

Purpose

The purpose of this quick reference guide is to step through the process of creating a Payee Exit. The intended audience for this document is Standard Payroll Users.

The Payee Exit process is used to expire records and create any required Pay Transactions in preparation for the Employee's final payroll, along with documenting their Cessation Date and Cessation Reason.

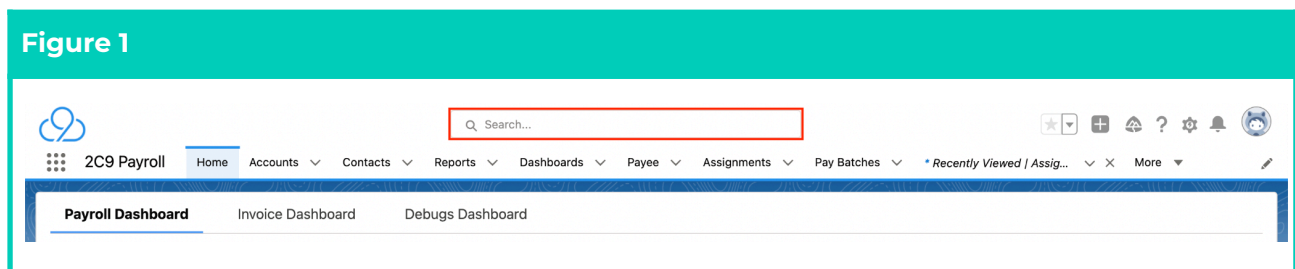

Steps

Navigate to the Payee Record and Payee Exit User Interface

To get started and create a Payee Exit, follow these steps:

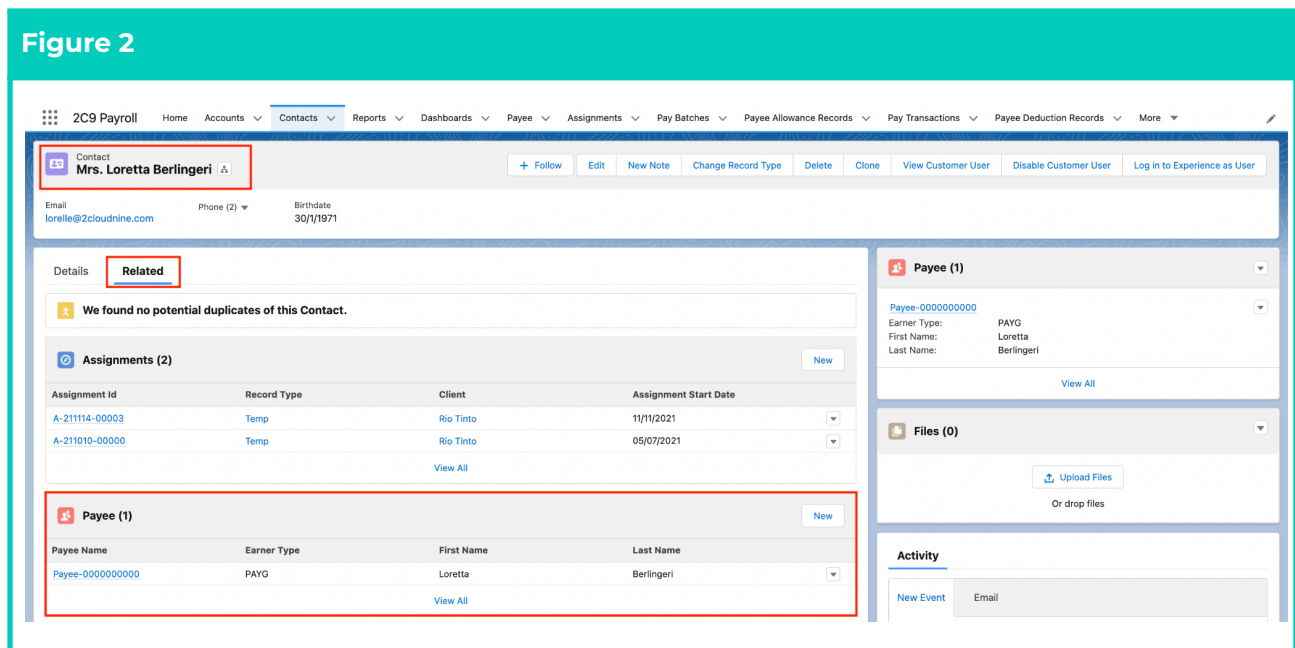

1. Go to the **Payee** record.
 - a. To identify a Payee record from an Employee record, enter the Employee name into the **Global Search** (see Figure 1).
 - b. Select the **Employee** record from the suggestions provided.

