enable Paid Breaks?** checkbox selected.

- f. To add additional Timesheet Entry lines, click the **plus** icon and adjust the date for the line as needed (see Figure 14)
 - i. You must Save at least one Timesheet Entry row before this option is available
- g. To copy the values from Timesheet Entries to lower rows, click the **downward arrow** icon (see Figure 14)
 - i. You must Save at least one Timesheet Entry row before this option is available
- h. To delete a Timesheet Entry row, select the **trash can** icon (see Figure 14)

Figure 14

8. Once you are satisfied with the Timesheet Entries, click on the **Save** button (see Figures 15 - 16).

Timesheet formatting will differ depending on the Timesheet Calendar associated with the related Assignment record.

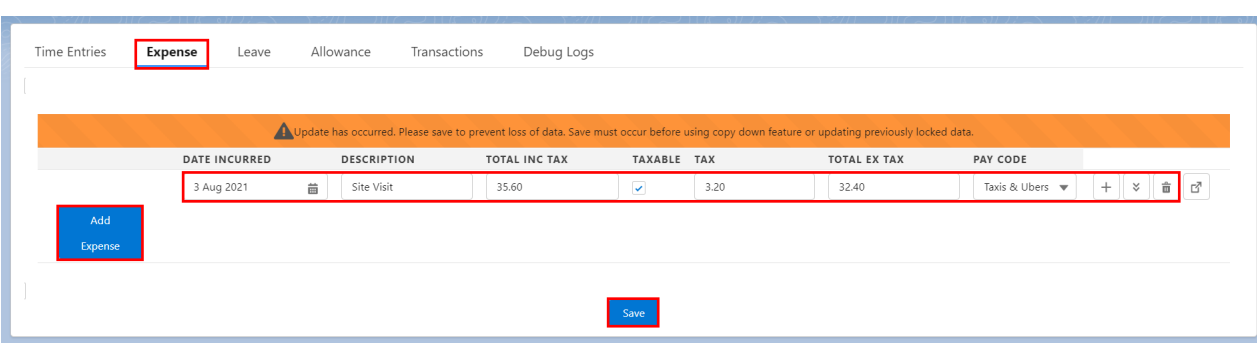

When completing Timesheet Entry rows using the Total Hours format, Minutes should be entered as total minutes to the nearest whole number.

You must **Save** before proceeding further. Changes made past this point will cause any unsaved Timesheet Entries to be erased, including Leave Entries (if applicable).

9. To add Expense entries to the Timesheet (see Figure 17):
 - a. Navigate to the **Expense** Tab and click the **Add Expense** button
 - b. Populate the following fields to provide the base details for the Expense entry:
 - i. To define the date that the Expense was incurred on, populate the **Date Incurred** field by manually entering or using the calendar selection tool.
 - ii. To provide a short description of the Expense, populate the **Description** field.
 - iii. To provide the total amount of the Expense, populate the **Total Inc. Tax** field.
 - iv. To relate a Pay Code to the Expense, select from the picklist values provided in the **Pay Code** field.
 - c. Populate the following optional fields as required (see Figure 14):
 - i. To include the amount of tax related to the Expense, select the **Taxable** checkbox
 - ii. To define the amount of Tax included in the Expense, populate the **Tax** field.
10. Repeat Step 9 for all Expenses related to the Timesheet.
11. Once complete, click on the **Save** button (see Figure 16).

Any Leave Entries that have been saved within Timesheet Entries will be automatically populated within the Leave Event Tab. However, the Leave tab should never be used to enter Leave events. Leave Entries that have been entered using the Leave Event tab will not appear within the Timesheet Entries, and will not be included in Timesheet Interpretation.

