

Create an Account - Invoice Entity

Purpose

The purpose of this quick reference guide is to step through the process of setting up an Invoice Entity record. The intended audience for this document is System Administrators / Standard Users.

Steps

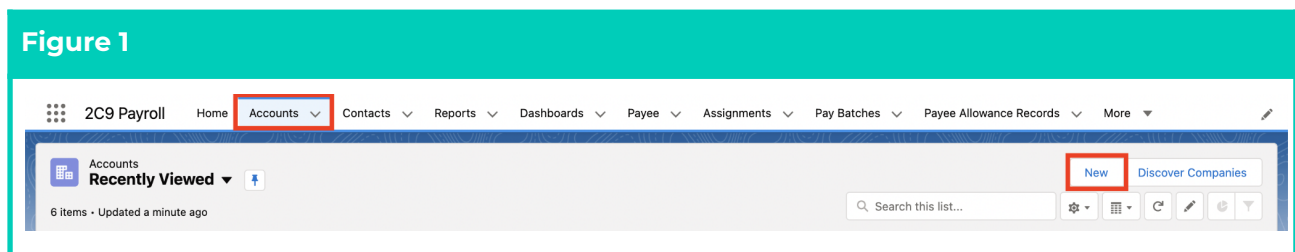

Create a new Invoice Entity record

The Invoice Entity record holds company information related to Invoicing, remittance details, and other related information.

To create an Invoice Entity, follow the steps below:

