

Purpose

The purpose of this quick reference guide is to step through the process of creating Invoice Calendar & Calendar Periods. The intended audience for this document is system administrators.

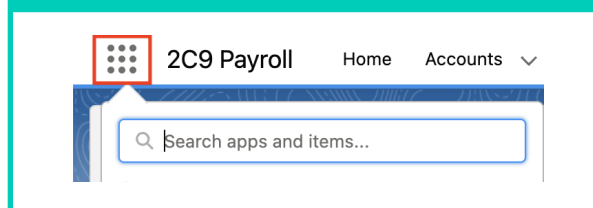

Steps

Create Invoice Calendar

To create an Invoice Calendar record, follow the steps below:

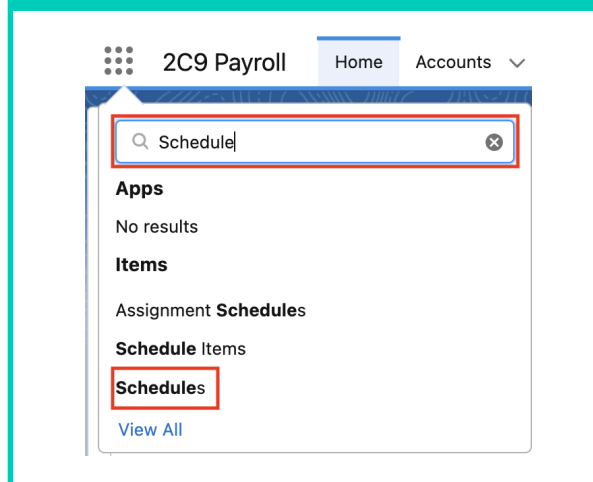

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

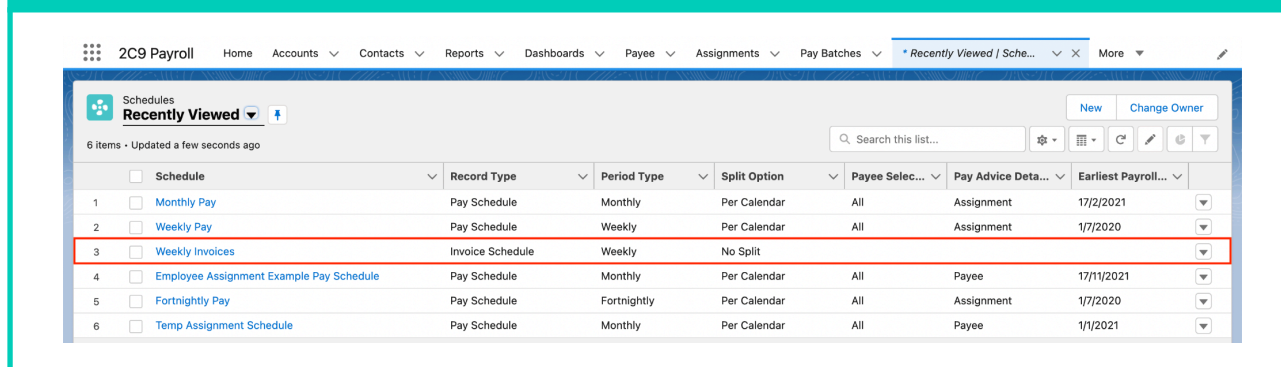

2. Go to the **Schedules** object by using the Search function (see Figure 2).

Figure 2

3. Open the required Schedules record with the record type of **Invoice Schedule** (see Figure 3).

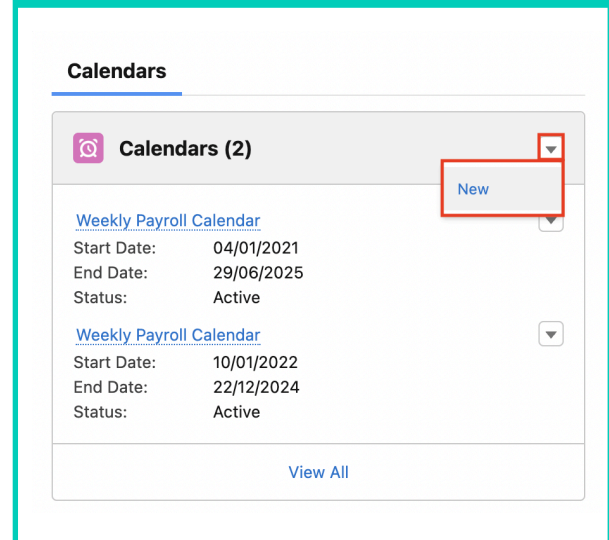

Figure 3