13. To add a Timesheet Allowance to the Timesheet (see Figure 19):
 - a. Navigate to the **Allowance** tab and click on the **Add Allowance** button
 - b. Populate the following fields to provide the base details for the Allowance entry:
 - i. To define the date that the Allowance is payable for, populate the **Date Incurred** field by entering manually or using the calendar selection tool.
 - ii. To define the Allowance payable, select from the picklist options available in the **Payee Allowance** field.
 - iii. To define the amount of times an Allowance is being claimed for on the date specified, populate the **Quantity** field.
 - c. Populate the following optional fields as required:
 - i. To add notes or comments to the Allowance entry, populate the **Employee Notes** field
14. Repeat Step **13** for all additional Allowances related to the Timesheet.
15. Once complete, click on the **Save** button

Figure 19

DATE INCURRED	PAYEE ALLOWANCE	QUANTITY	EMPLOYEE NOTES
5 Aug 2021	Meal Allowance	1.00	

In order for Allowances to be displayed on a Timesheet, a Timesheet Allowance record must be configured for the Payee using the Allowance Pay Code..

Transactions are not created until the Timesheet is Approved. They will be processed in a scheduled job or can be triggered manually by Payroll Users, based on the Interpretation Rule, Assignment Rates, and other information populated in the Timesheet.

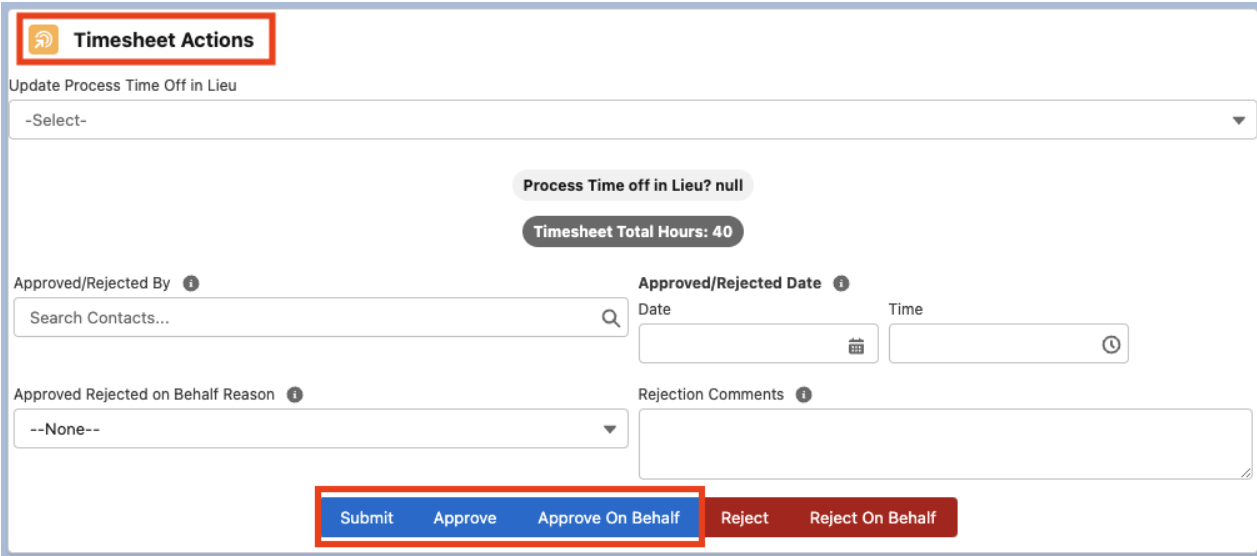

Submit/Approve and Process a Timesheet record

Once the Timesheet Entries and any Expenses and Allowances have been saved, the Timesheet is ready to be submitted for approval. Timesheets must be approved by a Timesheet Approver or Payroll User before they will be processed for Pay Transaction creation.

Submit/Approve and Process a Timesheet by following the below steps:

1. Identify the **Timesheet Actions** section within the Timesheet Manager page and complete one of the following actions to prepare the Timesheet for Payroll Processing (see Figure 20):
 - a. To submit a Timesheet for Approval, click on the **Submit** button.
 - b. To approve a Timesheet:
 - i. Enter the Contact approving the Timesheet in the **Approved/Rejected by** field
 - ii. Enter the date and time of the approval in the **Approved/Rejected Date** fields
 - iii. Click on the **Approve** button.
 - c. To approve the Timesheet on behalf of another Approver:
 - i. Populate the **Approved Rejected on Behalf Reason** field using the picklist options available.
 - ii. Click on the **Approve On Behalf** button.

