

Purpose

The purpose of this quick reference guide is to step through the process of creating an Invoiceable Fee which can be created either from a Client record or from an Assignment record. The intended audience for this document is System Administrators / Standard Payroll Users.

Users are advised after creating the Invoiceable Fee, they will be required to create the Pay Transaction, and no Invoice can be created until this is completed.

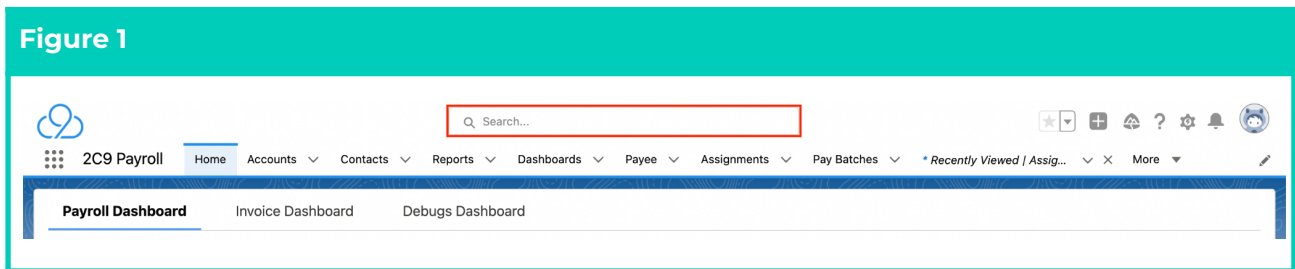

Steps

Create Invoiceable Fees from Client

Create an Invoiceable Fees from the Client by following the below steps:

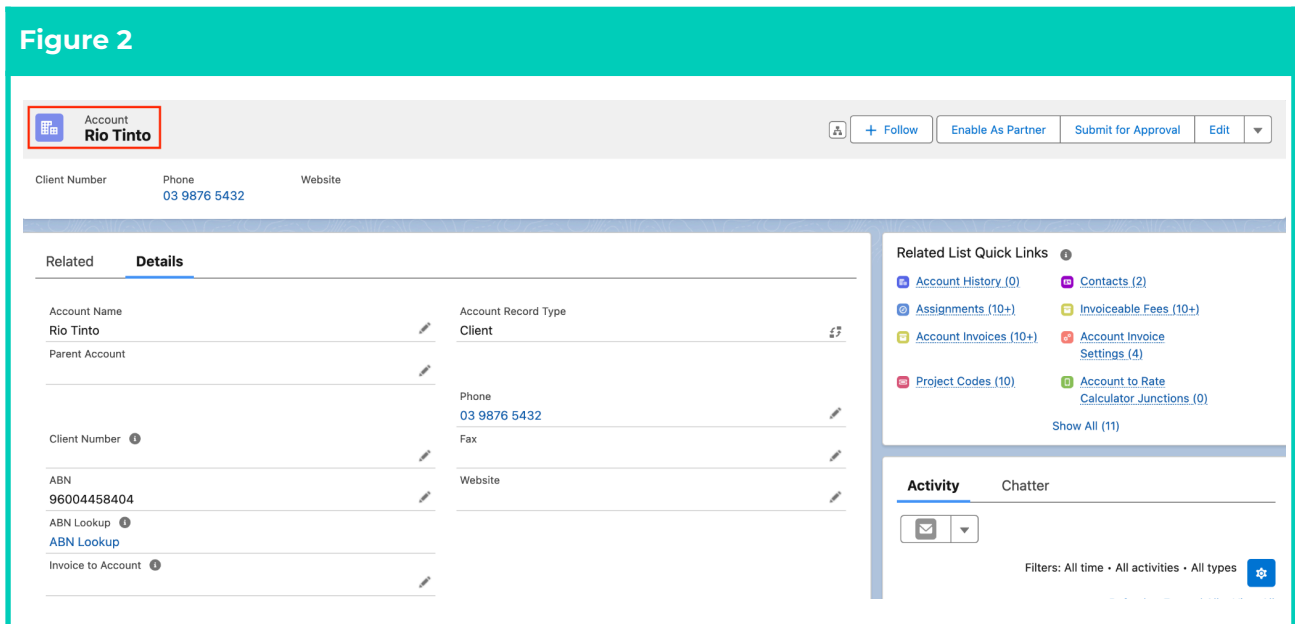

1. Go to the **Client** record.
 - a. To identify a Client record, enter the Account name into the **Global Search** (see Figure 1).