	Schedule	Record Type	Period Type	Split Option	Payee Selection	Pay Advice Details	Earliest Payroll
1	Monthly Pay	Pay Schedule	Monthly	Per Calendar	All	Assignment	17/2/2021
2	Weekly Pay	Pay Schedule	Weekly	Per Calendar	All	Assignment	1/7/2020
3	Weekly Invoices	Invoice Schedule	Weekly	No Split			
4	Employee Assignment Example Pay Schedule	Pay Schedule	Monthly	Per Calendar	All	Payee	17/11/2021
5	Fortnightly Pay	Pay Schedule	Fortnightly	Per Calendar	All	Assignment	1/7/2020
6	Temp Assignment Schedule	Pay Schedule	Monthly	Per Calendar	All	Payee	1/1/2021

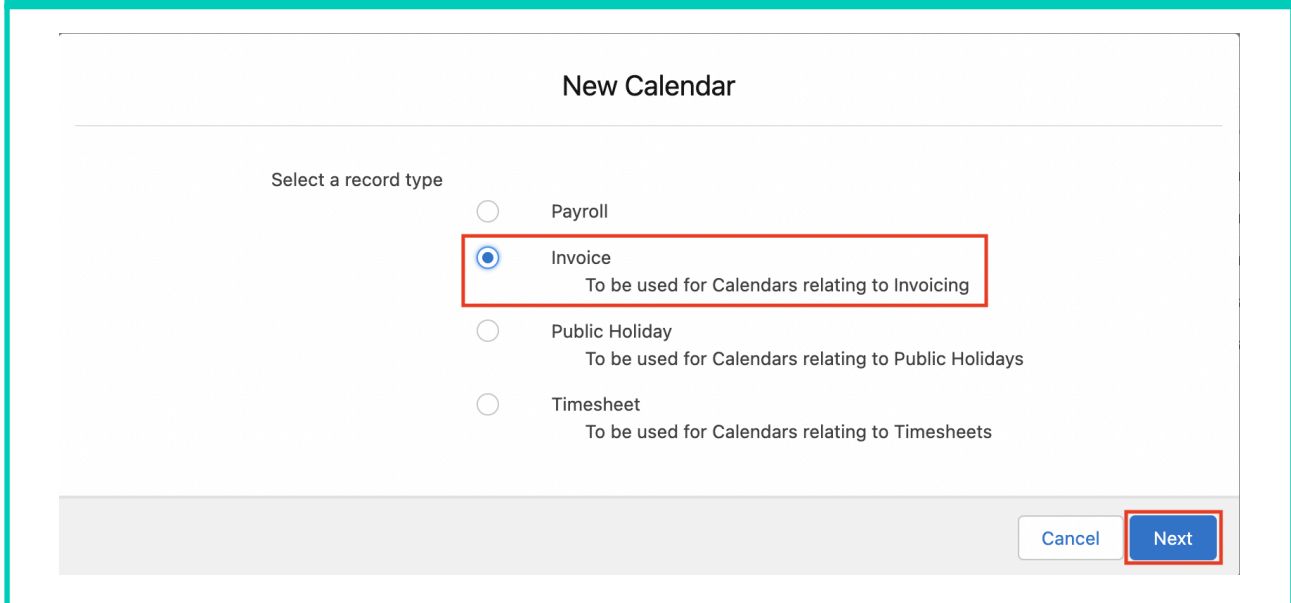

4. On the Schedule record, locate the Calendars panel on the right hand side and click on  and then click on the **New** button (see Figure 4).

