

Purpose

The purpose of this quick reference guide is to step through the process of calculating a single Payee within a Pay Batch instead of using the Calculate on the entire Pay Batch. The intended audience for this document is Standard Payroll Users.

The ability to calculate a single Payee is used mainly when adjustments have been made to a Payee's Pay Batch, such as Pay Transactions, Superannuation Withholding, PAYG Withholding, or other related records, and therefore the Payee Pay Batch needs to be recalculated.

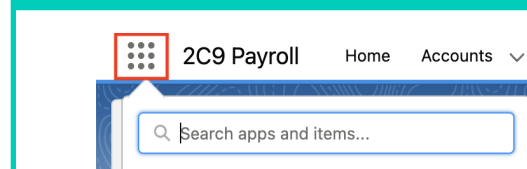

Steps

Calculate a single Payee within a Pay Batch

To Calculate a single Payee within a Pay Batch, the following steps should be completed. Please skip to the next page if you already have the Pay Batch Manager UI open on your screen:

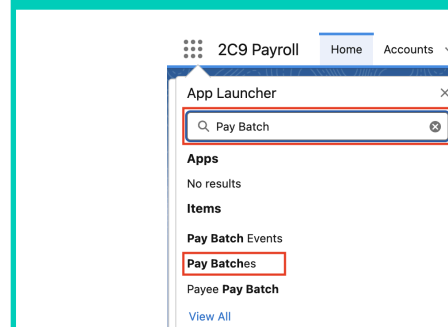

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

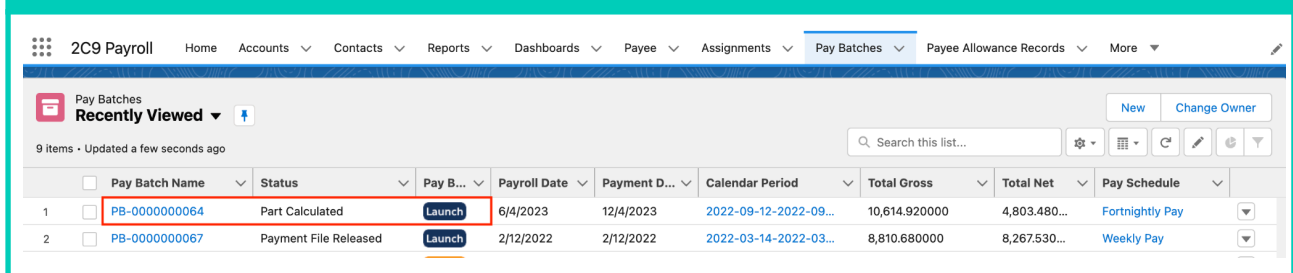

2. Go to the **Pay Batches** object by using the Search function (see Figure 2).

Figure 2

3. From the List View, select a Pay Batch with the status of Part Calculated suggesting that changes have already been made to the records since the last calculation was performed, or, a status of Calculated if there are changes that are yet to be applied to one of the Payee Pay Batches, which will then change the status to Part Calculated, and click the **Launch** button (see Figure 3).

Figure 3

	Pay Batch Name	Status	Pay B...	Payroll Date	Payment D...	Calendar Period	Total Gross	Total Net	Pay Schedule
1	PB-0000000064	Part Calculated	Launch	6/4/2023	12/4/2023	2022-09-12-2022-09...	10,614.920000	4,803.480...	Fortnightly Pay
2	PB-0000000067	Payment File Released	Launch	2/12/2022	2/12/2022	2022-03-14-2022-03...	8,810.680000	8,267.530...	Weekly Pay

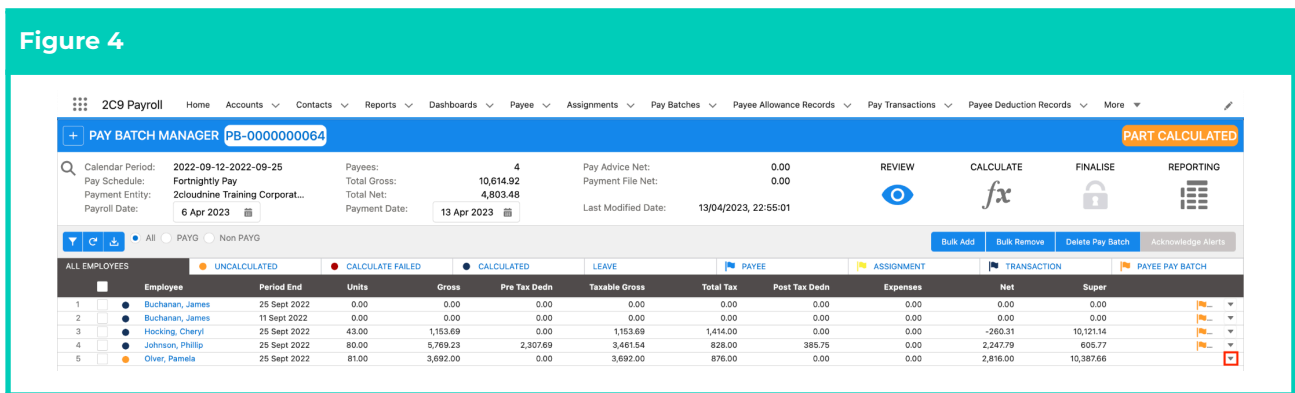

For newly created Payee Pay Batches, if the Status is Uncalculated and they have never been Calculated before, the individual Part Calculate button will remain disabled. Whereas if their Status is Uncalculated and they have been Calculated before, the individual Part Calculate button will be enabled for these Payee Pay Batches, and the Pay Batch status will be Part Calculated.

