

Purpose

The purpose of this quick reference guide is to step through the process of Exclude from Payment File. The intended audience for this document is Standard Payroll Users.

Exclude from Payment File is used to exclude a single Payee from the Payment File, but must be actioned before the Pay Batch has a status of Payment File Created.

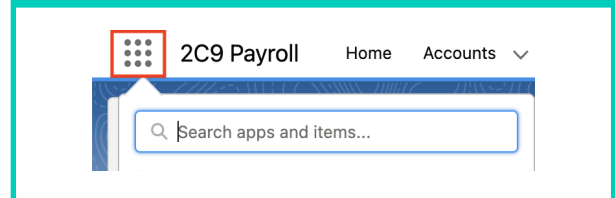

Steps

Exclude from Payment File

To Exclude a Payee from the Payment File, the following steps should be completed. Please skip to step 4 if you already have the Pay Batch Manager UI open on your screen:

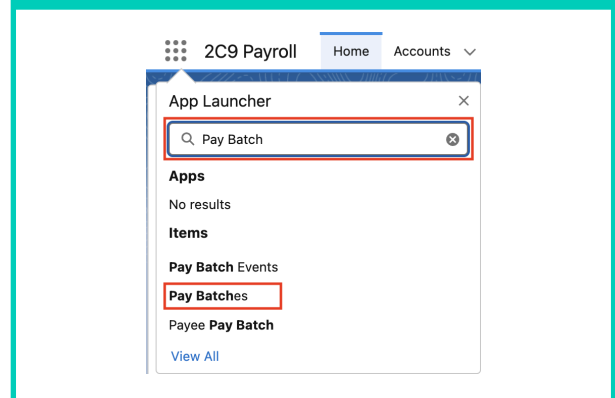

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

2. Go to the **Pay Batches** object by using the Search function (see Figure 2).

Figure 2

3. From the List View, select the Pay Batch you want to review with the status of Pay Advice Created and click the **Launch** button (see Figure 3).

- Under the Review navigation icon of the Pay Batch Manager, locate the Payee Pay Batch that requires recalculation, and click the action dropdown button  at the end of the row (see Figure 4).

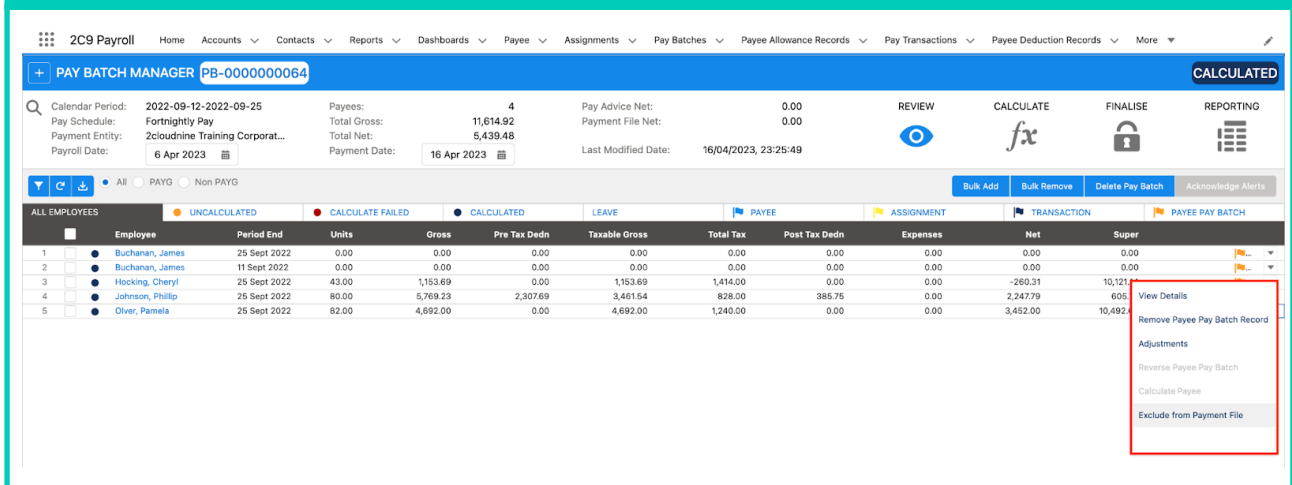

Figure 4

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000000064. It displays a table of employees with columns for Employee, Period End, Units, Gross, Pre Tax Dedn, Taxable Gross, Total Tax, Post Tax Dedn, Expenses, Net, and Super. The 'Payee Pay Batch' column has a dropdown arrow at the end of the row for Oliver, Pamela.

- Click on the **Exclude From Payment File** option (see Figure 5).