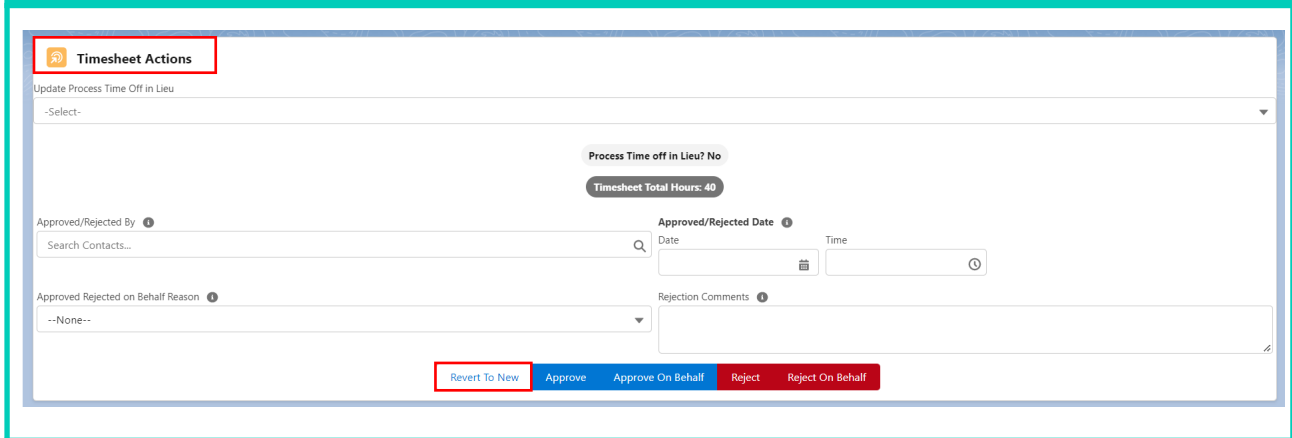

Figure 20

If using the Approve of Behalf function, the **Approved/Rejected By** and **Approved/Rejected Date** fields will be automatically populated with the name of the user who has provided Approval, and the date/time that Approval was provided. However, the automated values may be overridden if required.

2. To make changes to a **Submitted**, **Rejected** or **Approved** Timesheet (see Figure 21):
 - a. Open the Submitted/Rejected Timesheet.
 - b. Navigate to **Timesheet Actions**.
 - c. Click the **Revert To New** button.
 - d. Make the necessary changes to the Timesheet and select **Save**.
 - e. Repeat Step 1 to prepare the Timesheet to be Processed