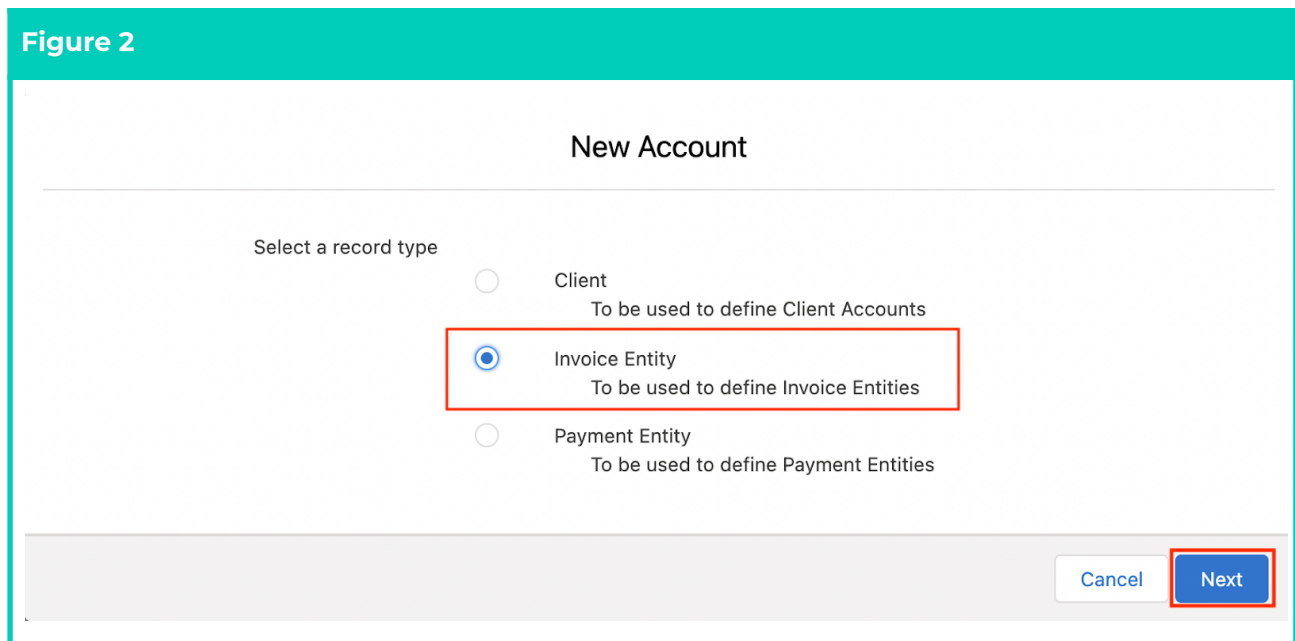

1. Go to the **Accounts** object. (See Figure 1)
2. Click on the **New** button.

Figure 1

3. Choose the record type **Invoice Entity** and click **Next**. (See Figure 2)

Figure 2

A screenshot of the 'New Account' form. The title 'New Account' is at the top. Below it, the text 'Select a record type' is followed by three radio button options: 'Client' (To be used to define Client Accounts), 'Invoice Entity' (To be used to define Invoice Entities), and 'Payment Entity' (To be used to define Payment Entities). The 'Invoice Entity' option is selected and highlighted with a red box. At the bottom right, there are two buttons: 'Cancel' and 'Next'. The 'Next' button is highlighted with a red box.

Create an Account - Invoice Entity

4. Populate the following required fields to provide the base details of the Invoice Entity record: (See Figure 3)
 - a. **Account Name**
 - b. **Phone**
 - c. **Billing Street**
 - d. **Billing City**
 - e. **Billing State**
 - f. **Billing ZIP/Postal Code**
 - g. **Billing Country**
 - h. **Default Invoice Schedule**
 - i. **Default Invoice Taxable**
 - j. **Send Invoice Emails from Email**
 - k. **Contact For Invoice Queries**
 - l. **ABN**
 - m. **Bank Account Name**
 - n. **Bank Account Branch Code**
 - o. **Bank Account Number**
 - p. **Remittance Email**
5. To provide additional details about the Invoice Entity, populate the following optional fields which are used mainly for record keeping purpose: (See Figure 3)
 - a. **Parent Account**
 - b. **Fax**
 - c. **Website**
 - d. **Shipping Street**
 - e. **Shipping City**
 - f. **Shipping State**
 - g. **Shipping ZIP/Postal Code**
 - h. **Shipping Country**
 - i. **GST Reg Number**
 - j. **Invoice Message**
 - k. **Bank Account Suffix**
6. Click on the **Save** button.

Once the record is saved, the ABN Lookup field will be updated, which can be selected to open the Australian Business Register ABN Lookup website in a new tab, detailing the actual details of the ABN entered as per that website.

Create an Account - Invoice Entity

- A new Invoice Entity record has been created and ready for use in the Assignments records. (See Figure 4)

Figure 4

The screenshot displays the 'Account' page for 'Training - 2c9'. The 'Details' tab is active, showing fields for Account Name, Parent Account, Billing Address, Shipping Address, and various contact details. The 'Account Record Type' is set to 'Invoice Entity'. The 'Activity' tab on the right shows an email composition area and a section for 'Upcoming & Overdue' tasks, which currently shows 'No next steps' and 'No past activity'.

Invoice Entity records **CANNOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

- To modify an existing **Invoice Entity** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
- When complete, click on the **Save** button.

Create an Account - Invoice Entity

Invoice Entity Logo

If you require an Invoice Entity to have a logo to display on Invoice PDFs you can upload it to the Files tab under the Related List of the Invoice Entity record.