Figure 4

5. Choose the record type of **Invoice** and click **Next** (see Figure 5).

New Calendar

Select a record type

- ☐ Payroll
- ☒ **Invoice**
To be used for Calendars relating to Invoicing
- ☐ Public Holiday
To be used for Calendars relating to Public Holidays
- ☐ Timesheet
To be used for Calendars relating to Timesheets

6. Populate the following required fields to provide the base details of the Invoice Calendar record: (see Figure 6)
 - a. **Name**
 - b. **Invoice Schedule**
 - c. **Invoice Entity**
 - d. **No. Days Invoice Date after End Date**
 - e. **Start Date**
 - f. **End Date**

7. Populate the following optional fields as needed (see Figure 6):
 - a. To prevent the Status of the Invoice Calendar from being automatically updated by the automatic status update scheduled job, check the **Exclude From Auto Update** checkbox.
8. To kick off the creation of the Calendar Periods automatically without the requirement to select the button on the Calendar (as used by Integrations to 2cloudnine Payroll), tick the **Generate Invoice Calendar Periods** checkbox (see Figure 6).
9. Click on the **Save** button.

System Information

Generate Invoice Calendar Periods
☐

As Calendars are Entity Specific, there can be multiple Calendars for each Schedule, but they must be specific to different Invoice Entities.

If the Generate Invoice Calendar Periods checkbox is ticked, it will automatically trigger the creation of the Calendar Periods without the requirement to select the button on the Calendar.

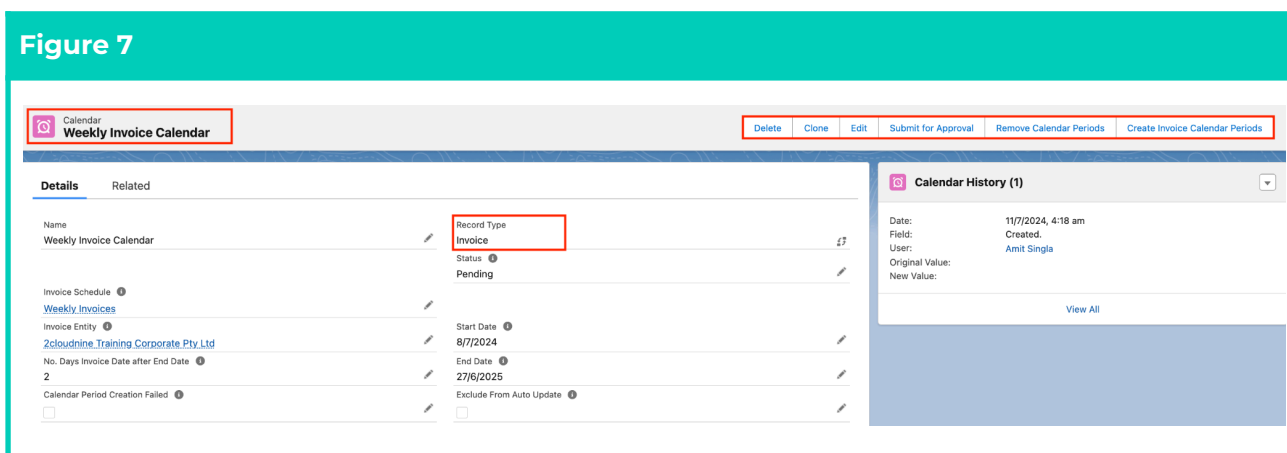

The Status field must be Pending for the creation of the Calendar Periods to work, and will update automatically to Active after it has been completed successfully.

Calendar Period Creation Failed checkbox will populate automatically if the Calendar Periods failed to create. The field is editable but should not be manually updated by users.

10. A new Invoice Calendar record has been created (see Figure 7).

- To modify an existing **Invoice Calendar** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
- When complete, click on the **Save** button.