Figure 1

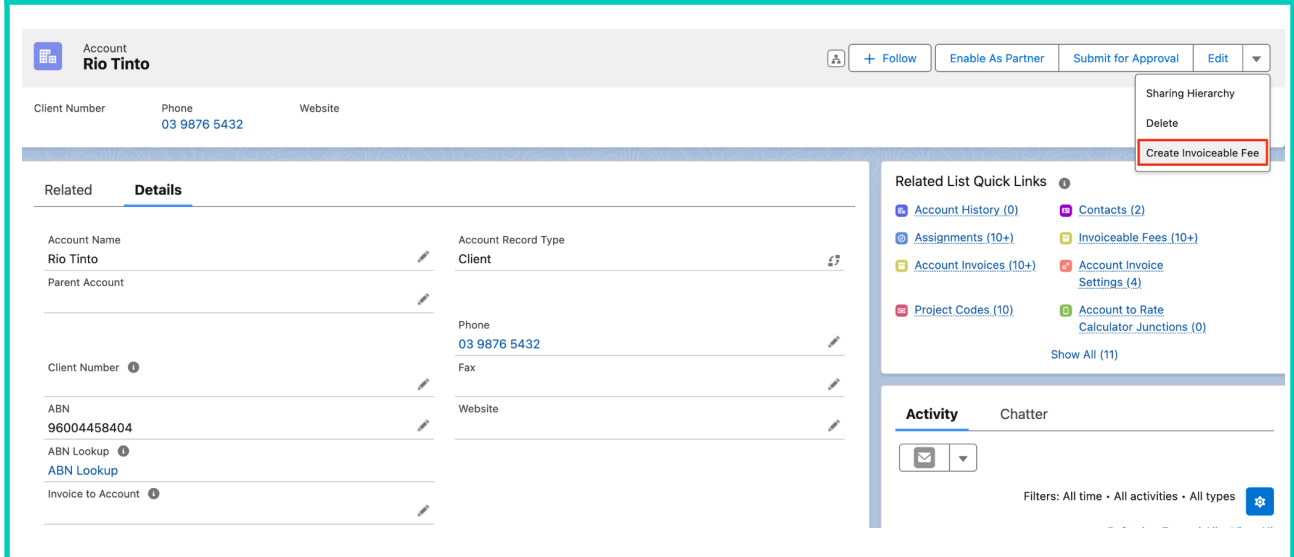

- b. Select the **Account** record from the suggestions provided (see Figure 2).

