

Purpose

The purpose of this quick reference guide is to step through the process of creating FBT Pay Codes. The intended audience for this document are system administrators / standard users.

Steps

Create a new FBT Pay Code record

Pay Codes are applied to Pay Transactions processed for an Employee.

The FBT Pay Code Record Type is used to define the Pay Codes used for Reportable Fringe Benefits Tax (FBT) relating to a Payee. The record holds General Information and Pay Code Setup details.

Create a FBT Pay Code by following the below steps:

1. Click on the **App Launcher** icon. (See Figure 1)
2. Go to the **Pay Codes** object by using the Search function. (See Figure 2)

FTB Pay Codes CANNOT be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

A Pay Code can only be edited if it has not already been referenced within Pay Transactions, Interpretation Rules or Payee Allowance records. A new Pay Code will need to be created if updates are required after this point.

1. To modify an existing **FBT Pay Code** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click within fields that need editing or just click on the pencil icon  that appears within fields when hovering with your cursor.
2. When complete, click on the **Save** button.
