

Purpose

The purpose of this quick reference guide is to step through the process of setting up an Employee's Emergency Contact. Emergency Contact records have a dependency that the Employee record is already created. The intended audience for this document is System Administrators / Standard Users.

Steps

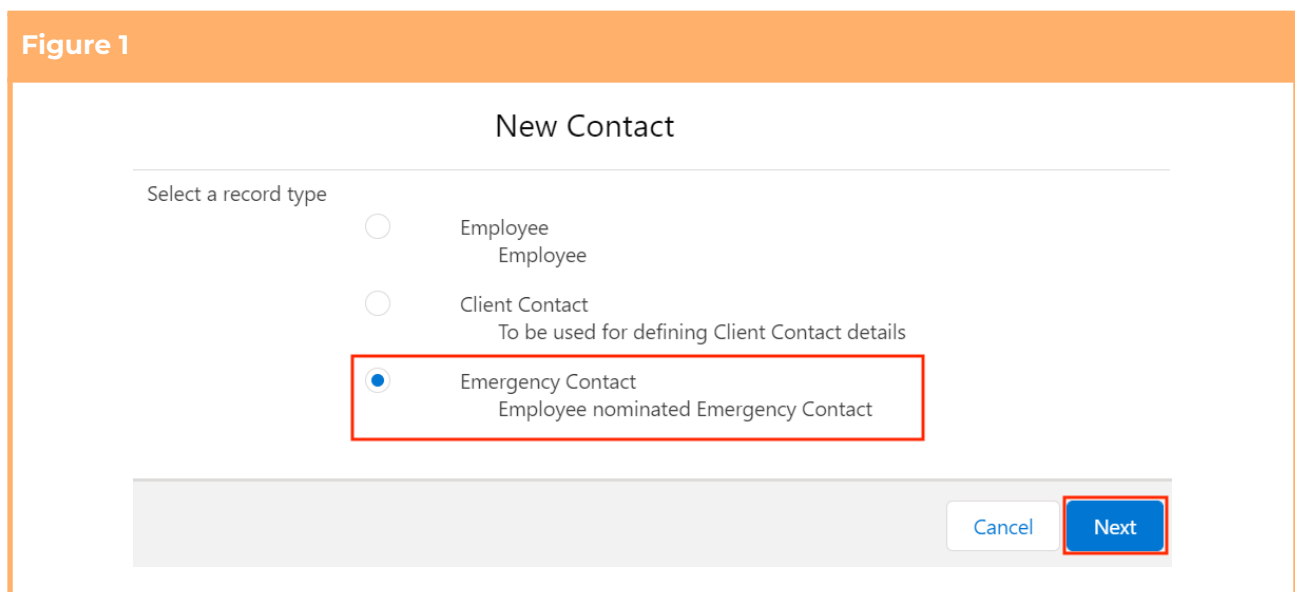

Create a new Emergency Contact record

An Emergency Contact record holds the contact details of a person nominated by the Employee.

Create an Emergency Contact record by following the below steps:

1. Go to the **Contacts** object.
2. Click the **New** button.
3. Select the **Emergency Contact** from the available record types. (See Figure 1)
4. Click the **Next** button.

Figure 1

5. Populate the following required fields to provide the base details of the Emergency Contact: (See Figure 3)
 - a. **First Name**
 - b. **Last Name**
 - c. **Emergency Contact of Employee**
 - d. **Emergency Contact Relationship**
 - e. **Account Name**
 - f. **Phone**
6. Populate the following optional fields to provide additional contact details and description of the Emergency Contact:
 - a. **Salutation**
 - b. **Email**
 - c. **Description**

Save & New

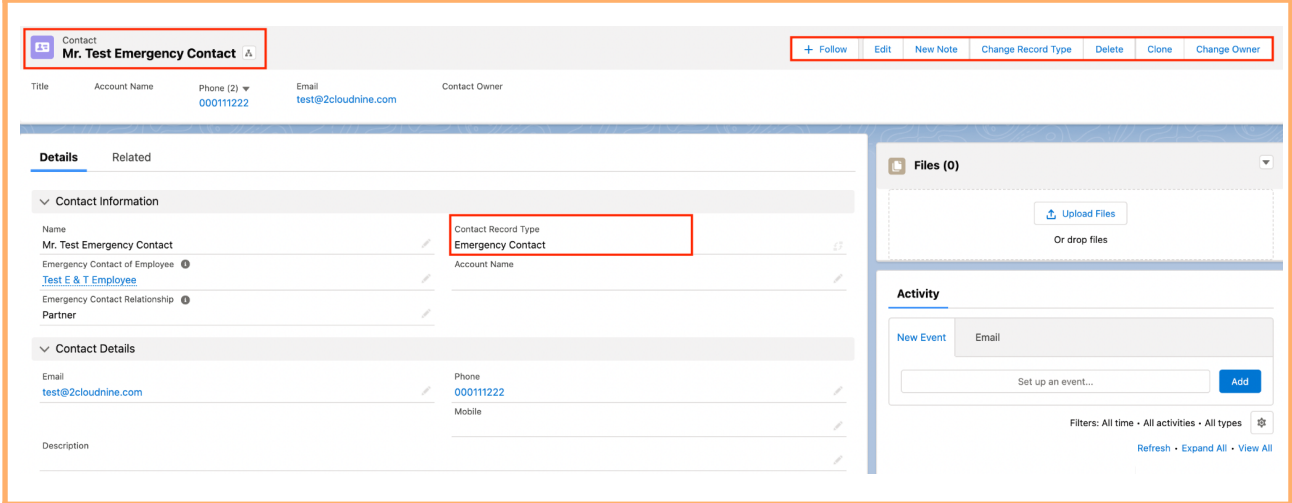

Save

Description field is not visible to an Employee if created via the community pages.

7. Click **Save**.
8. A new **Emergency Contact** record has been created and is now related to the appropriate **Contact** record. (See Figure 3)

Figure 3

Emergency Contact records CAN NOT be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

9. To modify an existing **Emergency Contact** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
10. When complete, click on the **Save** button.