Figure 1

- c. Open the **Related** tab (see Figure 2).
- d. Identify the **Payee** related list.
- e. Select the **Payee** record.

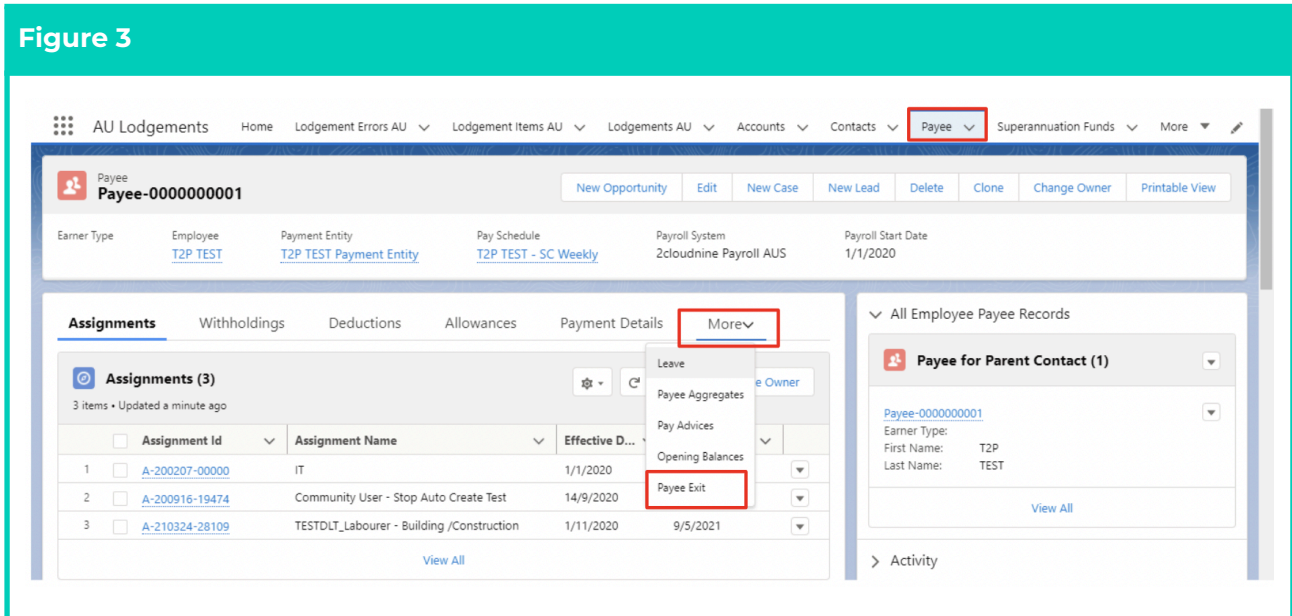

Figure 2

- In the related records section at the top of the page, click on the **More** option to the right of the tabs and select **Payee Exit** (see Figure 3).

The Payee Exit tool, set to the Basic tab by default, will be displayed (the Payee Exit tab can be edited by any System Administrator user and they can remove components, reorder them etc.)

Figure 3

Selecting the Required Payee Exit Method

There are 2 methods available for completing the Payee Exit:

- Basic**
The Basic method is used to record the last day of employment and their Exit Reason while expiring any Payee-related records such as Assignments, Assignment Rates, Payee Leave Rules, Payee Deduction Records, and Payee Allowances Records.
- Advanced**
In addition to completing the same functions of the Basic method, the Advanced method is used to collect additional information in relation to the Payee Exit while also calculating and preparing records ready for the Payee's final payroll. This includes the calculation of any Leave entitlements to be paid. The Advanced tab can also be used to build a library of various exit scenarios for the Payee and to model their final payment.

Basic Payee Exit is preferably used for employees with Leave that is NOT payable upon termination. Advanced Payee Exit is mainly used for employees with Leave entitlements payable on termination.

If you need to process a Payee Exit using the Basic Payee Exit, please refer to page 3. Otherwise, for Advanced Payee Exit, please refer to page 7.

Basic Payee Exit

If using the Basic Payee Exit method, the following steps should be completed:

1. Under the Basic tab, populate the following fields (see Figure 4):
 - a. **Last Date of Employment**
 - b. **ATO Cessation Type**
 - c. **Exit Reason**

2 PLR-0000000012 Rostered Day Off	0	57.6923

The details of the records that will expire automatically when the record is saved are listed for reference only. No further action is required in relation to expiring the records. Their Expiry Date will be set as the Last Date of Employment (see Figure 7).