Figure 21

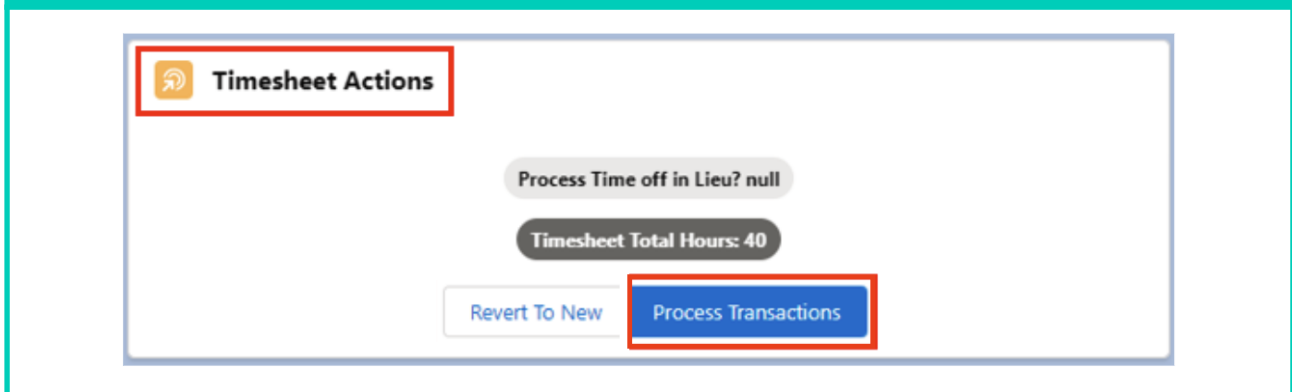

The screenshot shows the 'Timesheet Actions' form. At the top, there is a tab labeled 'Timesheet Actions'. Below it, there is a dropdown menu for 'Update Process Time Off in Lieu' with '-Select-' as the current selection. To the right, there are two buttons: 'Process Time off in Lieu? No' and 'Timesheet Total Hours: 40'. Below these, there are two sections: 'Approved/Rejected By' with a search bar and 'Approved/Rejected Date' with date and time pickers. At the bottom, there is a dropdown for 'Approved/Rejected on Behalf Reason' with '--None--' selected, and a text area for 'Rejection Comments'. At the very bottom, there are five buttons: 'Revert To New' (highlighted with a red box), 'Approve', 'Approve On Behalf', 'Reject', and 'Reject On Behalf'.

3. To begin Processing an **Approved** Timesheet (see Figure 22):
 - a. Select **Process Transactions** to run the Interpretation Rule against this Timesheet and create the Pay Transactions

OR

Allow the next Schedule Job to automatically create the Pay Transactions against all Approved Timesheets

Figure 22

This screenshot is a zoomed-in view of the 'Timesheet Actions' form. It shows the 'Timesheet Actions' tab at the top. Below it, there are two buttons: 'Process Time off in Lieu? null' and 'Timesheet Total Hours: 40'. At the bottom, there are two buttons: 'Revert To New' and 'Process Transactions' (highlighted with a red box).

Timesheets that are Processed can only be edited if you use the **Revert to New** function. No changes can be made to any Timesheets once they are either Invoiced or included in a Pay Batch.

Field Descriptions

Approval Status is the Approval Status of the Timesheet.

Approved/Rejected by is the Approver who approved/rejected the Timesheet.

Approved Rejected on Behalf Reason if the Timesheet was approved/rejected on Behalf of the Approver, this field records the reason why the Timesheet was approved/rejected. The following default options are available for selection from this field, however this may be customised according to your requirements:

- Could not contact Approver or Alternate Approver
- No hours or expense records
- Auto Approved

Approved/Rejected Date is the last Date/Time the Timesheet was Approved or Rejected.

End Date indicates the End Date of the Timesheet.

Flagged For Review identifies if the Timesheet is flagged for the Payroll User to review. This then comes up in some standard Reports.

Interpretation Rule defines the Interpretation Rule that will be used in the processing of Timesheets into Pay Transactions.

Process Time Off in Lieu indicates if the Timesheet should be processed as Time Off in Lieu instead of Overtime.

Project Code indicates the Project that the Time Entry is related to, which also provides the ability for a different Pay rate for the record time (and Invoice Rate if that function is also used).

Related Split Over Month Timesheet displays the related timesheet, if a timesheet has been split into 2 timesheets by the Split Timesheets Over Months functionality.

Rejection Comments if the Timesheet has an Approval Status of Rejected, this field defines the reason given by the Approver for the rejection.

Start Date indicates the start date of the Timesheet.

Start Day indicates the start day of the Timesheet.

Submitted Date is the Date/Time the Timesheet was Submitted.

Timesheet Activity indicates the specific task detailed in the Interpretation Rule that the Time Entry is related to, which will often require a different Pay Rate to regular working hours during that time.

Total Hours indicates the total number of hours for the Timesheet, by summarising the total hours of all related Timesheet Entries.

Total Timesheet Entries is the total number of Timesheet Entries related to the Timesheet.

Total Expenses is the total number of Expenses related to the Timesheet.

Timesheet Split Over Months is set to True for Timesheets that have been split into two Timesheets by the Split Timesheets Over Months functionality.

Total Timesheet Allowances is the count of the total number of Timesheet Allowances related to the Timesheet.

Transaction Creation Status is the stage in the Pay Transaction creation process the Timesheet is in, updated by the application automatically:

- New = Timesheet has not been Approved
- Ready = Timesheet is Approved, and is ready to be Processed
- Processed = Timesheet has had Pay Transactions created
- Failed = the process to create Pay Transactions failed, Users should check Debug Logs

Process Time Off in Lieu indicates if hours interpreted as overtime should be created as a Time Off In Lieu credit instead of creating Overtime Pay Transactions.
