

Purpose

The purpose of this quick reference guide is to step through the process of completing Timesheets as a Payroll User. The intended audience for this document are Payroll Users.

Steps

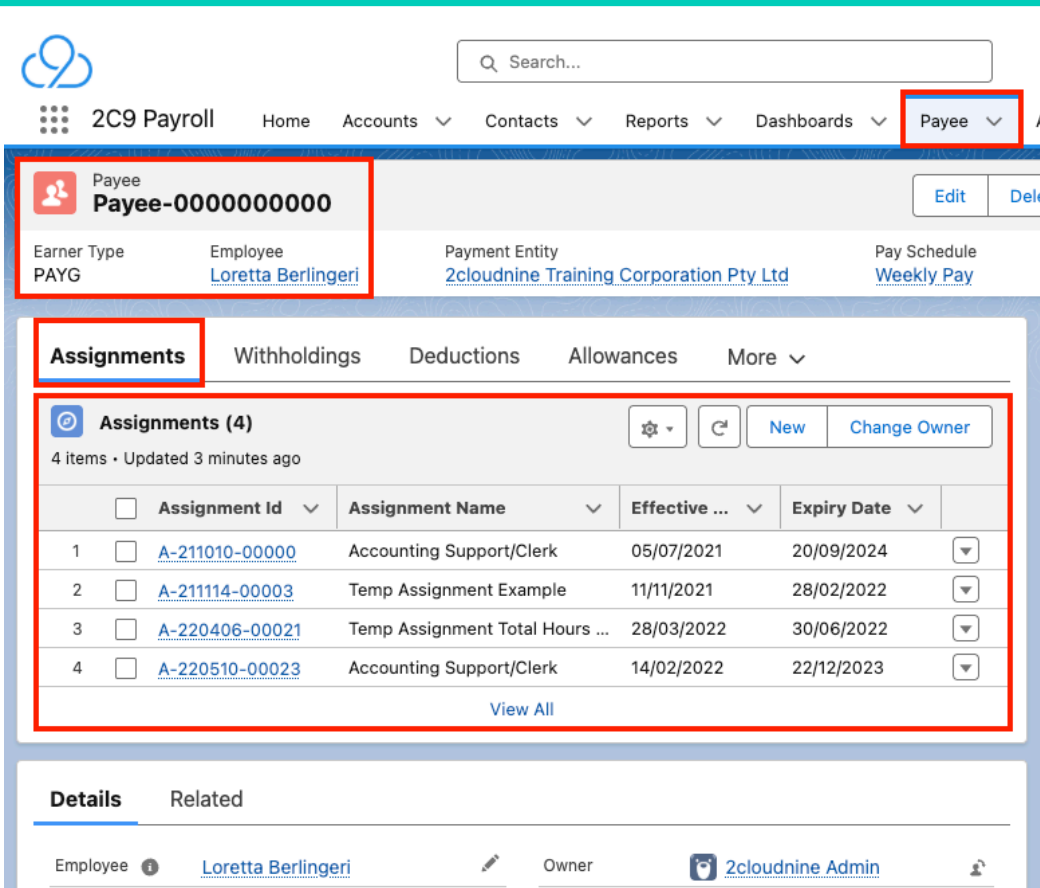

Complete a Timesheet

The Timesheet Manager is used to populate Timesheet Entries to reflect hours associated with a specific period of time, facilitating the creation of Pay Transactions for a Temp Assignment. The Timesheet record holds Timesheet Entries, and possibly also Expenses, Leave Events, Allowances, Pay Transactions and Approval details.

Complete a Timesheet record as a Payroll User by following the steps below:

1. Go to the **Assignment** record.
 - a. To review the **Assignment** records related to an Employee, navigate to the associated Payee record.
 - b. Select the appropriate **Assignment** record from the related list on the Payee record (see Figure 1).

