

Purpose

The purpose of this quick reference guide is to step through the process of creating Expense Pay Codes. The intended audience for this document are system administrators / standard users.

Steps

Create a new Expense Pay Code record

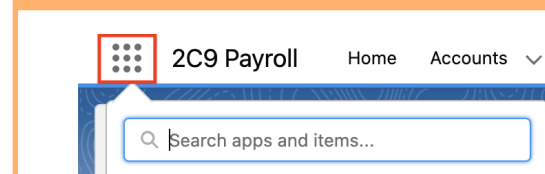

Pay Codes are applied to Pay Transactions processed for an Employee.

The Expense Pay Code record is used to define the Pay Codes for Expense payments made to a Payee. The record holds General Information and Pay Code Setup details.

Create an Expense Pay Code by following the below steps:

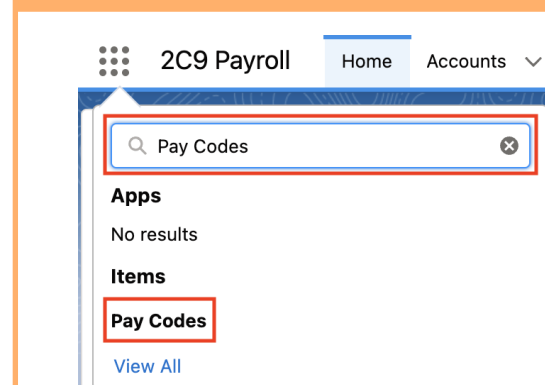

1. Click on the **App Launcher** icon (See Figure 1).

Figure 1

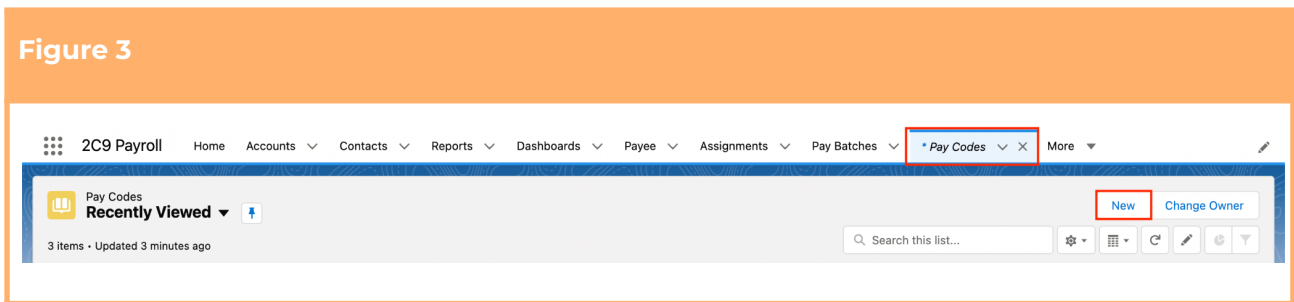

2. Go to the **Pay Codes** object by using the Search function (See Figure 2).

Figure 2

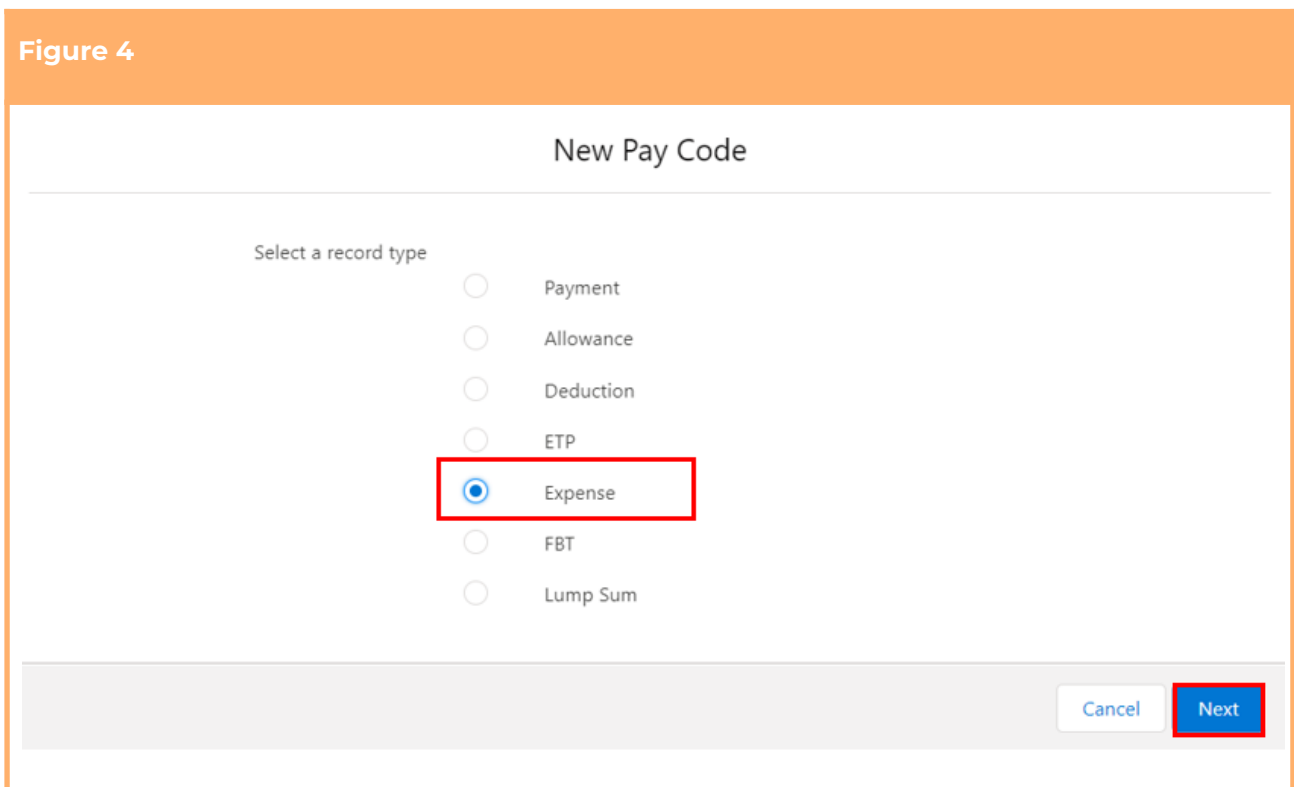

3. Click on the **New** button (See Figure 3).

Figure 3

4. Select **Expense** from the available record types and click on the **Next** button (see Figure 4).

Expense Pay Codes **CAN NOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

Only limited 'edits' can be made to a Pay Code once they have been referenced in Pay Transactions. In these instances, a completely new Pay Code needs to be created, and all references to the old Pay Code need to be amended.

- To modify an existing **Expense Pay Code** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click within fields that need editing or just click on the pencil icon  that appears within fields when hovering with your cursor.
- When complete, click on the **Save** button.