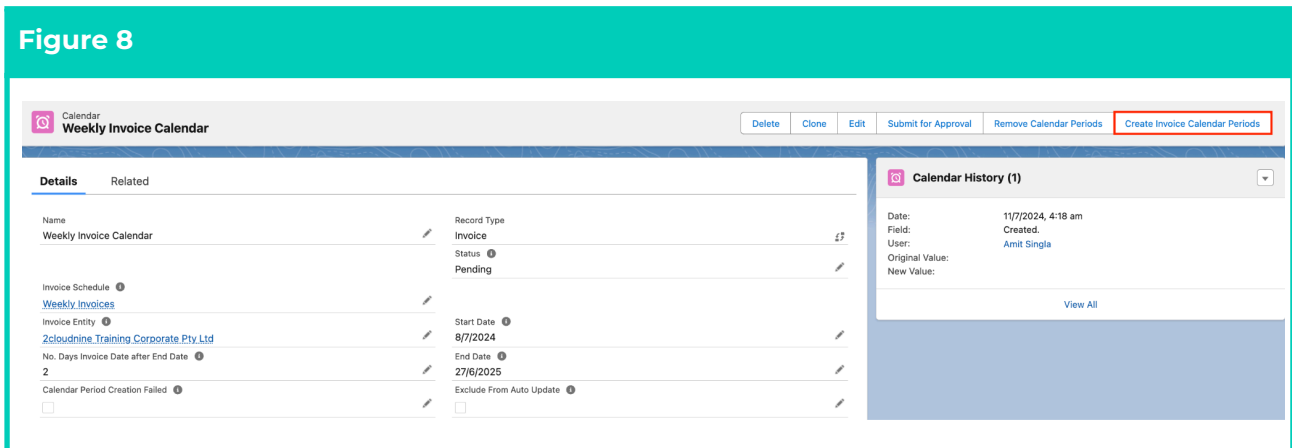

Invoice Calendar records **CANNOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

Create Invoice Calendar Periods

The limit of related Calendar Periods that can be initially created is 2.5 years maximum. If you require Calendar Periods for more than 2.5 years, you will need to batch into sections of no greater than 2.5 years. To create Invoice Calendar Periods, follow the steps below:

1. Click on the **Create Invoice Calendar Periods** button (see Figure 8).

Figure 8

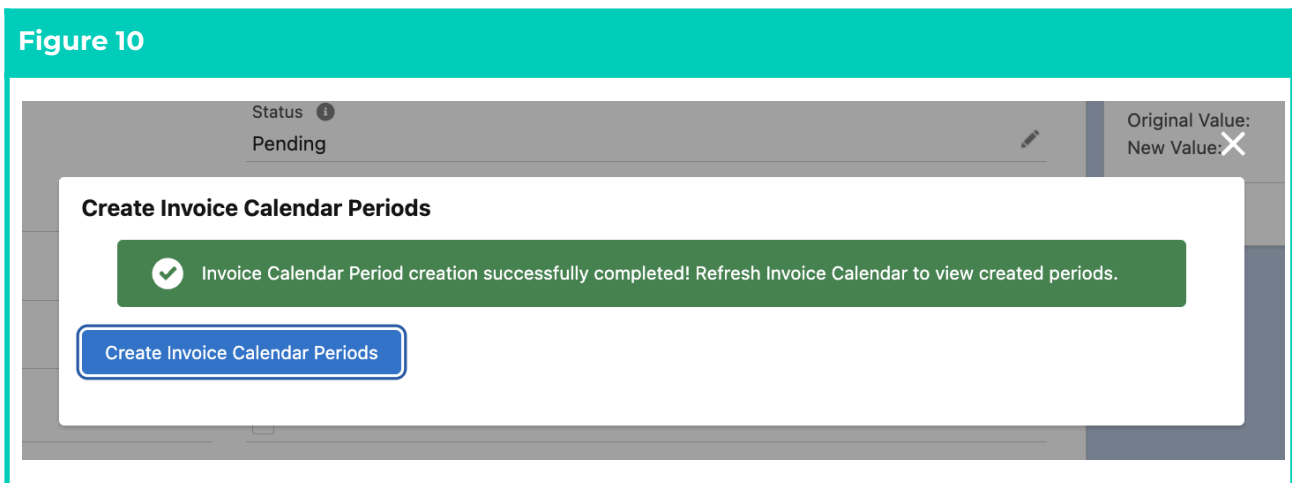

2. A popup will open, click on the **Create Invoice Calendar Periods** button (see Figure 9).

Figure 9

3. You will see a confirmation message saying 'Invoice Calendar Period creation successfully completed!' (see Figure 10).
4. Refresh the web browser to view the newly created Calendar Periods.