Figure 1

The screenshot displays the 2CloudNine Payroll interface. At the top, the navigation bar includes '2C9 Payroll', 'Home', 'Accounts', 'Contacts', 'Reports', 'Dashboards', and a dropdown menu for 'Payee'. The main content area shows the 'Payee' record for 'Payee-0000000000'. Below this, the 'Assignments' tab is selected, showing a list of 4 assignments. The table below details these assignments:

Assignment Id	Assignment Name	Effective ...	Expiry Date
A-211010-00000	Accounting Support/Clerk	05/07/2021	20/09/2024
A-211114-00003	Temp Assignment Example	11/11/2021	28/02/2022
A-220406-00021	Temp Assignment Total Hours ...	28/03/2022	30/06/2022
A-220510-00023	Accounting Support/Clerk	14/02/2022	22/12/2023

Below the table, there is a 'View All' link. The bottom section of the interface shows 'Details' and 'Related' tabs, with the 'Details' tab currently active, displaying the 'Employee' as 'Loretta Berlingeri' and the 'Owner' as '2cloudnine Admin'.

2. Navigate to the related Timesheet record by following this step in the sequence given below:
 - a. From the Assignment record, select the **Related** tab (see Figure 2).
 - b. Scroll to the **Timesheets** Related List (see Figure 3).
 - c. Select the appropriate **TS**-reference number to open the Timesheet and launch the Timesheet Manager (see Figure 4).

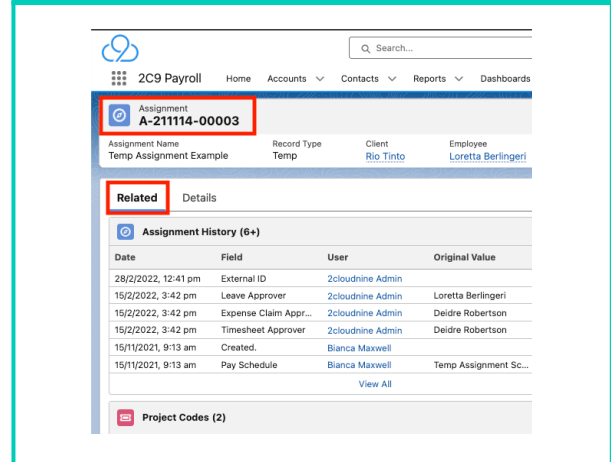

If the Timesheet you require is not visible from this page, select **View All** to display the full list of Timesheets related to this Assignment.

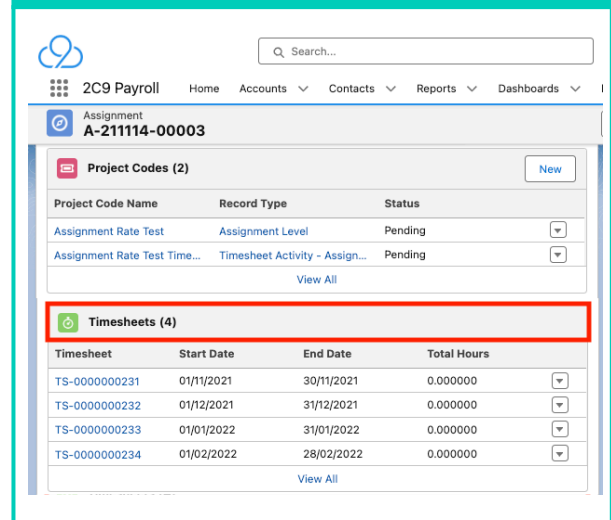

Timesheets are created via system automation once a Temp Assignment has been configured with Assignment Rates, a Timesheet Calendar and an Interpretation Rule.

TS-0000000234	01/02/2022	28/02/2022	0.000000

3. Review the selected Timesheet within the Timesheet Manager (see Figure 5).

Figure 5

The screenshot shows the Timesheet Manager interface for Timesheet TS-0000000231. The interface includes a top navigation bar with the 2C9 Payroll logo and various menu items. The main section displays the Timesheet details, including Start Date (1/11/2021), End Date (30/11/2021), Total Hours (0.000000), and Total Expenses (20). Below this, there are sections for Timesheet Actions, Approved/Rejected By, and a table of Time Entries. The Time Entries table has columns for Entry Date, Timesheet Activity, Leave Type, Hours, Mins, Break Minutes, Break Paid?, Break 2 Minutes, Break 2 Paid?, Notes, and Total Hours. The table shows entries for dates from 11 Nov 2021 to 17 Nov 2021. The 'Time Entries' tab is highlighted with a red box, and the 'Total Hours' column is also highlighted with a red box.