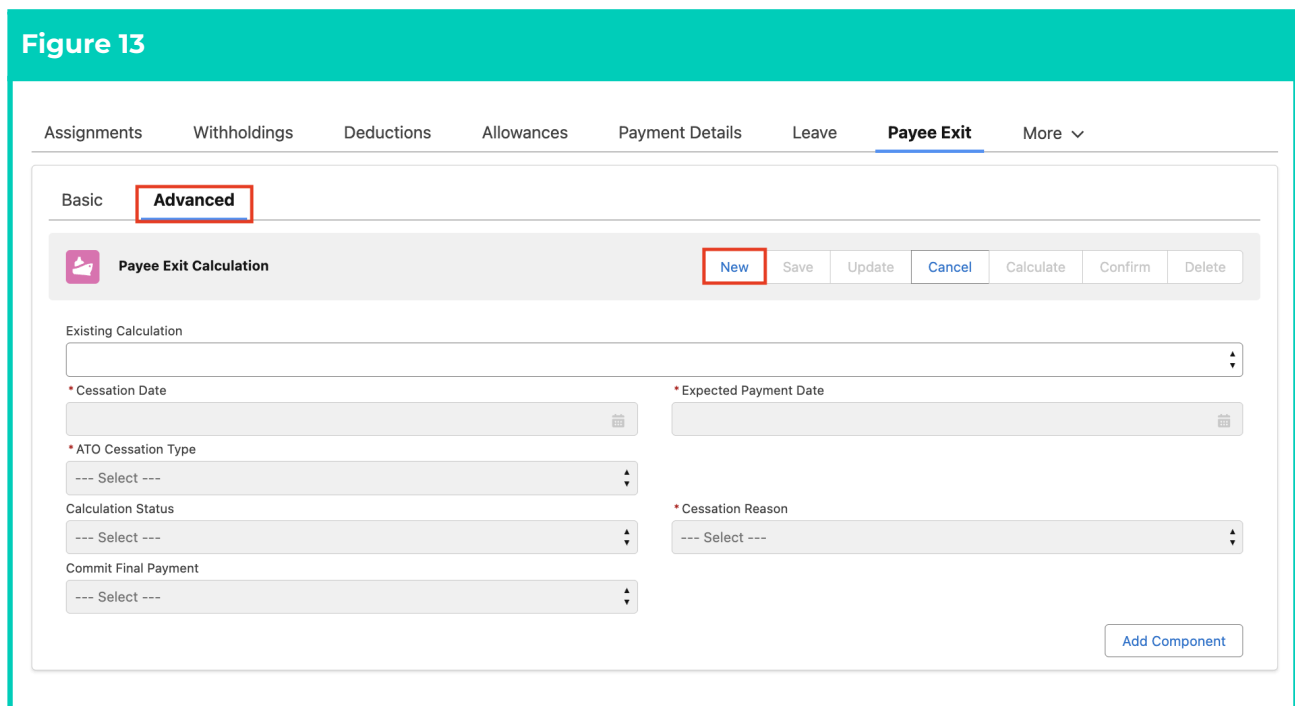

The only record types that are automatically selected to be paid out on termination (based on the 'Can be Paid Out' fields) are Annual Leave and LSL. Any other types of Leave can be picked up via the Payee Exit UI and will be considered as an ETP.

Advanced Payee Exit

If using the Advanced Payee Exit method, the following steps should be completed:

1. Click on the **Advanced** tab (see Figure 13).
2. To create a new record, click on the **New** button.

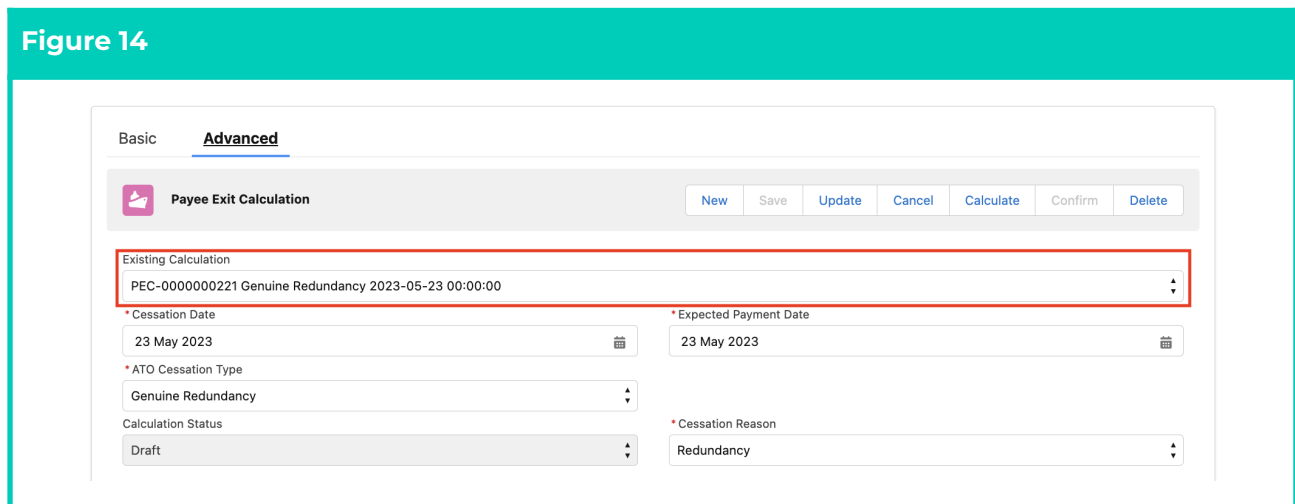

Figure 13

The screenshot shows the 'Payee Exit' section of the application. The 'Advanced' tab is selected and highlighted with a red box. Below the tabs, there is a 'Payee Exit Calculation' header with a 'New' button highlighted in a red box. Other buttons include 'Save', 'Update', 'Cancel', 'Calculate', 'Confirm', and 'Delete'. Below the header, there is an 'Existing Calculation' dropdown menu. Further down, there are several form fields: '* Cessation Date', '* Expected Payment Date', '* ATO Cessation Type' (a dropdown menu), 'Calculation Status' (a dropdown menu), and 'Commit Final Payment' (a dropdown menu). There is also a '* Cessation Reason' dropdown menu. An 'Add Component' button is located at the bottom right.

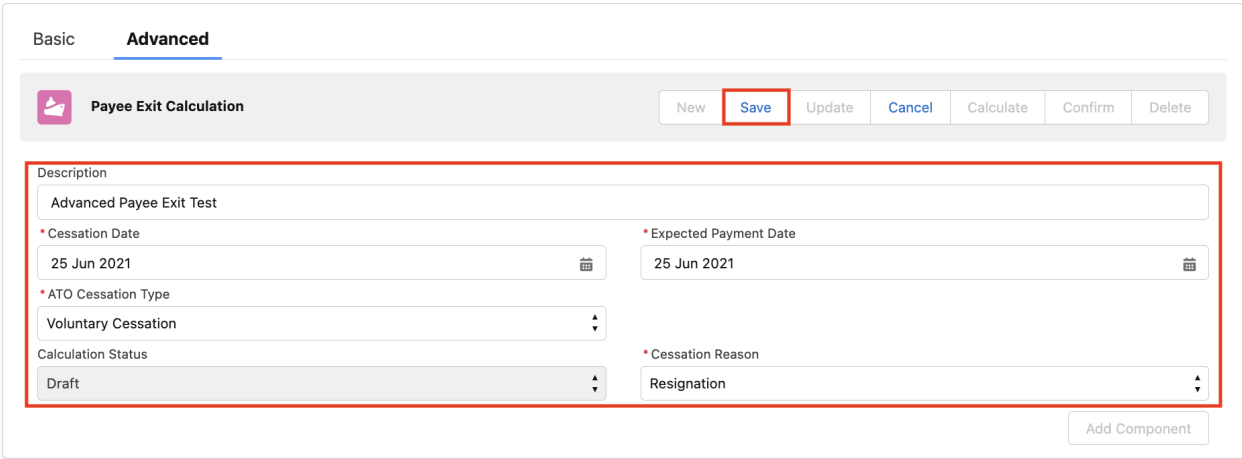

3. To view/update an existing Advanced Payee Exit calculation, select the relevant record in the Existing Calculation field instead of clicking the New button (see Figure 14).