Figure 2

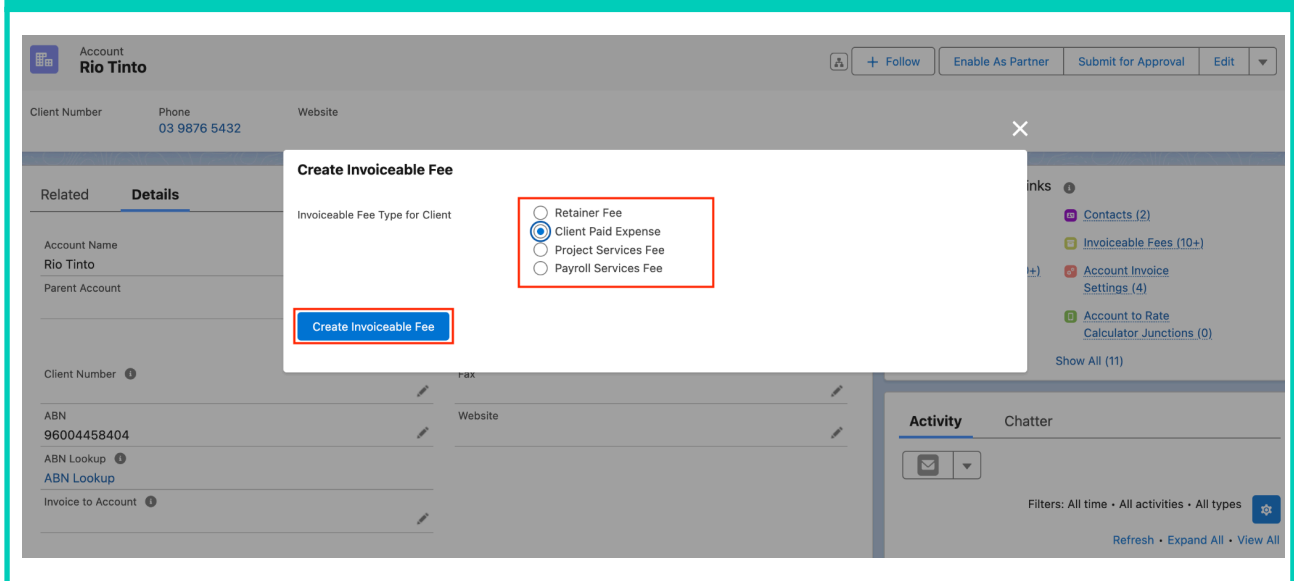

- Within the Client record, click on the  icon on the top right hand side and then select **Create Invoiceable Fee** (see Figure 3).