Timesheet formatting is set by the Timesheet Calendar associated with the related Assignment. Fields and values displayed within the Timesheet Manager will vary according to the data related with the Assignment and Payee.

Some options displayed within the Timesheet Manager are only available once at least one line of Timesheet Entry data has been saved. To use the buttons highlighted above, update Total Hour values, or review Timesheet Items via Leave, Expense and Allowance tabs, please review steps 3 - 12 to populate the necessary Timesheet data.

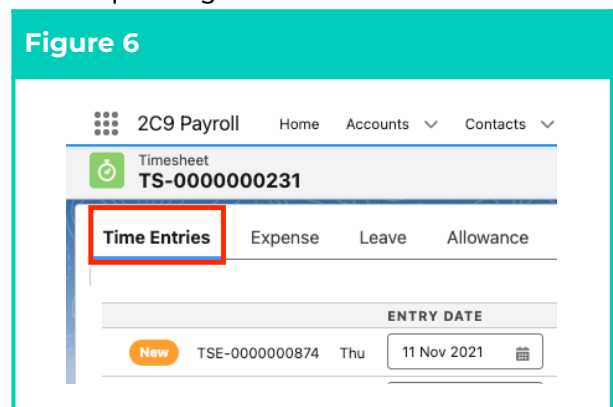

4. To complete Timesheet Entries, follow this step in the sequence given below:

- a. Identify the Timesheet Entries within the Timesheet Manager **Time Entries** tab section (see Figure 6).

If the Assignment has an Assignment Schedule, Timesheet Entries may be pre-populated with expected work hours for the Employee. These hours may be manually overridden, as required.

Figure 6

The screenshot shows the Timesheet Manager interface for Timesheet TS-0000000231. The 'Time Entries' tab is highlighted with a red box. The interface shows the 'ENTRY DATE' section with a 'New' button and a date selector for 11 Nov 2021. The 'Time Entries' tab is also highlighted with a red box.

- b. To associate a Project Code from the related Assignment with a Timesheet Entry, select from the available picklist options in the **Project Code** field (see Figure 7).

Figure 7

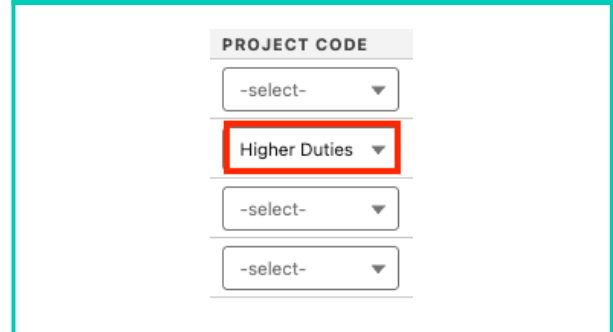

Figure 7 shows a dropdown menu titled "PROJECT CODE". The menu is open, displaying four options: "-select-", "Higher Duties", "-select-", and "-select-". The "Higher Duties" option is highlighted with a red border.

- c. To associate a Timesheet Activity from the related Assignment with a Timesheet Entry, select from the available picklist options in the **Timesheet Activity** field (see Figure 8).

Figure 8

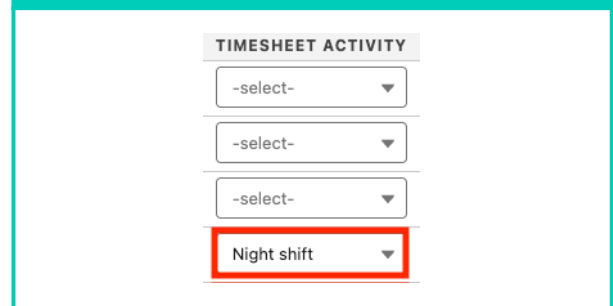

Figure 8 shows a dropdown menu titled "TIMESHEET ACTIVITY". The menu is open, displaying four options: "-select-", "-select-", "-select-", and "Night shift". The "Night shift" option is highlighted with a red border.