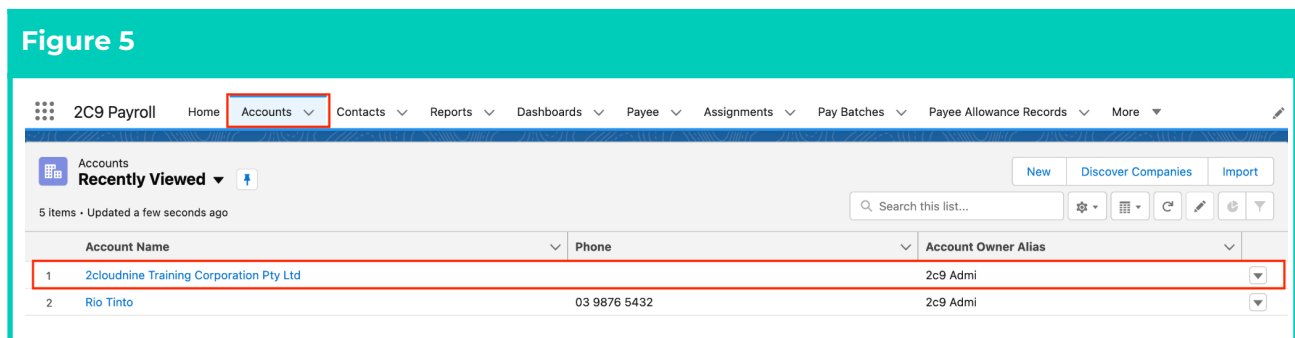

The logo file must have the following specifications:

- Must be uploaded to the Files tab.
- The logo needs to be:
 - Smaller than 20 kb.
 - File format must be gif, png, or jpg
 - File name must contain the word 'logo' (i.e. it could be either logo.jpg or Companylogo.gif or PayAdviselogo.png or something similar) or else it will not be displayed as the logo.

To add a logo to the Invoice Entity, follow the steps below:

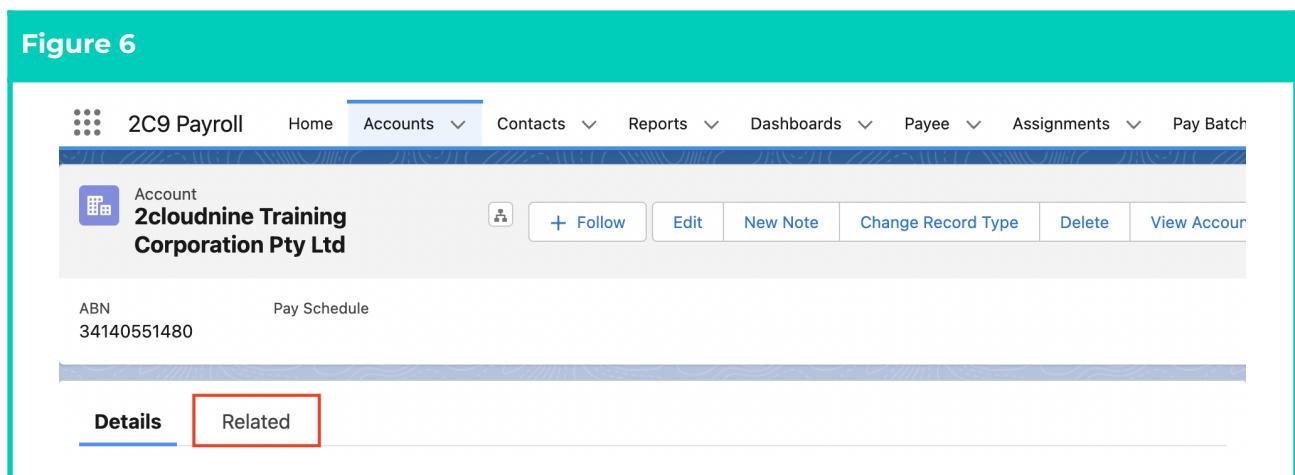

1. Go to the **Accounts** object and open the **Invoice Entity** record. (See Figure 5)

Figure 5

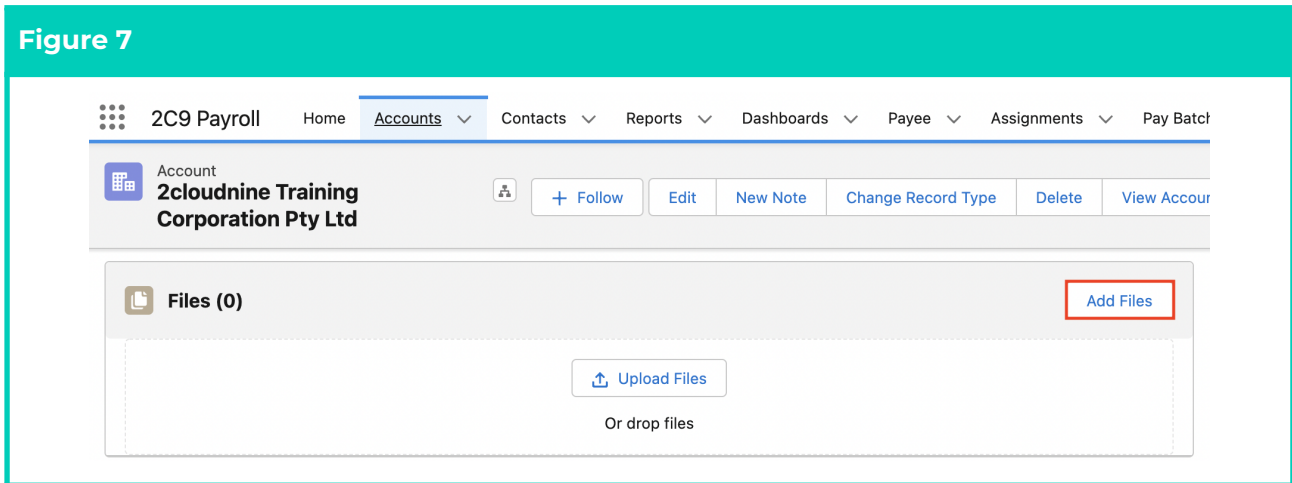

2. Click on the **Related** tab. (See Figure 6)

Figure 6

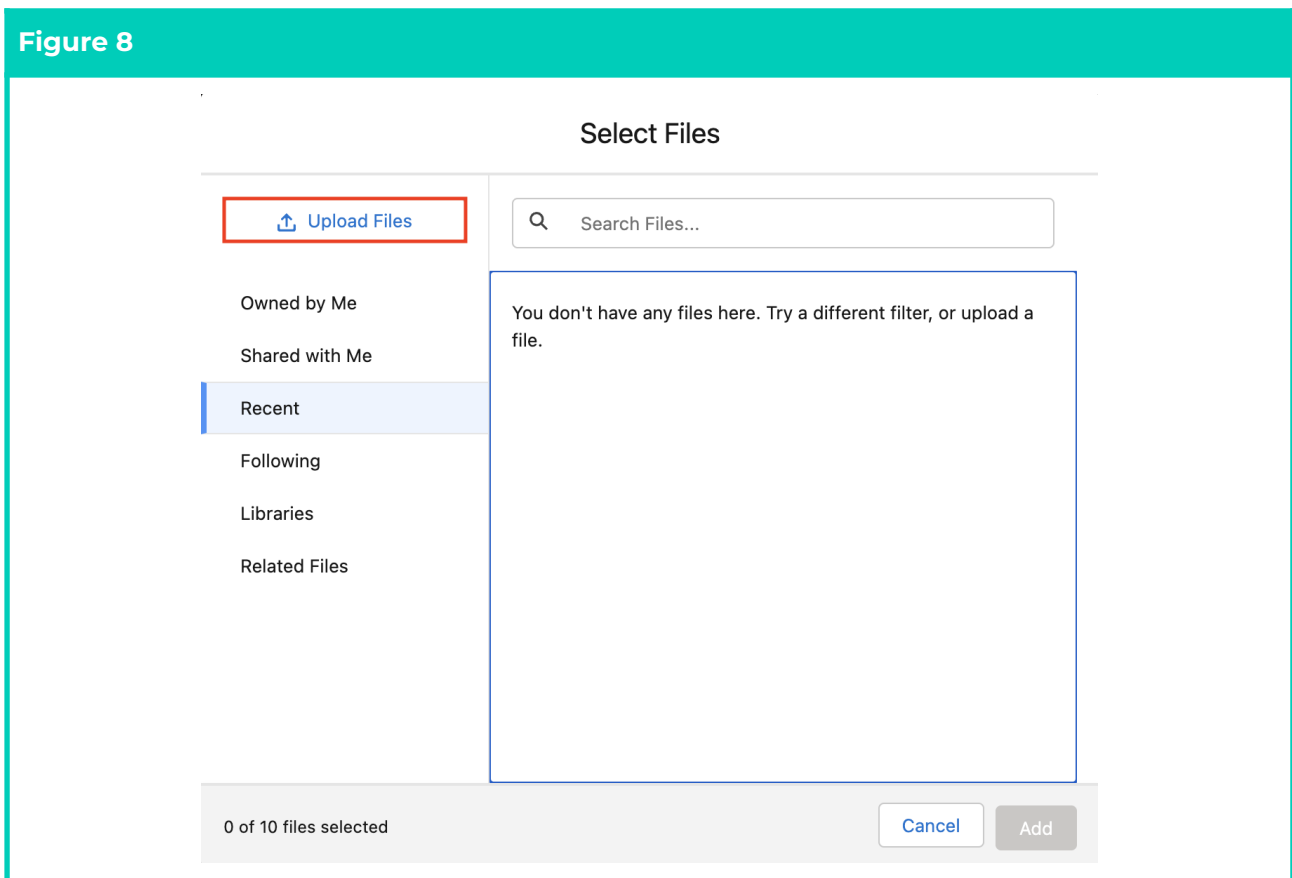

Create an Account - Invoice Entity

3. Click on the **Add Files** button. (See Figure 7)

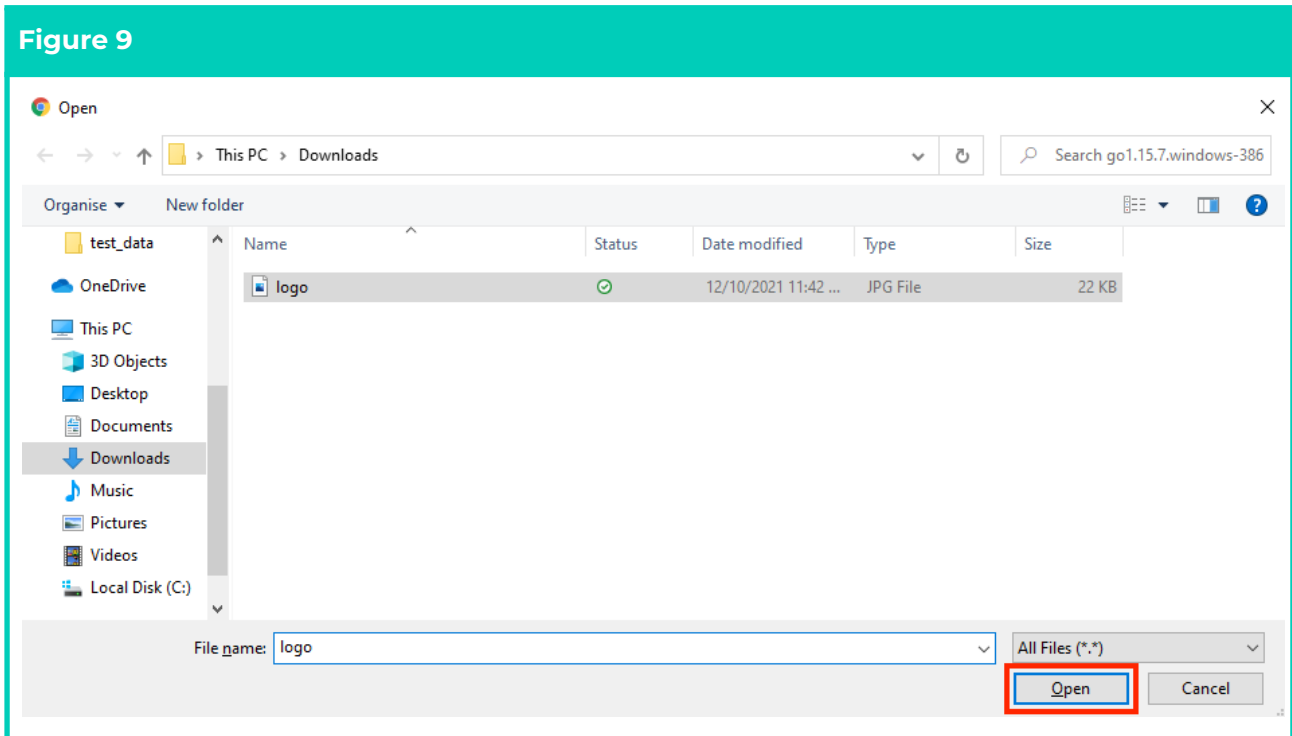

Figure 7

4. Click on the **Upload Files** button. (See Figure 8)

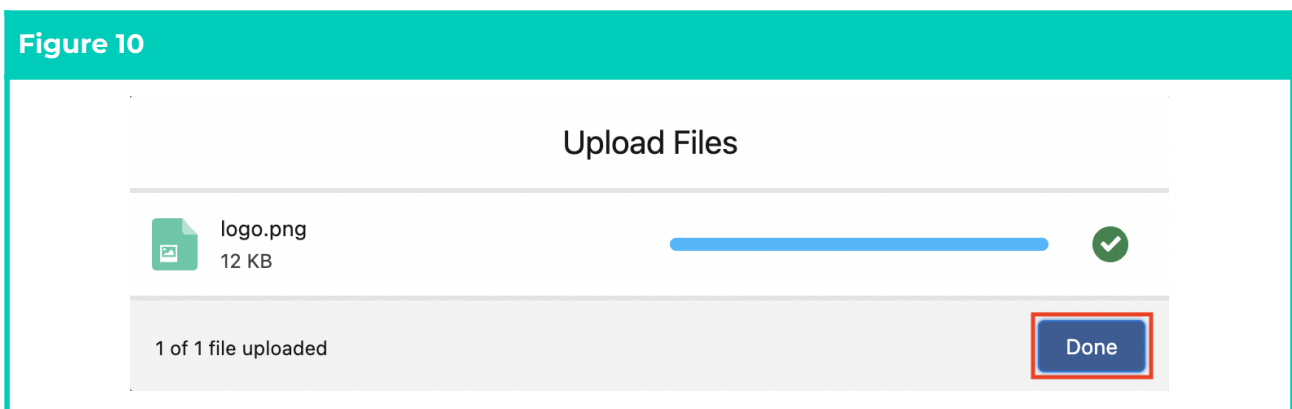

Figure 8

Create an Account - Invoice Entity

5. Select the required logo file and click on the **Open** button. (See Figure 9)

Figure 9

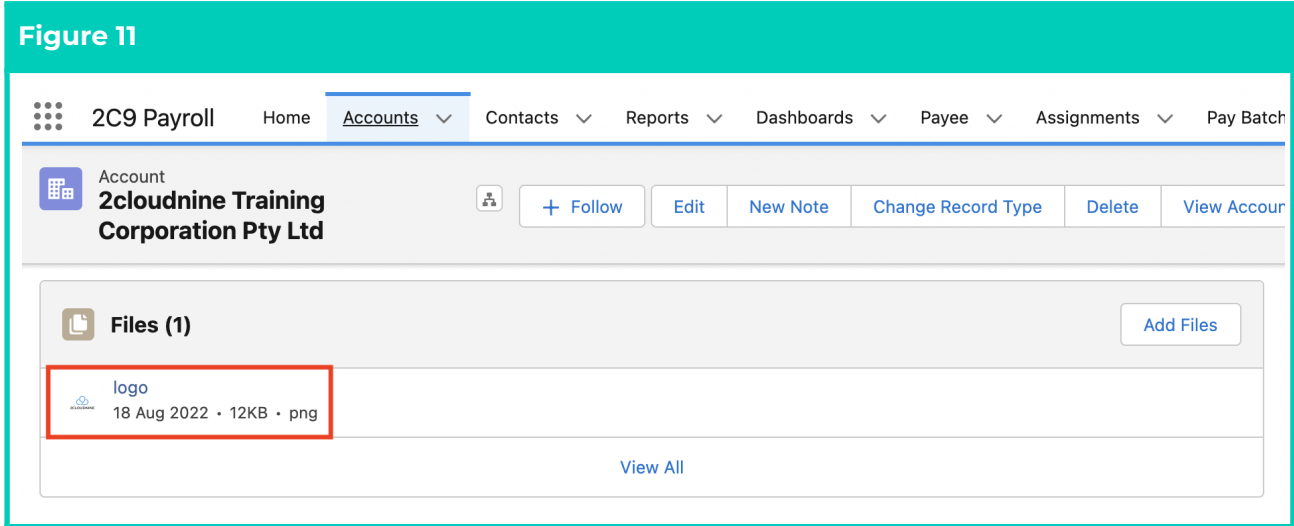

6. Click on the **Done** button. (See Figure 10)

Figure 10

Create an Account - Invoice Entity

7. The logo has been uploaded under the Files tab. (See Figure 11)

Figure 11

The screenshot shows the 'Accounts' tab in the 2C9 Payroll system. The account name is '2cloudnine Training Corporation Pty Ltd'. Under the 'Files' section, a file named 'logo' is listed, uploaded on 18 Aug 2022, with a size