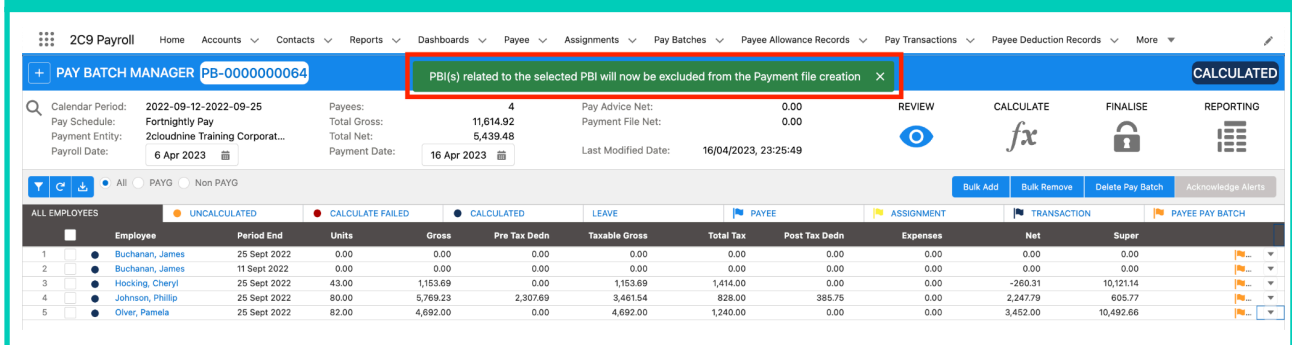

Figure 5

The screenshot shows the 'PAY BATCH MANAGER' interface with the dropdown menu open for the 'Payee Pay Batch' column. The 'Exclude From Payment File' option is highlighted.

- Once the process has been completed, a notification message will appear advising the 'PBI(s) related to the selected PBI will now be excluded from the Payment file creation' (see Figure 6).

Figure 6

The screenshot shows the 'PAY BATCH MANAGER' interface with a notification message displayed at the top: 'PBI(s) related to the selected PBI will now be excluded from the Payment file creation'.

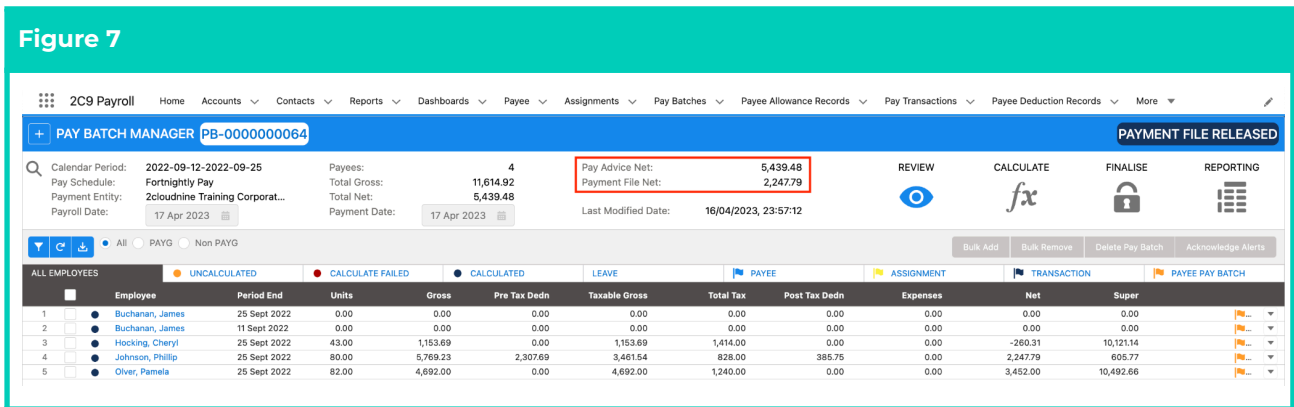

After actioning, all Payee Pay Batches for this Payee within this Pay Batch will be Excluded from the Payment File. For example, if the Pay Batch has 5 Payee Pay Batches in it related to the same Payee, and just one Payee Pay Batch has the Exclude from Payment File option selected, then it applies to all Payee Pay Batches for that Payee.

'PBI' within the notification message refers to a Payee Pay Batch which is split per Payee, per Pay Calendar Period, and is a grouping of all the related records.

- Users can proceed with their regular processing of the Pay Batch to the status of Payment File Released, and those that were excluded will not be included in the Payment File or the total figure detailed in the UI for the field Payment File Net. The screenshot below indicates that the Pay Advice Net amount is different from the Payment File Net amount, which must balance the value of the Payee Pay Batches actioned as Exclude from Payment File, as well as any Payee Pay Batches where the Payment Details are not set up as Payee Australian Bank (see Figure 7).

Once the Pay Batch has proceeded to the status of Payment File Released, if payment is required to be made to the excluded Payee for their Net Pay, the payment will need to be created directly within the Payment Entity's online banking system.

Include in Payment File

If a Payee Pay Batch that has been excluded from the creation of the Payment File, now needs to be included again, and the Pay Batch status has not yet progressed to Payment File Released, please follow the below steps:

1. Go to the Payee Pay Batch related to the Payee, now to be included in the Payment File, click the action dropdown button  at the end of the row and select **Include in Payment File** (see Figure 8).

Figure 8

The screenshot shows the 'PAY BATCH MANAGER' interface for pay batch PB-0000000064. The interface includes a top navigation bar with various menu items like Home, Accounts, Contacts, Reports, Dashboards, Payee, Assignments, Pay Batches, Payee Allowance Records, Pay Transactions, Payee Deduction Records, and More. Below the navigation bar, there's a search bar and a filter section with options for All, PAYG, and Non PAYG. The main table lists employees with their respective pay details. A dropdown menu is open for the first row, showing options: View Details, Remove Payee Pay Batch Record, Adjustments, Reverse Payee Pay Batch, Calculate Payee, and Include in Payment File. The 'Include in Payment File' option is highlighted.

2. Users can proceed with the remaining steps to Create and Release the Payment File, and the Payee will now be included.

The Include in Payment File option is only available for Payee Pay Batches where the Payee has previously had the Exclude from Payment File option selected.