- d. If Payee Leave Rules are available for the related Payee, populate any Payee Leave Events applicable for Timesheet Entries by selecting from the available picklist options in the **Leave Type** field (see Figure 9).

Figure 9

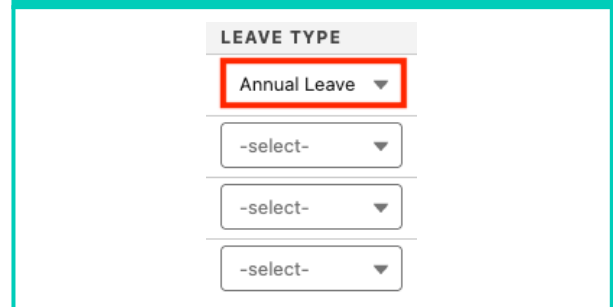

Figure 9 shows a dropdown menu titled "LEAVE TYPE". The menu is open, displaying four options: "Annual Leave", "-select-", "-select-", and "-select-". The "Annual Leave" option is highlighted with a red border.

Leave Events may also be viewed from the Timesheet Leave tab after at least one Timesheet Entry with a Leave Type populated is saved. However, no changes to Leave Events should be made outside of Timesheet Entries.

- e. To record time, use the available fields to enter hours:
- For Start/End Times, populate the **Start Time** and **End Time** fields (see Figure 10).

OR

Figure 10

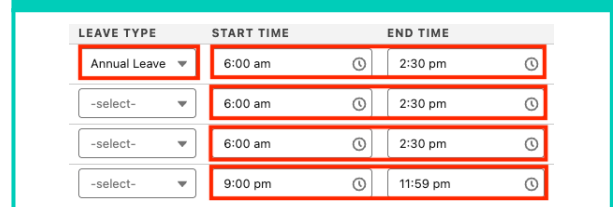

Figure 10 shows a table with four rows and three columns: "LEAVE TYPE", "START TIME", and "END TIME". The first row is highlighted with a red border. The "LEAVE TYPE" column contains "Annual Leave", "-select-", "-select-", and "-select-". The "START TIME" column contains "6:00 am", "6:00 am", "6:00 am", and "9:00 pm". The "END TIME" column contains "2:30 pm", "2:30 pm", "2:30 pm", and "11:59 pm". Each cell in the first row has a clock icon to its right.

LEAVE TYPE	START TIME	END TIME
Annual Leave	6:00 am	2:30 pm
-select-	6:00 am	2:30 pm
-select-	6:00 am	2:30 pm
-select-	9:00 pm	11:59 pm

- ii. For Total Hours, populate the **Hours** and **Mins** fields (see Figure 11).

When using the Total Hours format (i.e. Hours and Mins fields), Minutes should be entered as total minutes to the nearest whole number.

- f. Use the following fields to define Breaks:

- i. For Start/End Times, populate the Break Start Time and Break End Time fields (see Figure 12).

OR

- ii. For Total Hours, populate the **Break Minutes** fields using whole numbers (see Figure 13).

- iii. To define whether each Break should be paid, select from the available picklist options in the **Break Paid** field (see Figures 12 - 13).

Additional Break Entry fields (i.e. Break 2) are only available if specifically configured for an Org. Please reach out to your System Administrator for support, if required.

The Break Paid? field is only available if the related Assignment's Timesheet Calendar has the Enable Paid Breaks? checkbox selected. If not populated, this field will default to No.

When completing Leave Entries, any Breaks normally occurring across the period of Leave **MUST** be populated as usual.

5. Once you are satisfied with the Timesheet Entries, click on the **Save** button (see Figure 14).

Save

6. To alter saved Timesheet Entry lines, use the following UI buttons (see Figure 15):

- Click the **plus** icon to add additional Timesheet Entry lines.
- To copy all values from a Timesheet Entry to lower rows, click the **downward arrow** icon.
- To delete a Timesheet Entry row, select the **trash can** icon.

Figure 15

If adding new lines to existing Timesheets, please review the dates of each Line, and make any necessary adjustments accordingly.

You **MUST** Save Timesheet Entries before proceeding further. Changes made past this point will cause all unsaved Entries to be erased.