Calculate a single Payee's Pay Batches via the Manual Adjustments screen

- Under the **Review** screen of the Pay Batch Manager, locate the Payee Pay Batch that requires adjustments and/or recalculation, and click the action button  at the end of the row (see Figure 4).

- The **Payee Pay Batch - Calculate** popup will automatically appear with a Status of Calculating, and a confirmation message saying 'Calculation process has started. Please wait.' (see Figure 8).

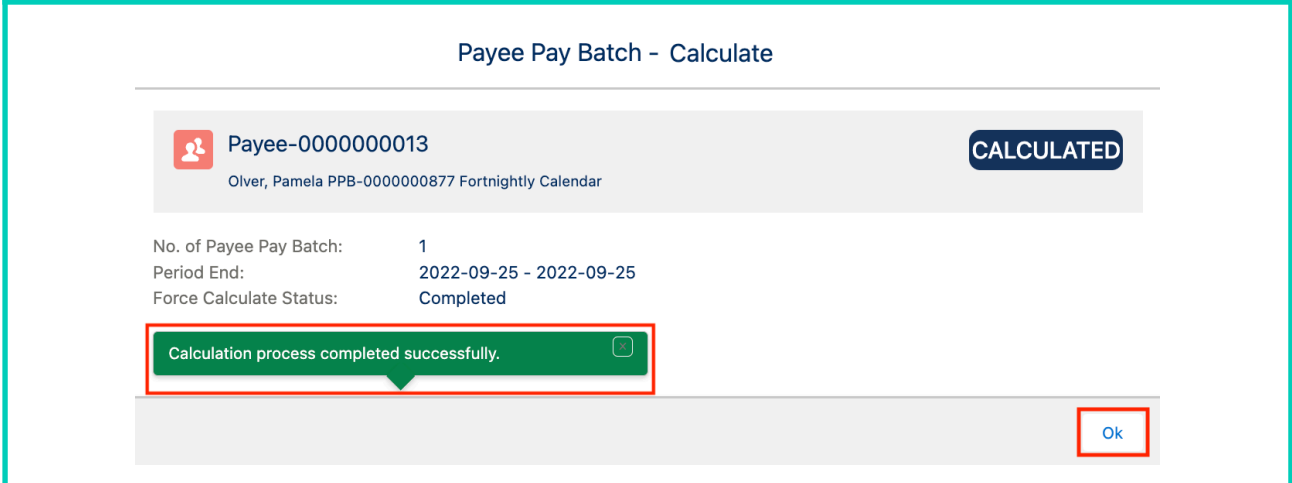

Figure 8

The screenshot shows a popup titled "Payee Pay Batch - Calculate". At the top, there is a header bar with a red icon, the text "Payee-0000000013", and a green button labeled "CALCULATING". Below this, the text "Olver, Pamela PPB-0000000877 Fortnightly Calendar" is displayed. The main content area shows the following details: "No. of Payee Pay Batch: 1", "Period End: 2022-09-25 - 2022-09-25", and "Force Calculate Status: Processing" with a loading spinner. A red box highlights a dark blue message box that says "Calculation process has started. Please wait." with a close button. At the bottom right, there is an "Ok" button.

- Once the Calculation has been completed, the **Payee Pay Batch - Calculate** popup will display an update of the Status to either Calculated or Calculate Failed, based on the successful completion of the Calculation Process (see Figure 9).
- Click on the **OK** button.

Figure 9

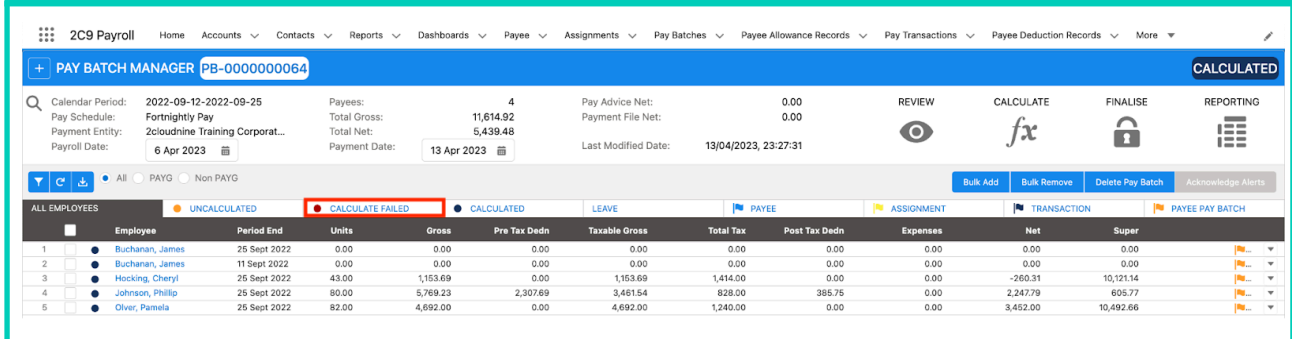

The screenshot shows the same popup as Figure 8, but the status has changed. The green "CALCULATING" button is now a dark blue button labeled "CALCULATED". The "Force Calculate Status" is now "Completed". A red box highlights a green message box that says "Calculation process completed successfully." with a close button. The "Ok" button at the bottom right is also highlighted with a red box.

If the Status changes to Calculate Failed, Users need to investigate the reason for the Failed Calculation by reviewing the Calculation Failed tab and investigating any debugs that were created (see Figure 10).
