

Purpose

The purpose of this quick reference guide is to step through the process of creating an Invoice Schedule. The intended audience for this document are System Administrators.

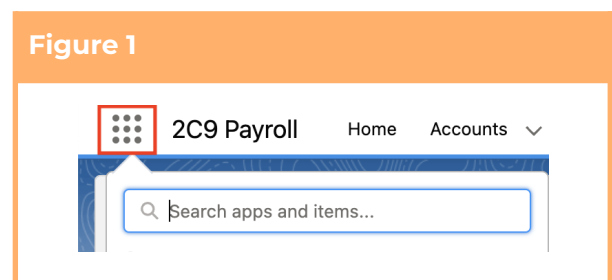

Steps

Create Invoice Schedule record

To create an Invoice Schedule record, follow the steps below:

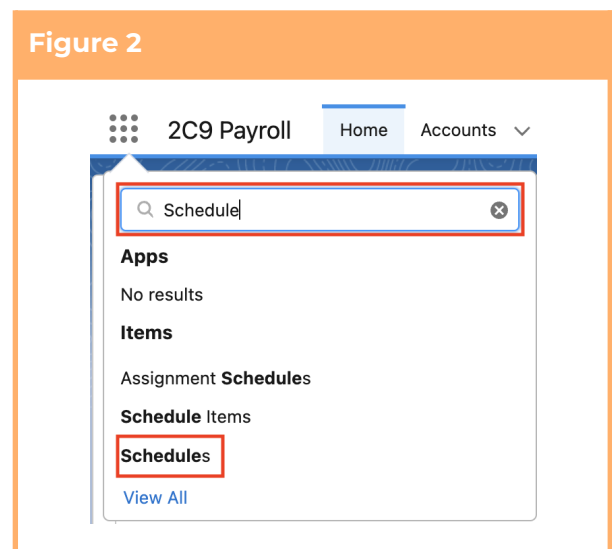

1. Click on the **App Launcher** icon. (See Figure 1)

Figure 1

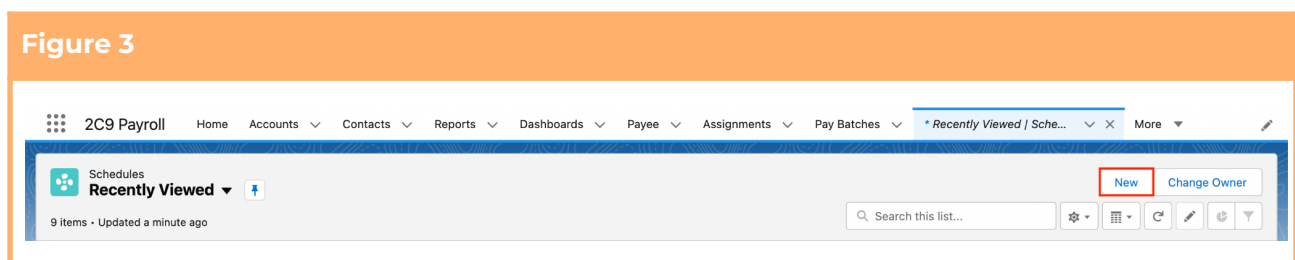

2. Go to the **Schedules** object by using the Search function. (See Figure 2)

Figure 2

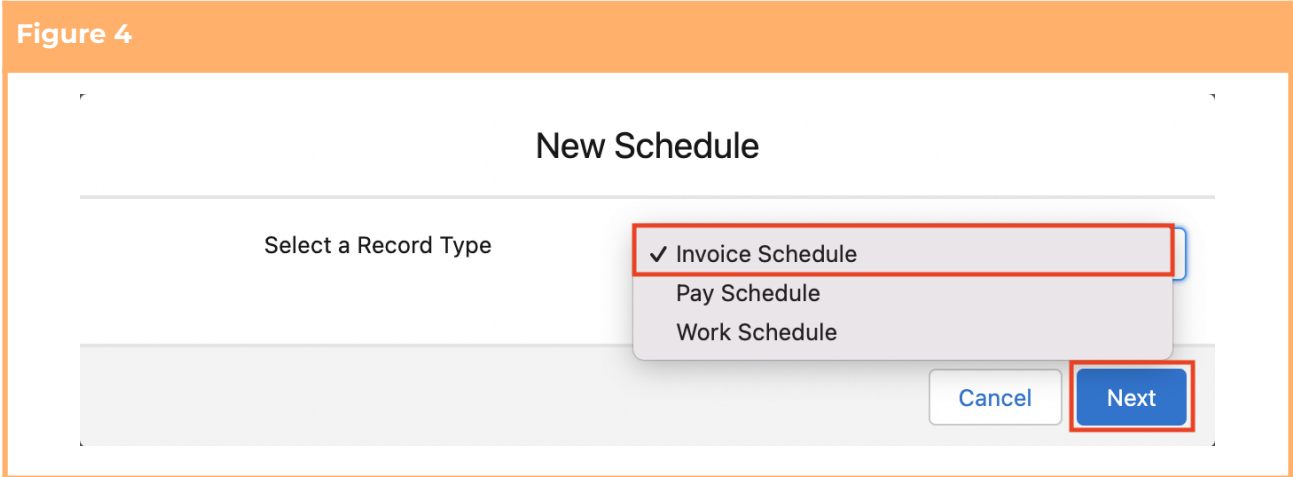

3. Click on the **New** button. (See Figure 3)

Figure 3

4. Choose the record type of **Invoice Schedule** and click **Next**. (See Figure 4)

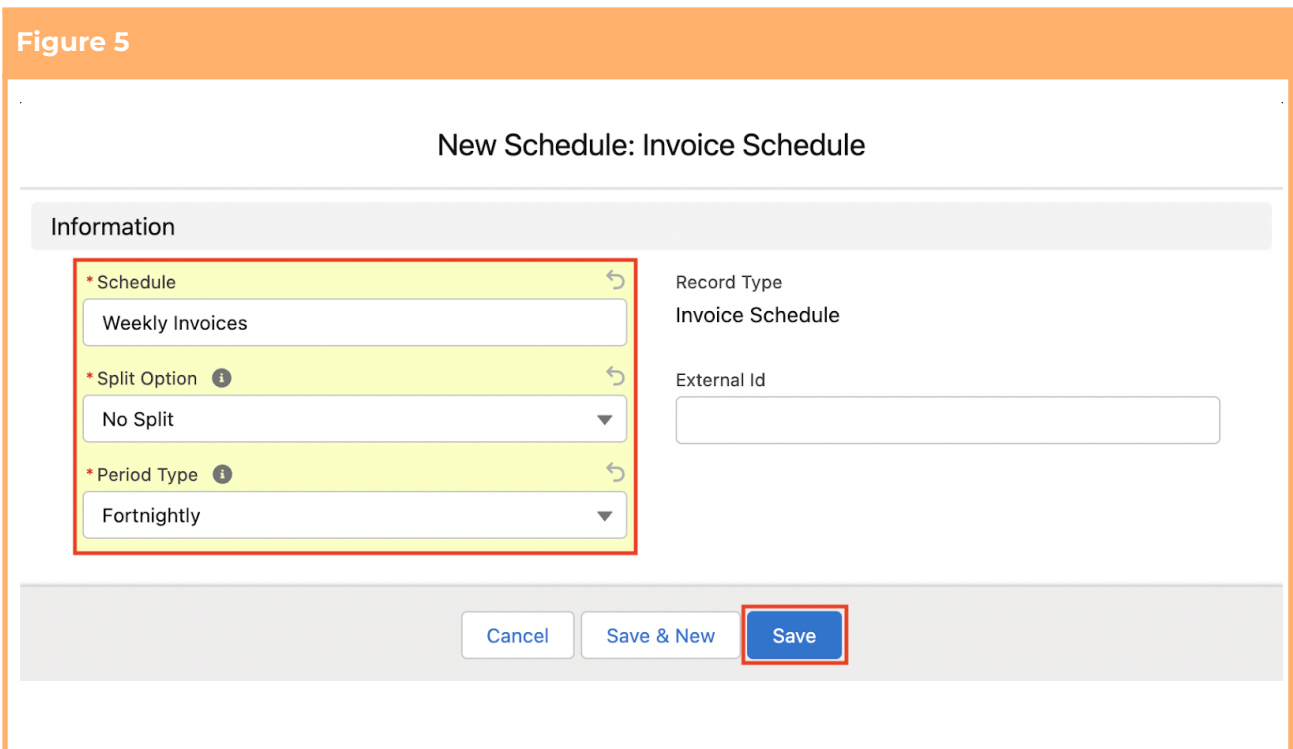

Figure 4

The screenshot shows a form titled "New Schedule". Below the title is a section labeled "Select a Record Type". A dropdown menu is open, showing three options: "✓ Invoice Schedule", "Pay Schedule", and "Work Schedule". The "Invoice