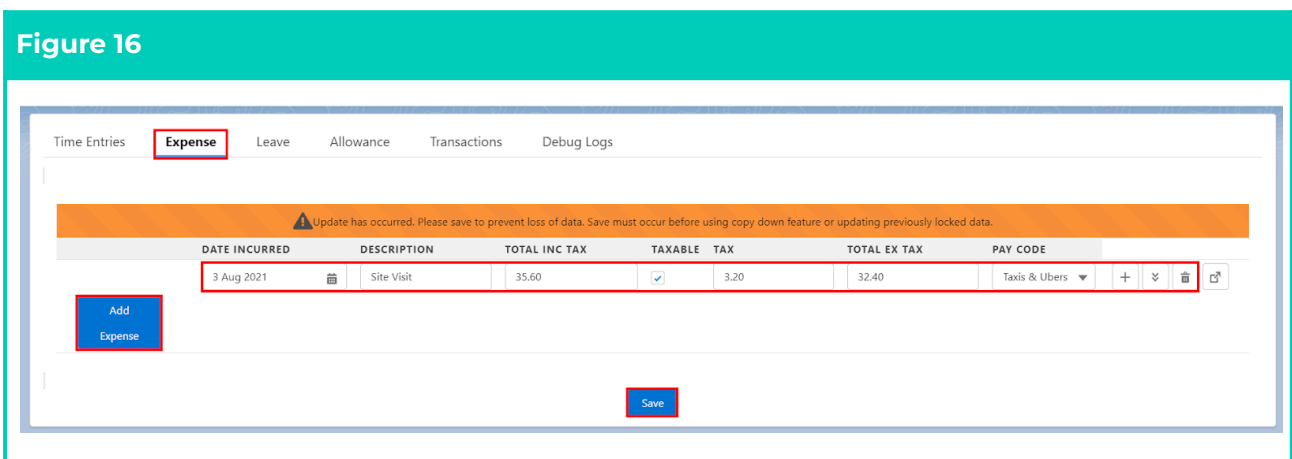

7. To add Expenses to the Timesheet, follow this step in the sequence given (see Figure 16):

- Navigate to the **Expense** Tab and click the **Add Expense** button.
- Define the date the Expense was incurred by populating the **Date Incurred** field manually, or by using the calendar selection tool.
- Provide a short description for the Expense by populating the **Description** field.
- Record the total amount of the Expense by populating the **Total Inc. Tax** field.
- To detail tax separately from the total of the Expense:
 - Select the **Taxable** checkbox field.
 - Record the amount of Tax included in the Expense by populating the **Tax** field.
 - Record the amount of the Expense excluding Tax by populating the **Total Ex Tax** field.
- Relate a Pay Code to the Expense by selecting from the available picklist options in the **Pay Code** field.

8. Repeat step 7 until all Expenses related to the Timesheet have been populated.

9. Once all Expenses have been added, click on the **Save** button (see Figure 16).

Figure 16

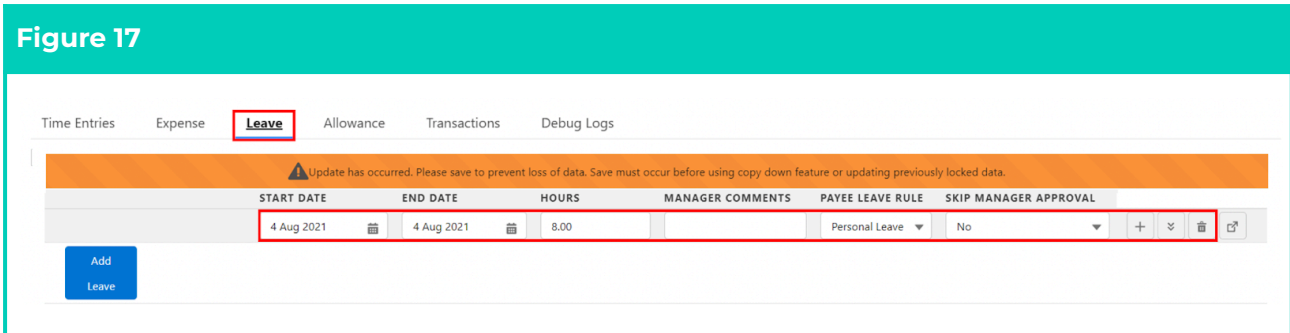

DATE INCURRED	DESCRIPTION	TOTAL INC TAX	TAXABLE	TAX	TOTAL EX TAX	PAY CODE
3 Aug 2021	Site Visit	35.60	☒	3.20	32.40	Taxis & Ubers

If the required Pay Code is not available for selection, contact your System Administrator for support.