Figure 3

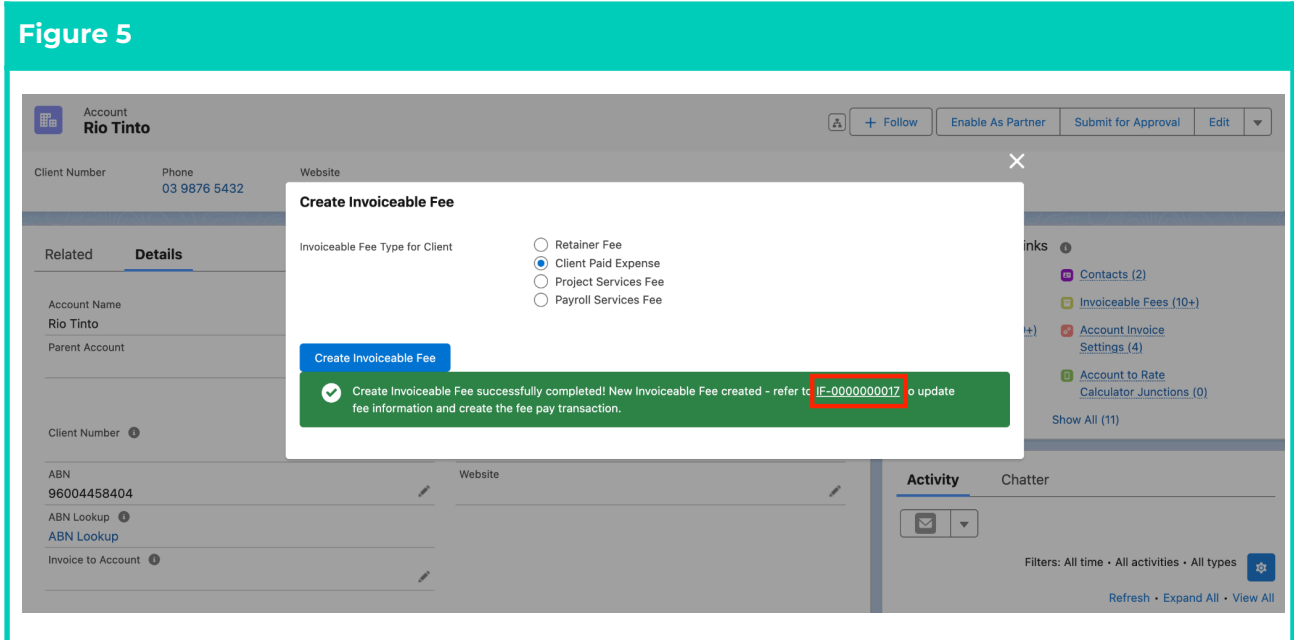

- A popup will display. Select one of the required options given below (see Figure 4). Please note the Record Type cannot be changed after the record has been created:
 - Retainer Fee**
 - Client Paid Expense**
 - Project Services Fee**
 - Payroll Services Fee**
- For this QRG example, we are selecting the **Client Paid Expense** radio button and clicking the **Create Invoiceable Fee** button (see Figure 4).

Figure 4

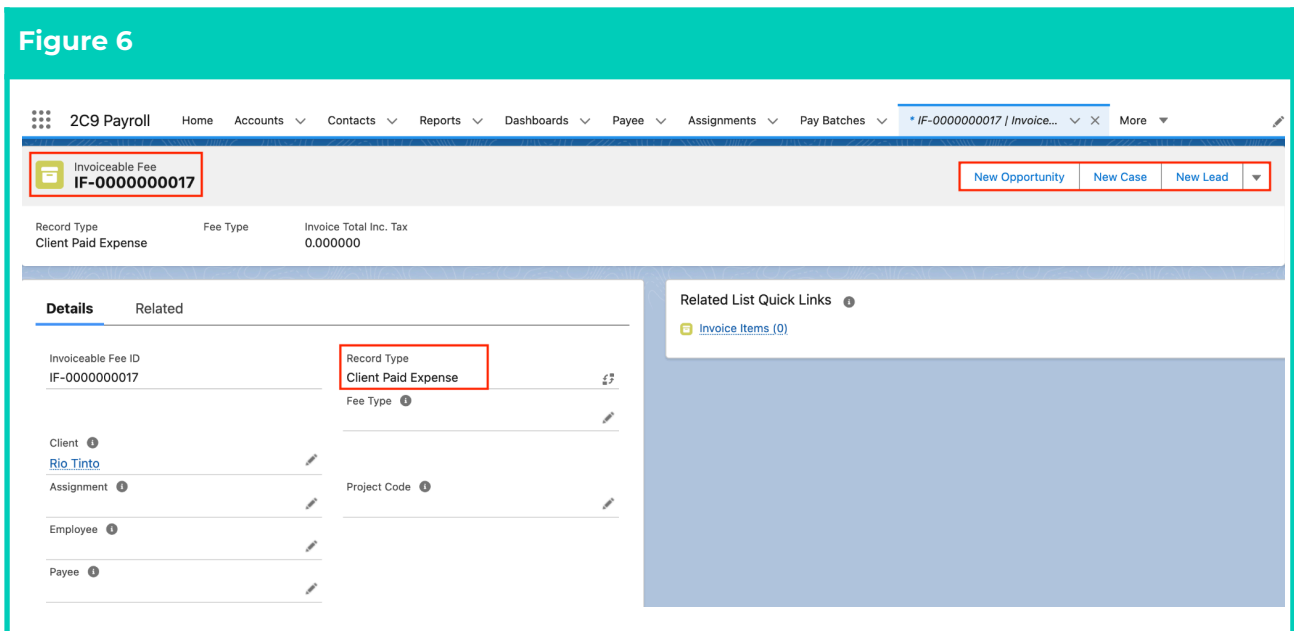

- The system will automatically create the Invoiceable Fee, and if successful, will display a notification starting with 'Create Invoiceable Fee successfully completed!'. Click on the link within the notification starting with **IF-xxxxxxxxxx** (see Figure 5).

Figure 5

- A new Invoiceable Fee record has been created with a Record Type of Client Paid Expense (see Figure 6).

Figure 6

- After creating the Invoiceable Fee, please refer to page 7 to learn how to create Pay Transactions.