Figure 14

The screenshot shows the 'Payee Exit' section of the application. The 'Advanced' tab is selected. Below the tabs, there is a 'Payee Exit Calculation' header with buttons: 'New', 'Save', 'Update', 'Cancel', 'Calculate', 'Confirm', and 'Delete'. Below the header, the 'Existing Calculation' dropdown menu is highlighted with a red box and contains the text 'PEC-0000000221 Genuine Redundancy 2023-05-23 00:00:00'. Below this, there are several form fields: '* Cessation Date' (23 May 2023), '* Expected Payment Date' (23 May 2023), '* ATO Cessation Type' (Genuine Redundancy), 'Calculation Status' (Draft), and '* Cessation Reason' (Redundancy).

4. Populate the following fields: (see Figure 15)
 - a. **Description**
 - b. **Cessation Date**
 - c. **Expected Payment Date**
 - d. **ATO Cessation Type**
 - e. **Cessation Reason**
5. Click on the **Save** button.
The system will save the record and populate the Calculation Id, Calculation Status and Summary of Exit Items records (see Figure 15).

Figure 15

The screenshot shows the 'Payee Exit Calculation' form with the 'Advanced' tab selected. The form includes a header bar with a 'Payee Exit Calculation' icon and a row of buttons: 'New', 'Save' (highlighted with a red box), 'Update', 'Cancel', 'Calculate', 'Confirm', and 'Delete'. Below the header, the form fields are organized into two columns. The left column contains 'Description' (text input), 'Cessation Date' (date picker), 'ATO Cessation Type' (dropdown), and 'Calculation Status' (dropdown). The right column contains 'Expected Payment Date' (date picker) and 'Cessation Reason' (dropdown). A red box highlights the entire form area. At the bottom right, there is an 'Add Component' button.