10. To review any Leave entries related to the Timesheet, navigate to the **Leave** tab (see Figure 17).
 - a. To bypass Manager Approval for a Leave Entry, select **Yes** from the available picklist options in the **Skip Manager Approval** field.

Figure 17

4 Aug 2021	4 Aug 2021	8.00		Personal Leave	No

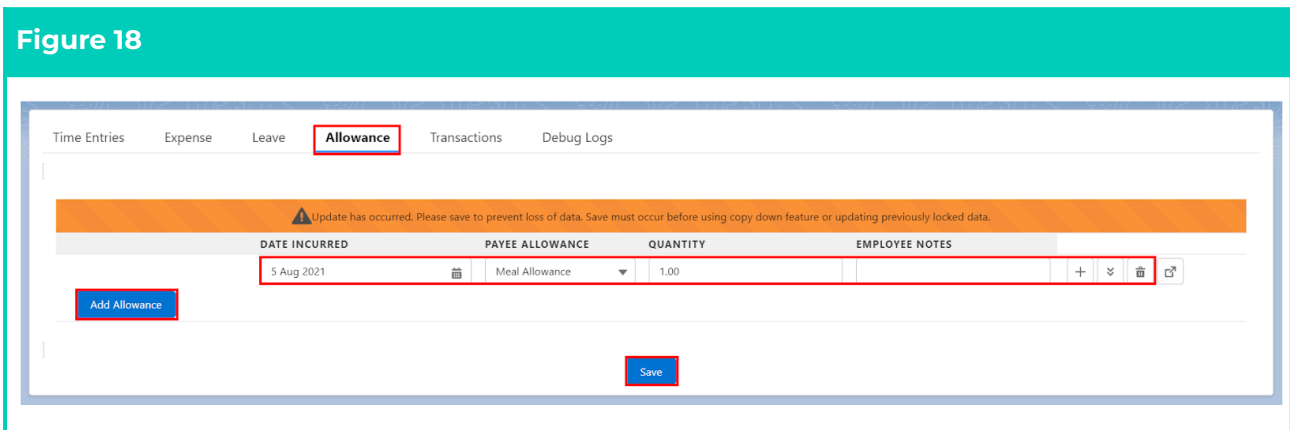

Add Leave

The Leave tab must NEVER be used to enter new Leave Events. Leave MUST be entered via Timesheet Entries to be considered during Timesheet Interpretation.

11. To add a Timesheet Allowance to the Timesheet (see Figure 18):
 - a. Navigate to the **Allowance** tab and click on the **Add Allowance** button.
 - i. Define the payable date for the Allowance by populating the **Date Incurred** field, either manually or by using the calendar selection tool.
 - ii. Define the Allowance to be paid by selecting from the available picklist options in the **Payee Allowance** field.
 - iii. Define the units to be paid for the Date Incurred of this Allowance by populating the **Quantity** field.
 - iv. Record any notes or comments for the Allowance Entry by populating the **Employee Notes** field.
12. Repeat Step 11 for all required Allowances related to the Timesheet.
13. Once complete, click on the **Save** button.

DATE INCURRED	PAYEE ALLOWANCE	QUANTITY	EMPLOYEE NOTES
5 Aug 2021	Meal Allowance	1.00	

Add Allowance

Save

Allowances will only be displayed here if the Allowance Pay Code populated within Timesheet Entries is also related to the associated Payee.

The creation of Pay Transactions will not commence until Timesheets are in an Approved status.