Invoiceable Fees **CAN NOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

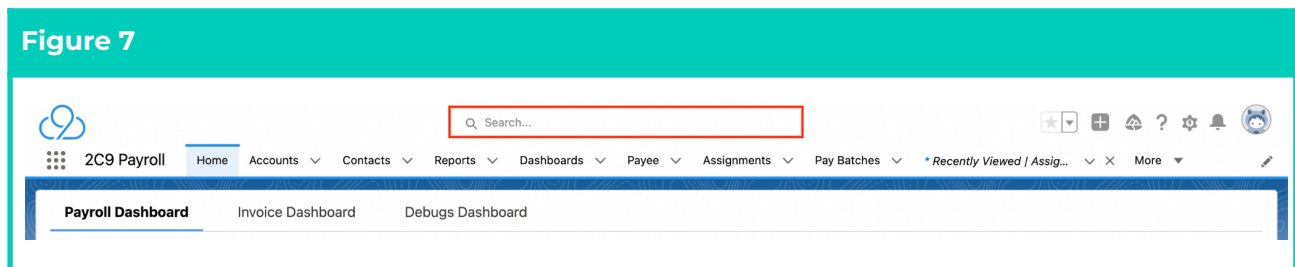

8. To modify an existing **Invoiceable Fee** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
9. When complete, click on the **Save** button.

Create Invoiceable Fees from Perm Assignment

Create an Invoiceable Fee from the Perm Assignment by following the below steps:

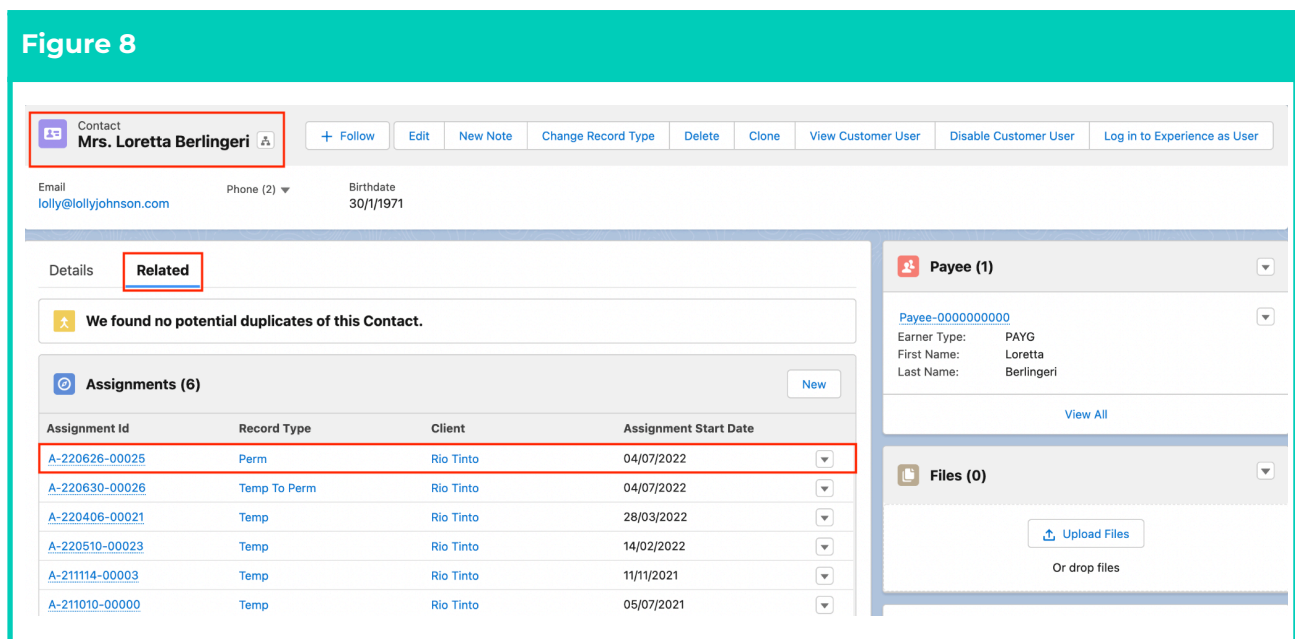

1. Go to the **Assignment** record.
 - a. To identify an Assignment record from an Employee record, enter the Employee name into the **Global Search** (see Figure 7).