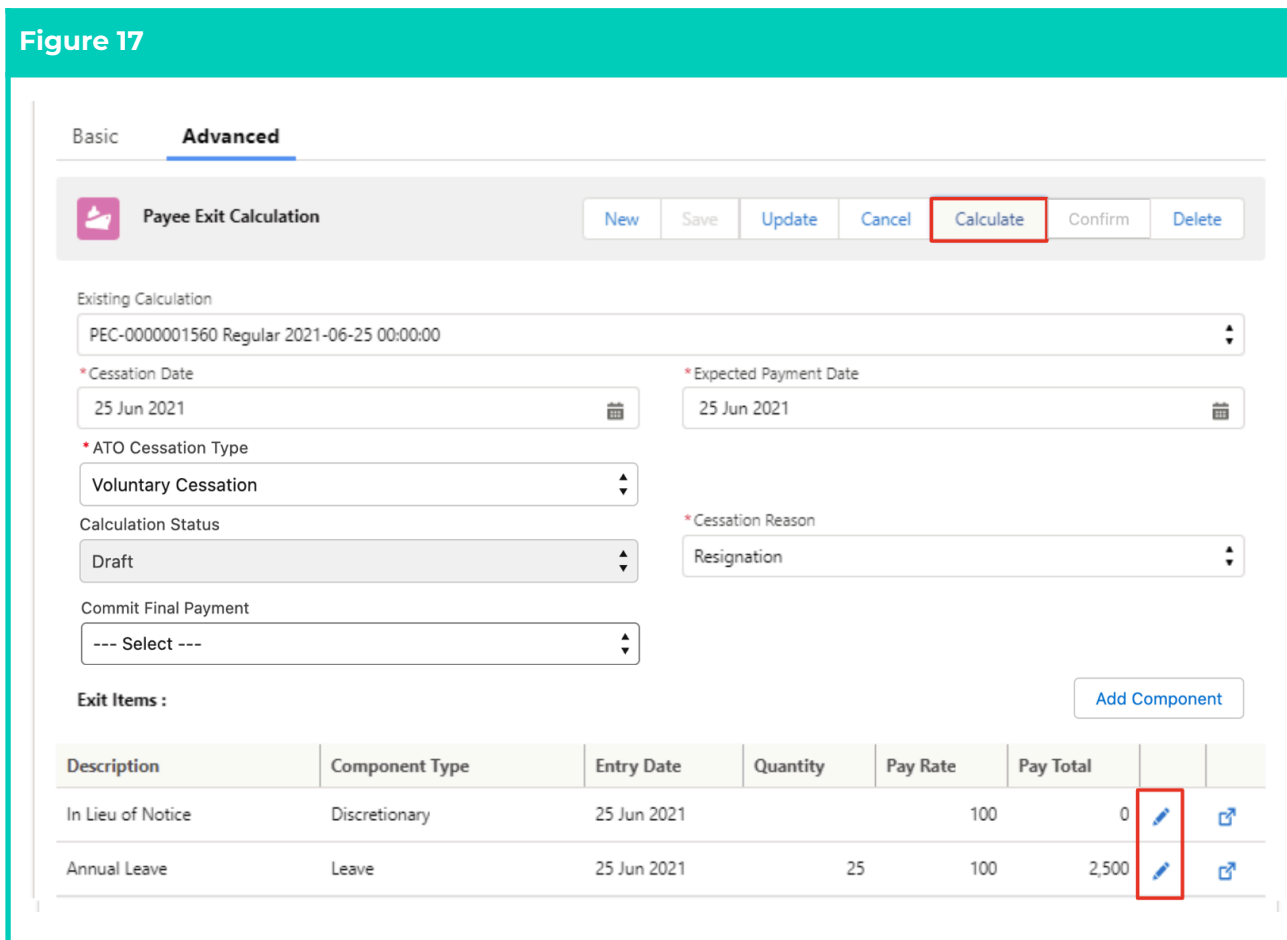

6. You will get a confirmation message (see Figure 16).

Figure 16

The screenshot shows a green confirmation message box with a white checkmark icon on the left and a white 'X' icon in a square on the right. The text in the center reads: 'The record has been inserted successfully!'.

- If you need to adjust the quantity of the exit items, click on the  edit icon next to each record (see Figure 17).
- Once done, click on the **Calculate** button (see Figure 17).

Upon clicking the Confirm button, any Payee-related records (Assignments, Assignment Rates, Payee Leave Rules, Deductions, Allowances, etc.) will now have the Expiry Date applied. The Expiry Date will not be applied to the Payee Withholdings and Payment Details records. The Cessation Date, ATO Cessation Type, and Payee Cessation Reason will be populated on the Payee record.

The only leave types that are automatically selected for pay out on termination (based on the 'Can be Paid Out' fields) are Annual Leave and LSL. Any other types of Leave can be picked up via the Payee Exit UI and will be considered as an ETP.

20. To complete the payment of the Payee Exit components, Users will need to create and calculate a Pay Batch that relates to this Payee using the applicable date. Any final payments that are pending will appear once the Pay Batch is Calculated.

For more details, refer to the Pay Batch QRGs.

Updates have now been made to Pay Batch calculations containing Payee Exits who have updated the field Commit Final Payment to Yes. The Calculation process will now review the existing Leave entitlements and consider any new Leave Accruals against new hours worked, as well as new Leave Takes, Leave Credits, etc. This automation ensures the final balance is accurate and resolves all of these to zero during the Pay Batch Finalise process.

Field Descriptions

Field Name	Description
Basic Payee Exit	
ATO Cessation Type	The ATO-approved list of Cessation Types for STP Reporting. Picklist values are: Voluntary Cessation, Ill Health, Deceased, Genuine Redundancy, Dismissal, Contract Cessation, Transfer, Early Retirement, Non-Genuine Redundancy.
Exit Reason	is the reason for ceasing employment. Picklist values are explained below: • Approved Early Retirement Indicates the Employee has applied for an early retirement, which has been approved. • Casual Termination Indicates the Employee's casual contract has been terminated. • Death Indicates the Employee has passed away. • Dismissal Indicates the Employee's employment has been dismissed due to disciplinary reasons. • End of Contract Indicates the Employee's contract has reached an end and that the contract will no longer be extended at this stage. • Invalidity Indicates the termination reason is due to ill health. • Non-Genuine Redundancy Indicates the Employee has been provided a non-genuine redundancy. • Redundancy Indicates the Employee has been made redundant by the company. • Resignation Indicates the Employee has chosen to resign and has confirmed the resignation in writing. • Retirement Indicates the employment has ceased due to an approved retirement.
Last Date of Employment	is the final date of employment.
Advanced Payee Exit	
ATO Cessation Type	is the list of classifications to which the Classification Reasons belong. The picklist values are: Voluntary Cessation, Ill Health, Deceased, Genuine Redundancy, Dismissal, Contract Cessation, Transfer, Early Retirement, Non-Genuine Redundancy.
Calculation Status	is the processing status of this Payee Exit record. Only Payee Exits which are Confirmed can be processed in the Pay Batch Calculation.
Cessation Date	is the final date of employment.
Commit Final Payment	this locks the Payee Exit from any adjustments, and enables the Payee Exit Calculation to be included in a Pay Batch Calculation.
Expected Payment Date	is the expected date of payment.