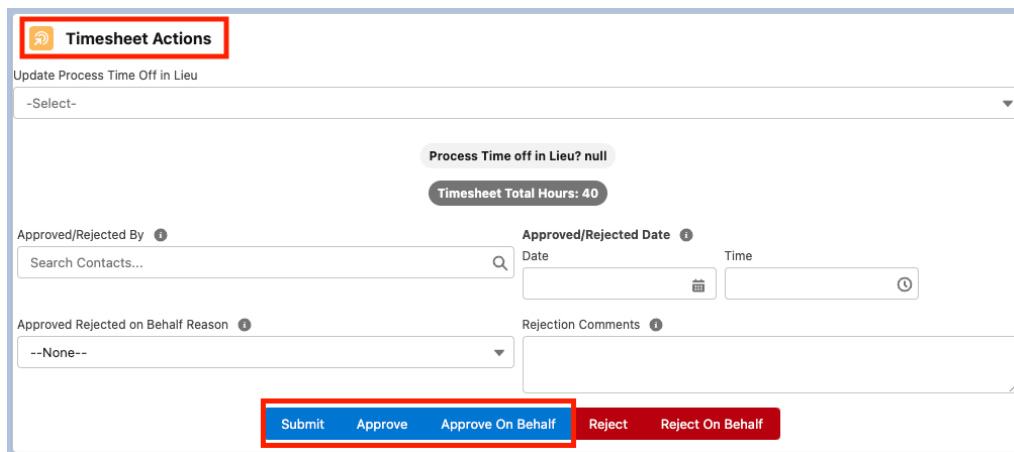

Submit/Approve and Process a Timesheet record

Once all Timesheet Entries, Expenses and Allowances have been saved, the Timesheet is ready to be submitted for approval. Timesheets must be approved by a Timesheet Approver or Payroll User before they may be processed for Pay Transaction creation.

Submit, Approve and initiate Timesheet processing by following the below steps:

14. Identify the **Timesheet Actions** section within the Timesheet Manager page (see Figure 19).
15. If Time In Lieu is enabled for the related Payee:
 - a. Determine whether Overtime hours contribute to Leave balances by selecting from the available picklist options in the **Update Process Time Off in Lieu?** field.
16. Submit the Timesheet for approval by clicking on the **Submit** button.
17. To approve the Timesheet as an Approver:
 - a. Enter the Contact approving the Timesheet in the **Approved/Rejected by** field
 - b. Enter the date and time of the approval in the **Approved/Rejected Date** fields
 - c. Click on the **Approve** button.
18. To approve the Timesheet on behalf of another Approver:
 - a. Populate the **Approved Rejected on Behalf Reason** field using the picklist options available.
 - b. Click on the **Approve On Behalf** button.

Figure 19

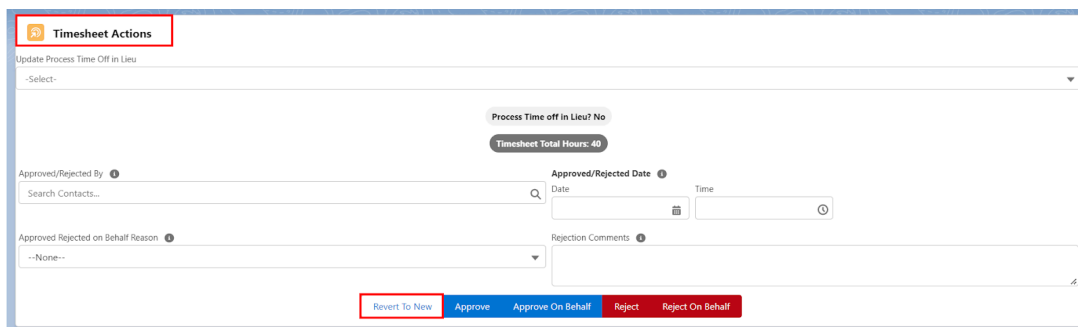

If the required values are not available from the Approved Rejected on Behalf Reason field, contact your System Administrator for support.

When Approve on Behalf is selected, the Approved/Rejected By and Approved/Rejected Date fields will automatically be populated with the User who initiated Approval, along with a date/time stamp. These automated values may be overridden, if required.