Figure 7

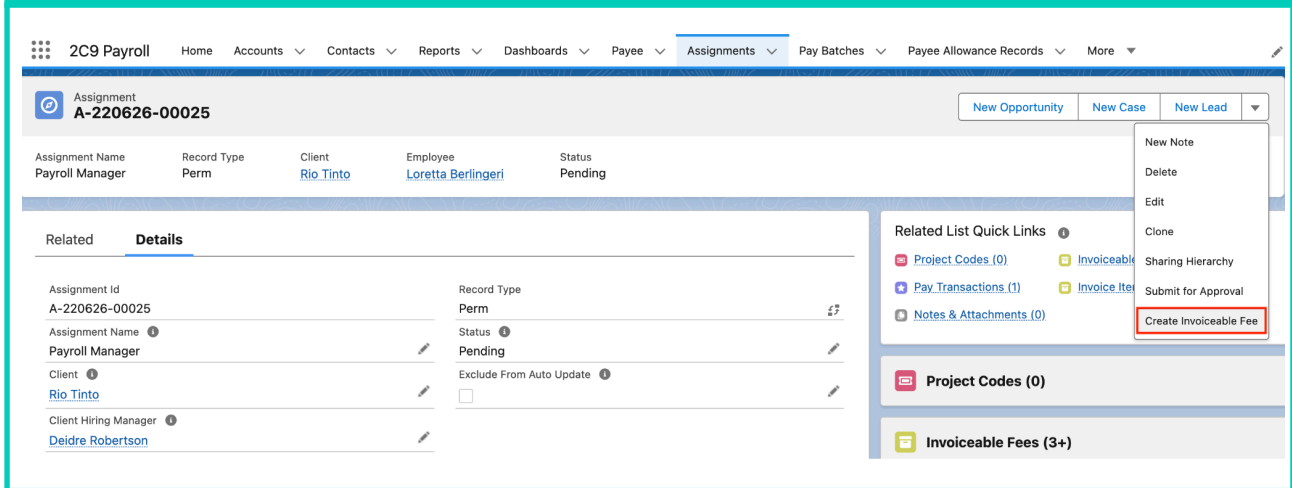

- b. Select the **Employee** record from the suggestions provided.
- c. Open the **Related** tab.
- d. Identify the **Assignment** record(s).
- e. Select the suitable **Assignment** record for this Invoiceable Fee (see Figure 8).