of 12KB and a .png extension. The file name 'logo' is highlighted with a red box. The interface includes a navigation bar with options like Home, Accounts, Contacts, Reports, Dashboards, Payee, Assignments, and Pay Batch. Action buttons for the account include + Follow, Edit, New Note, Change Record Type, Delete, and View Account.

You can only attach a .png or .jpg image with the name 'logo'. This image will be used as the logo on 2cloudnine Invoice PDFs for this Invoice Entity.

If two or more logo files are uploaded on the same Invoice Entity record, Salesforce will randomly select one of those as the logo on the PDF files.

Create an Account - Invoice Entity

Field Descriptions

ABN is the Australian Business Number of the Invoice Entity.

ABN Lookup is used to confirm the entered ABN in the Australian Business Register ABN Lookup website matches the correct company name.

Account Name is the name of the new Invoice Entity record that is being created.

Bank Account Branch Code records the Branch Code of the Invoice Entity. This information is used to provide bank details on invoices for Clients to remit payments.

Bank Account Name records the Bank Account Name of the Invoice Entity. This information is used to provide bank details on invoices for Clients to remit payments.

Bank Account Number records the Bank Account Number of the Invoice Entity. This information is used to provide bank details on invoices for Clients to remit payments.

Bank Account Suffix records the Bank Account Suffix of the Invoice Entity. This information is used to provide bank details on invoices for Clients to remit payments.

Billing Address is the billing address of the Invoice Entity.

Contact for Invoice Queries identifies the User who will be detailed as the Invoice Entity's Invoice Contact. The Invoice Contact and their contact details will be detailed on standard Invoice emails to be used in case of invoice queries.

Default Invoice Schedule defines the default Invoice Schedule that applies to the Client. This value can be overridden at lower levels.

Default Invoice Taxable indicates if by default there will be tax applied to the invoice. This value can be overridden at lower levels.

Fax is the fax number for the Invoice Entity.

GST Reg Number records the GST Registration number for the Invoice Entity.

Invoice Message If the Invoice Message field on the Invoice Setting related to the Invoice is blank, this defines the message that will be included on the PDF Invoices created. If blank, the Invoice Message on the Invoice will be blank. This can be overridden at the Invoice level.

Parent Account is the name of the parent account of the new Invoice Entity record being created.

Phone is the phone number for the Invoice Entity.

Remittance Email is the email address shown on PDF invoices for remittance advice to be forwarded for the Invoice Entity.

Send Invoice Emails from Email When the Send Invoice Email Setting field on the related Invoice Settings record is defined as 'Invoice Entity Defined', the email address defined in this field will be used as the Sender's email address for emailing invoices. Must be set up as an Organisation-Wide Address.

Shipping Address is the shipping address of the Invoice Entity.

Website is the website address of the Invoice Entity.