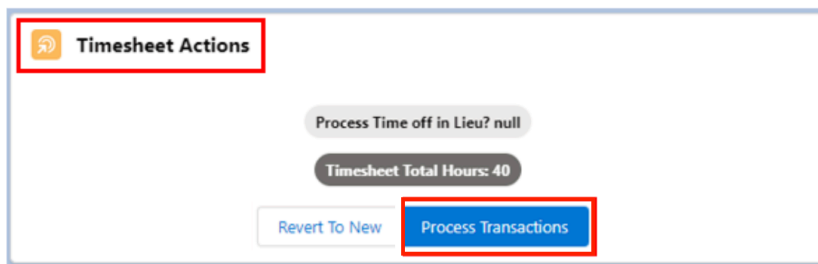

19. To make changes to a **Submitted**, **Rejected** or **Approved** Timesheet (see Figure 20):
 - a. Open the Submitted/Rejected Timesheet.
 - b. Navigate to **Timesheet Actions**.
 - c. Click the **Revert To New** button.
 - d. Make the necessary changes to the Timesheet and select **Save**.
 - e. Repeat steps 15 - 18 to Approve the Timesheet for Payroll processing.

Figure 20

20. To initiate Payroll processing for an **Approved** Timesheet (see Figure 21):
 - a. To manually initiate Interpretation and Pay Transaction creation for this Timesheet alone, select the **Process Transactions** button.
 - OR**
 - b. Allow the next Schedule Job to automatically initiate Interpretation and Pay Transaction creation for all Timesheets with an Approved status.

Figure 21

Timesheets with a Processed Status may only be edited via the **Revert to New** function prior to being Invoiced or included in a Pay Batch. After this time, no changes can be made to any Timesheets.

Field Descriptions

Field Name	Description
Approval Status	The Approval Status of the Timesheet.
Approved/Rejected by	The Approver who approved/rejected the Timesheet.
Approved Rejected on Behalf Reason	When Timesheets are Approved/Rejected on Behalf of the Approver, this field records the reason why. The following default options are available for selection, however these may be customised according to your requirements: • Could not contact Approver or Alternate Approver • No hours or expense records • Auto Approved
Approved/Rejected Date	The last Date/Time the Timesheet was Approved or Rejected.
End Date	Indicates the End Date of the Timesheet.
Flagged For Review	When selected, identifies the Timesheet as flagged for a Payroll User's review, and facilitates reporting via standard Reports.
Interpretation Rule	Defines the Interpretation Rule that will be used in the processing of Timesheets into Pay Transactions.
Process Time Off in Lieu	When Yes is selected, indicates that interpretation should generate Time Off in Lieu credits rather than Overtime Pay Transactions for entitled Overtime.
Project Code	When populated, indicates that a Project Code is related to the Timesheet Entry, providing the ability for different Pay Rates (and potentially Invoice Rates) to be applied.
Related Split Over Month Timesheet	Specifies a Timesheet that includes related Entries, if the Split Timesheets Over Months functionality has been applied.
Rejection Comments	When Timesheets have an Approval Status of Rejected, this field defines the reason given by the Approver for the rejection.
Start Date	Indicates the start date of the Timesheet.
Start Day	Indicates the start day of the Timesheet.
Submitted Date	Automatically populates the Date/Time the Timesheet was Submitted.
Timesheet Activity	When populated, indicates that the Timesheet Entry relates to an activity outside the scope of normal work. This enables Interpretation to apply different conditions, including Pay Rates (and potentially Invoice Rates) when assessing the Timesheet Entry.
Total Hours	Indicates the total number of hours for the Timesheet by summarising the hours entered across all related Timesheet Entries.
Total Timesheet Entries	The total number of Timesheet Entries related to the Timesheet.
Total Expenses	The total number of Expenses related to the Timesheet.
Timesheet Split Over Months	Automatically selected when related Timesheets are split into multiple records by the Split Timesheets Over Months functionality on the original Timesheet Calendar.
Total Timesheet Allowances	The total number of Timesheet Allowances related to the Timesheet.
Transaction Creation Status	Updated automatically to indicate the Timesheet's current stage within the Pay Transaction creation process: • New: Timesheet has not been Approved • Ready: Timesheet is Approved, and is ready to be Processed • Processed: Timesheet has Pay Transactions created • Failed: The process to create Pay Transactions failed, Users should check Debug Logs
