

Purpose

The purpose of this quick reference guide is to step through the process of creating Leave Notification Settings. The intended audience for this document is System Administrators / Standard Users.

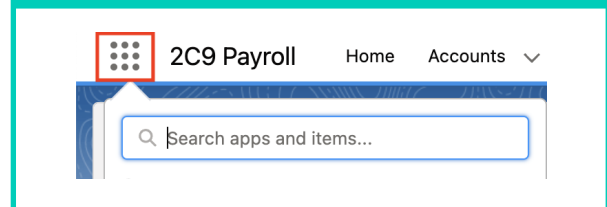

Steps

Create Leave Notification Settings

To create Notification Settings, follow the steps below:

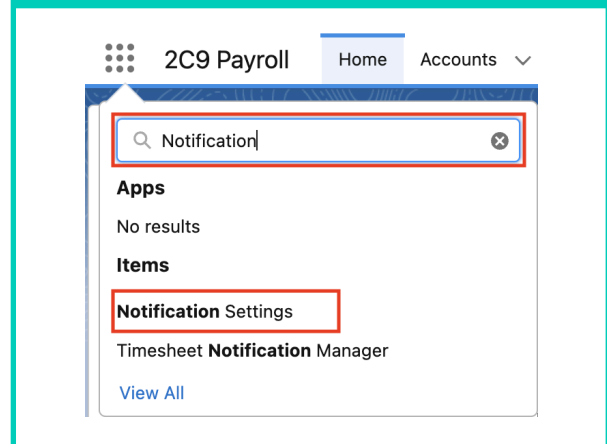

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

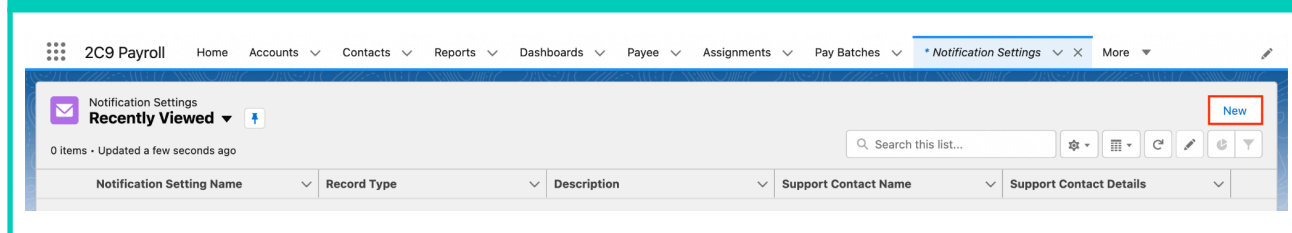

2. Go to the **Notification Settings** object by using the Search function (see Figure 2).

Figure 2

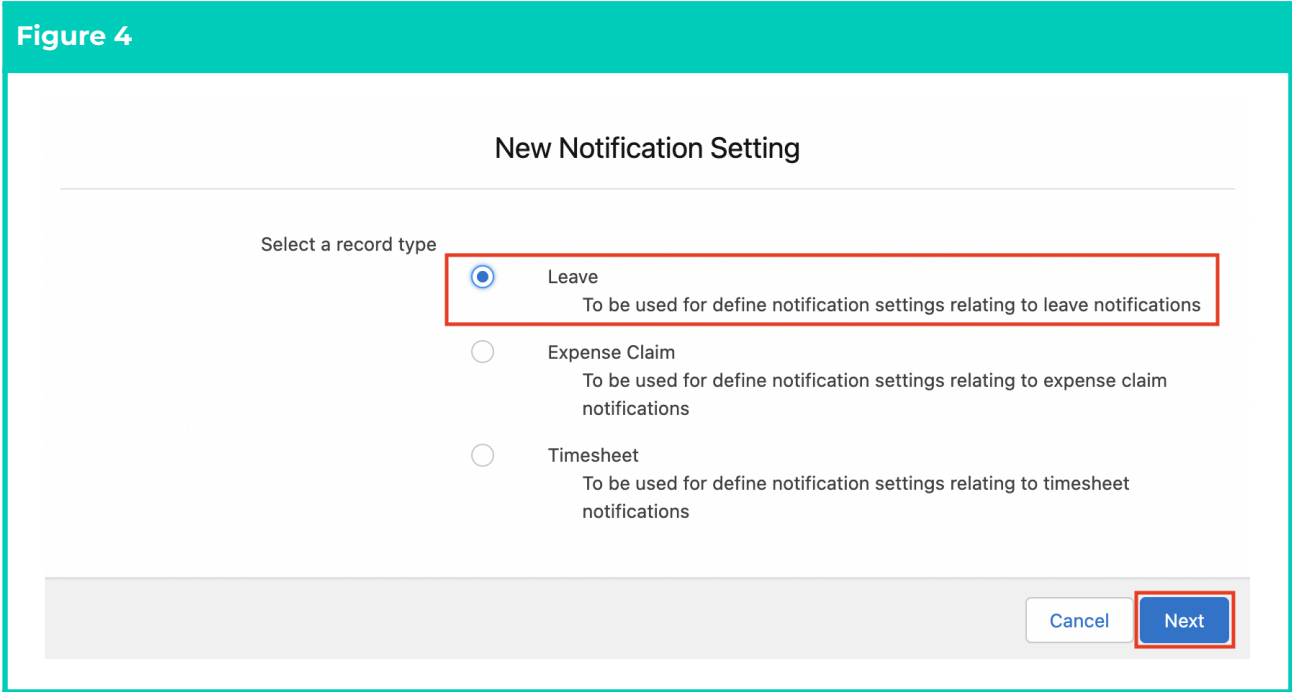

3. Click on the **New** button (see Figure 3).

Figure 3

4. Select the **Leave** Record Type and click on the **Next** button (see Figure 4).

Figure 4

New Notification Setting

Select a record type

☒ **Leave**
To be used for define notification settings relating to leave notifications

☐ **Expense Claim**
To be used for define notification settings relating to expense claim notifications

☐ **Timesheet**
To be used for define notification settings relating to timesheet notifications

Cancel Next

5. Populate the following required fields to provide the base details of the Notification Settings: (See Figure 5)
 - a. **Notification Setting Name**
 - b. **Effective Date**
 - c. **Description**
 - d. **Notification From Email Address**
 - e. **Employee Reminder Email**
 - f. **Auto Send Employee Reminder**
 - g. **Employee Reminder Repeat?**
 - h. **Employee Approved Email**
 - i. **Auto Send Employee Approved**
6. Populate the following optional fields as needed: (See Figure 5)
 - a. If Auto Send Employee Reminder is populated with a # Days picklist value, define the count of days after a specified time for the reminder to be sent in the **Employee Reminder Day Count** field.
 - b. If Auto Send Employer Reminder is populated with an On A Defined Day picklist value, define the day of the week reminders will be sent in the **Employee Reminder Week Day** field.
 - c. If Auto Send Employer Reminder is populated with an On A Defined Day picklist value, define the time of the day reminders will initiate sending, in the **Employee Reminder Time** field.

Notification Setting records currently only have limited functionality as they are still being developed. The automated reminders on set day, time or day count currently do not work.

Notification Setting History (1)

Notification Setting records CAN NOT be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

- To modify an existing **Notification Settings** record, open the required record and select the Edit button available on the top right side of the page. You can also double click within fields that need editing or just click on the pencil icon  that appears within fields when hovering with your cursor.
- When complete, click on the **Save** button.

Field Descriptions

A. Approver Approval Reminder Email defines the Email Template that will be used when sending the Alternative Approver a Reminder for Approval.

A. Approver Approval Request Email defines the Email Template that will be used when sending the Alternative Approver a Request for Approval.