Figure 8

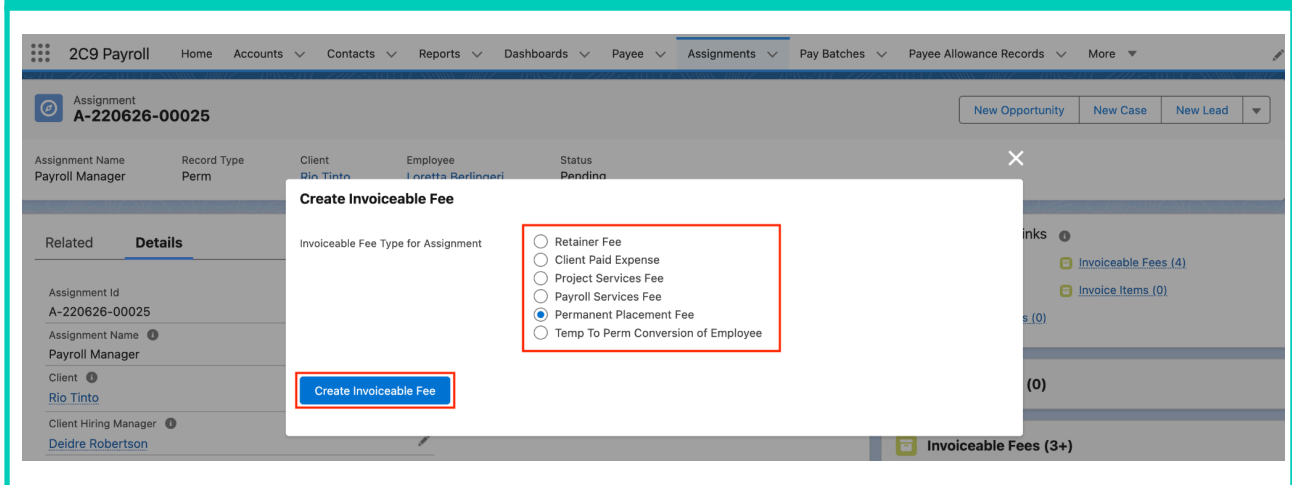

2. Within the Assignment record, click on the  icon on the top right hand side and then select **Create Invoiceable Fee** (see Figure 9).

Figure 9

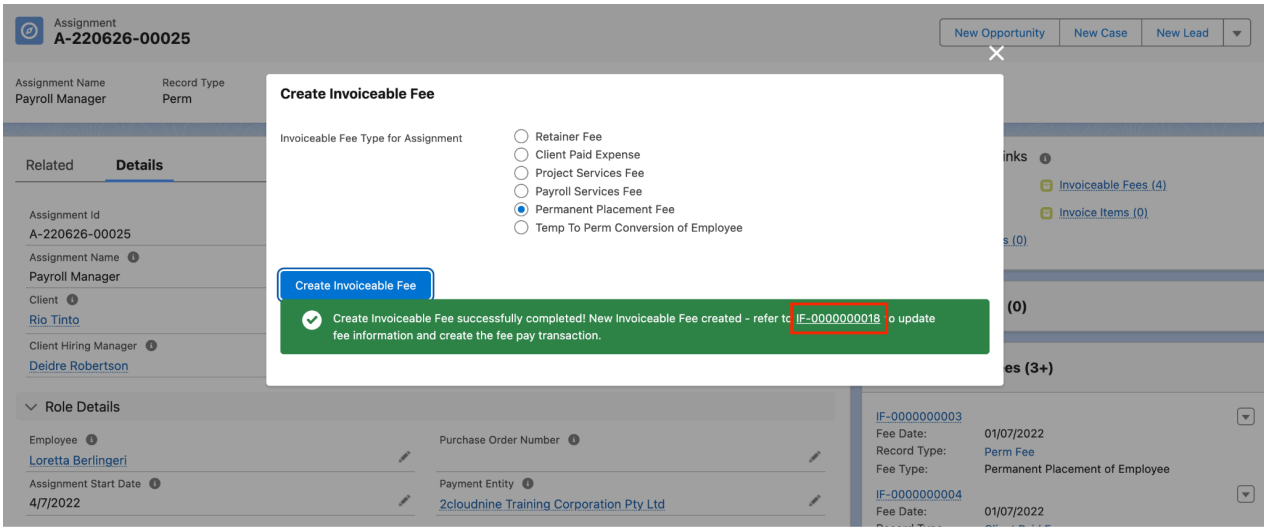

3. A popup will display. Select one of the required options given below (see Figure 10). Please note the Record Type cannot be changed after the record has been created:
 - a. **Retainer Fee**
 - b. **Client Paid Expense**
 - c. **Project Services Fee**
 - d. **Payroll Services Fee**
 - e. **Permanent Placement Fee**
 - f. **Temp To Perm Conversion of Employee**
4. For this QRG example, we are selecting the **Permanent Placement Fee** radio button and clicking the **Create Invoiceable Fee** button (see Figure 10).

Figure 10

5. The system will automatically create the Invoiceable Fee, and if successful, will display a notification starting with 'Create Invoiceable Fee successfully completed!'. Click on the link within the notification starting with **IF-xxxxxxxxxx** (see Figure 11).