Figure 10

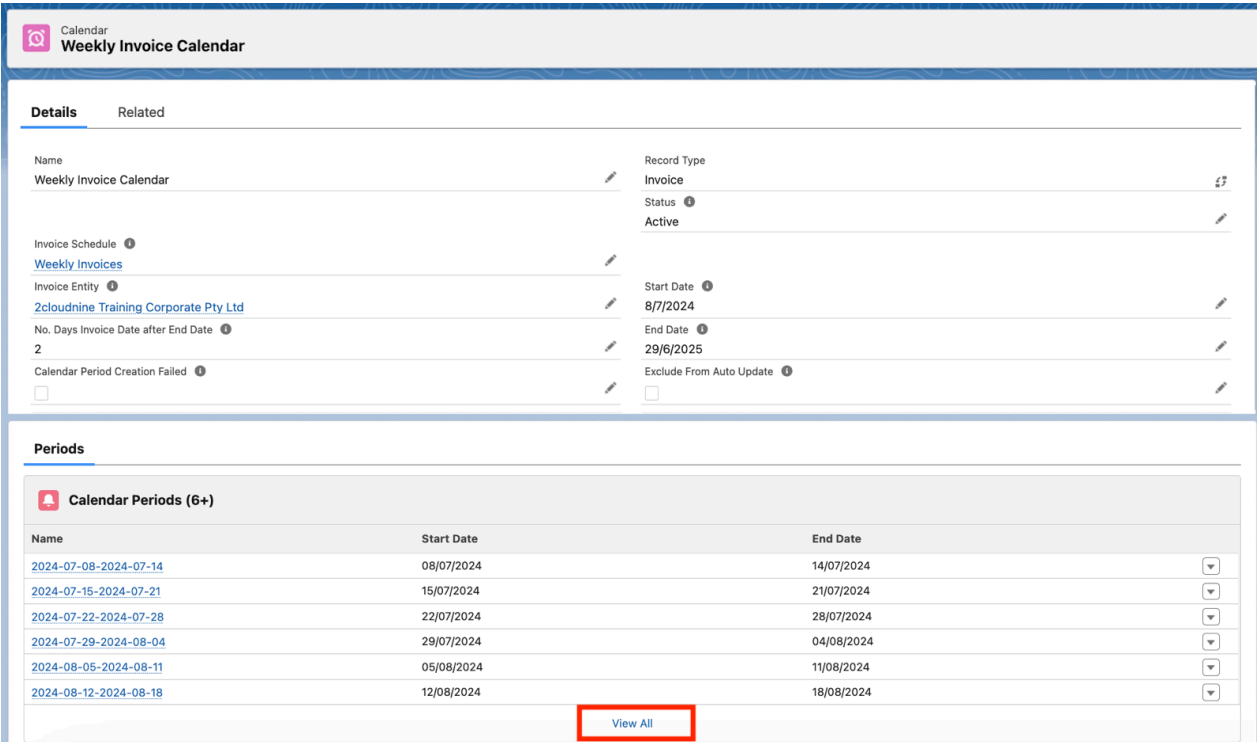

If the confirmation message doesn't appear, the Calendar Periods have not been created. If you are not able to identify the issue, please contact your System Administrator or your support team for more assistance.

- On the Calendar record page, you will notice that the Calendar Periods have been created and are displayed at the bottom of the page in the Periods related list (see Figure 11).
- Click on **View All** button to see a full list of the Calendar Periods.

[View All](#)

If the Calendar Periods that have been created are incorrect, have not yet been used in any other records, and need to be deleted, then users should click the Remove Calendar Periods button. This will remove all the Calendar Periods relating to this Calendar, allowing for changes to be made to the Calendar, and then repeat steps to recreate the Invoice Calendar Periods.

Create Invoice Calendar Periods for longer Periods

To create Calendar Periods after the initial 2.5 years, you will need to follow the steps below:

- Change the End date to be a further 2.5 years from the current End Date.
- Click Create Calendar Periods.
- Wait and confirm the batch job has successfully finished creating Calendar Periods for that new extended date range.
- Repeat steps 1-3 as many times as required.

Field Descriptions

Calendar Period Creation Failed (checkbox) indicates that the Calendar Period creation Batch Job failed.

End Date is the last date the automation will create Calendar Periods up to for this Calendar.

Exclude From Auto Update (checkbox) When this box is checked the record will be skipped by the Automatic Status Update scheduled job.

Generate Invoice Calendar Periods (checkbox) if ticked, will kick off the creation of the Calendar Periods without the requirement to select the button on the Calendar.

Name is the name given to the Calendars record that is being created.

No. Days Invoice Date after End Date defines the number of days after the Calendar Period End Date that Invoices will be generated.

Invoice Schedule defines the Invoice Schedule that applies to the Calendar.

Invoice Entity is the related Invoice Entity.

Start Date is the first date the automation will create Calendar Periods from.

Status is required to be Pending when the Calendar Periods are awaiting creation, however, will be Active once the Calendar Periods have been created.