Schedule" option is selected and highlighted with a red box. To the right of the dropdown are two buttons: "Cancel" and "Next". The "Next" button is highlighted with a red box.

5. Populate the following required fields to provide the base details of the Invoice Schedule record:
(See Figure 5)
 - a. **Schedule**
 - b. **Split Option**
 - c. **Period Type**
6. Populate the following optional fields as needed:
 - a. To integrate the Invoice Schedule record with an external system, populate the **External Id** field. (See Figure 5)
7. Click on the **Save** button.

Figure 5

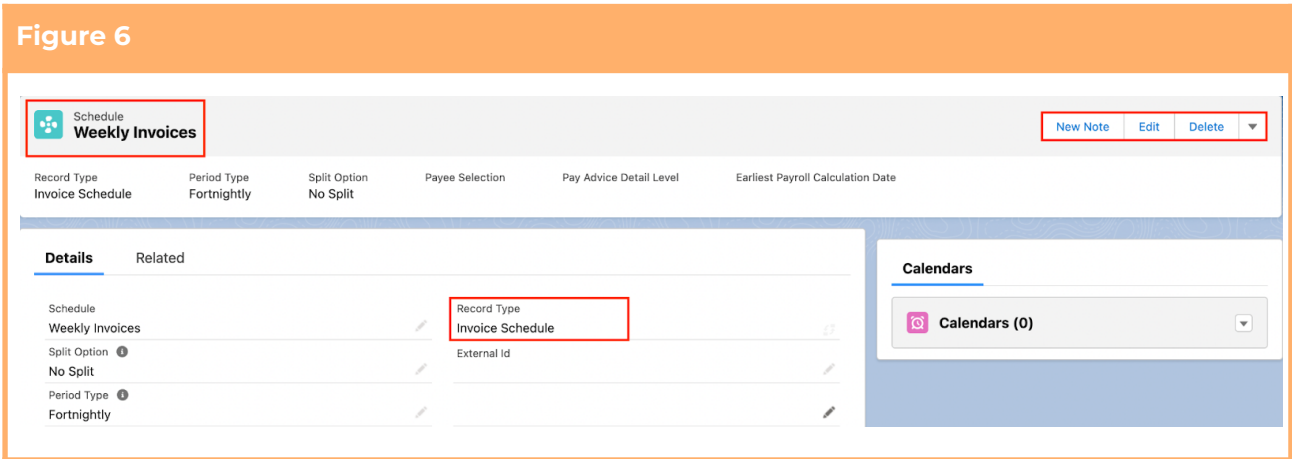

The screenshot shows a form titled "New Schedule: Invoice Schedule". Below the title is a section labeled "Information". This section contains three required fields, each with a red asterisk and an information icon: "Schedule" (set to "Weekly Invoices"), "Split Option" (set to "No Split"), and "Period Type" (set to "Fortnightly"). These three fields are highlighted with a red box. To the right of these fields are two optional fields: "Record Type" (set to "Invoice Schedule") and "External Id" (an empty text box). At the bottom of the form are three buttons: "Cancel", "Save & New", and "Save". The "Save" button is highlighted with a red box.

The External Id field is available and should only be populated where system integration is required for the record.

8. A new Invoice Schedule record has been created. (See Figure 6)

Figure 6

9. To modify an existing **Invoice Schedule** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
10. When complete, click on the **Save** button.

Invoice Schedule records **CAN NOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

Field Descriptions

External Id defines an ID for use with external systems, and can be used with integrations to create and update the record.

Period Type is the frequency of Calendar Periods for invoicing purposes.

Schedule is the name given to the Schedule record.

Split Option defines how the invoices associated with this Invoice Schedule will be broken up upon creation.
