

### Purpose

The purpose of this quick reference guide is to step through the process of creating an Accounting Invoice Type. When first creating the records to reflect the Accounting dimensions within the external Accounting system, you will need to manually create all of the valid Accounting Invoice Types. The Accounting Invoice Type needs to match the Record Types of Invoice Items from 2cloudnine Payroll, which by default comprise of the following:

1. Allowance
2. Client Paid Expense
3. Expense
4. Payment
5. Payroll Services Fee
6. Perm Fee
7. Project Services Fee
8. Retainer Fee
9. Temp To Perm Fee

When Accounting Invoices are created, they inherit the Record Type from the Invoice Items they are created from, as listed above. They are used to split Invoice Record Types into Accounting Invoice Lines. The intended audience for this document is System Administrators / Standard Users.

### Steps

#### Create an Accounting Invoice Type

To create an Accounting Invoice Type, the following steps should be completed:

1. Click on the **App Launcher** icon. (See Figure 1)
2. Go to the **Accounting Invoice Type** object by using the Search function. (See Figure 2)

Figure 1

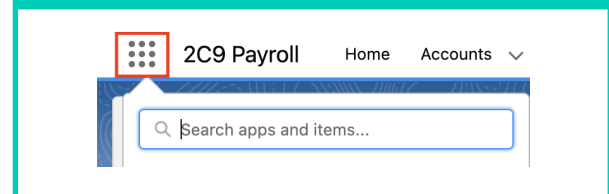

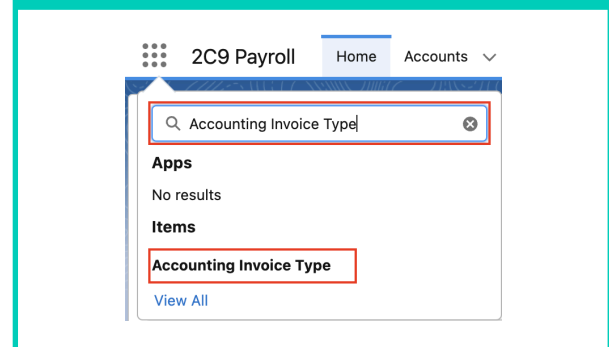

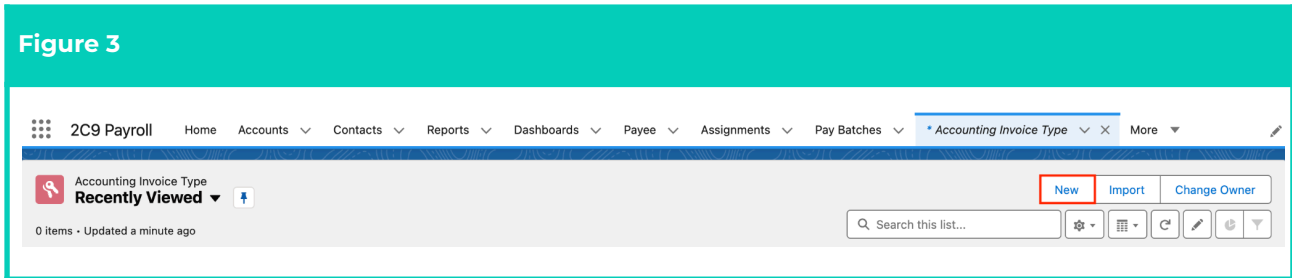

Figure 2

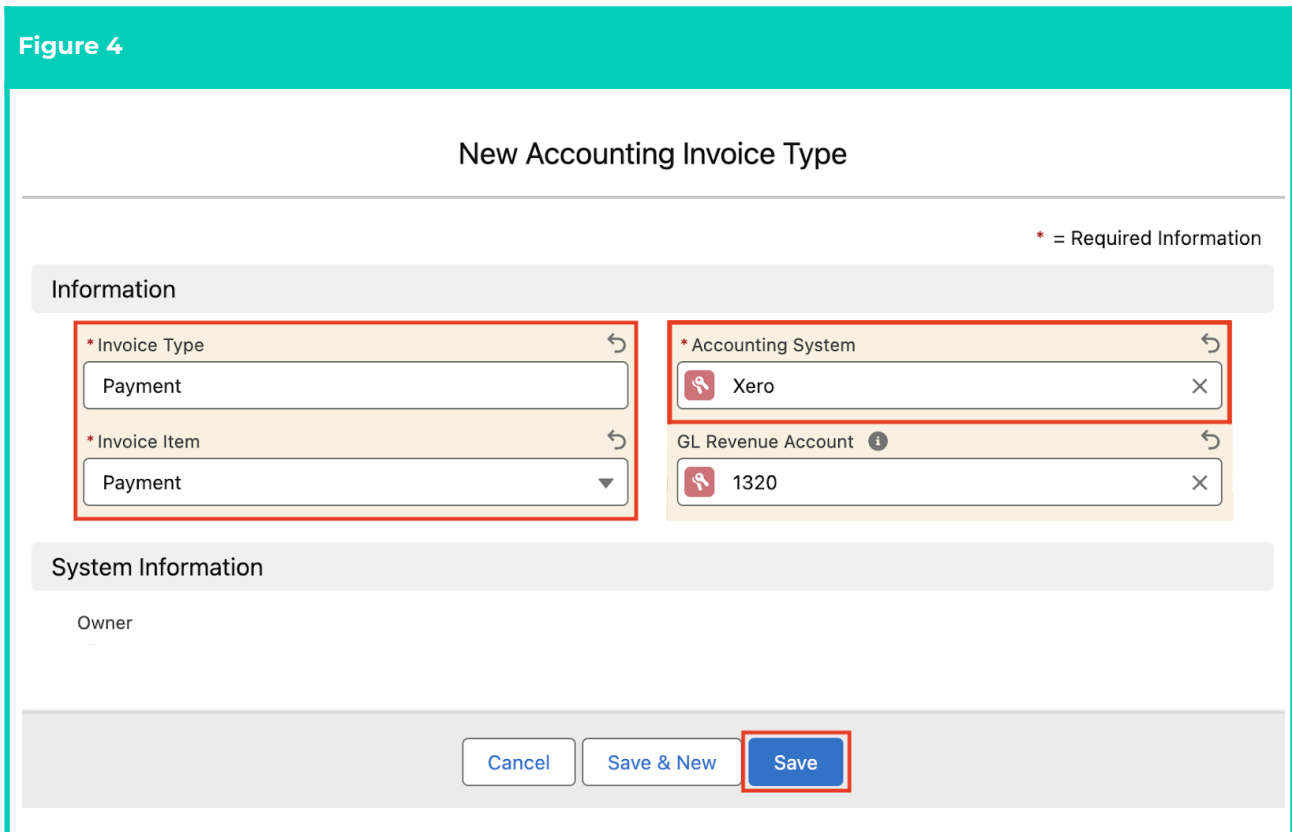

- Click on the **New** button. (See Figure 3)

Figure 3

- Populate the following required fields to provide the base details of the Accounting Invoice Type (see Figure 4):
  - Invoice Type** - the Accounting Invoice Type required
  - Invoice Item** - this is the Record Type from the Invoice Items to be defaulted to this Accounting Invoice Type.
  - Accounting System**
- To relate this Accounting Invoice Type to a Natural Account for Revenue, populate the optional field **GL Revenue Account**.
- Click on the **Save** button (see Figure 4).

Figure 4

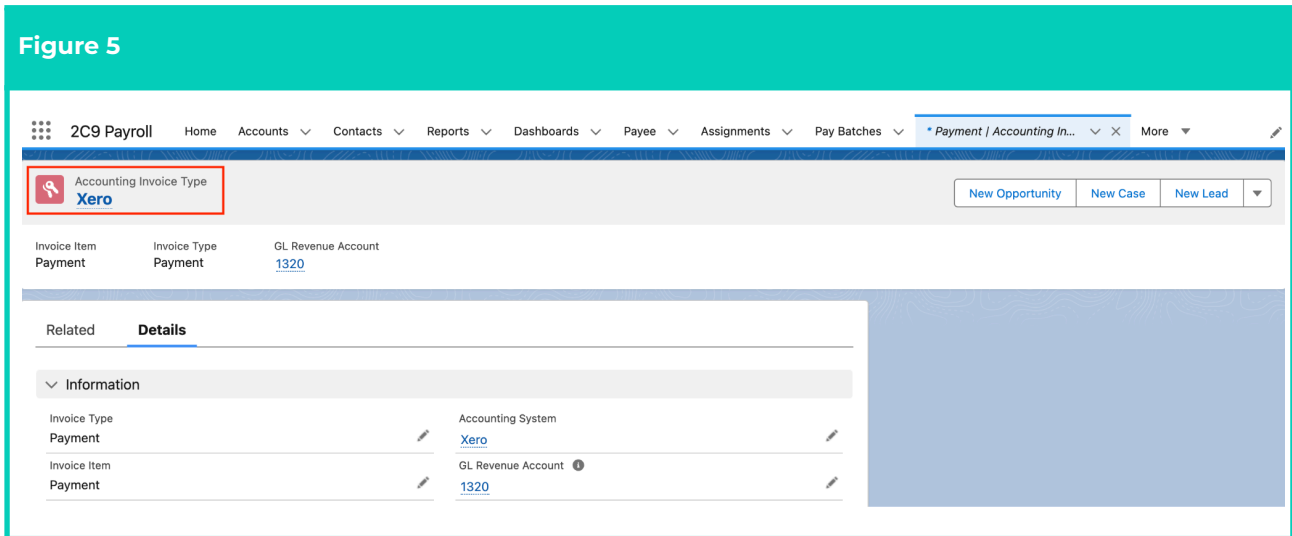

The screenshot shows the 'New Accounting Invoice Type' form. The form is divided into two main sections: 'Information' and 'System Information'. The 'Information' section contains four fields, each with a red asterisk indicating it is required:

- \* Invoice Type**: A dropdown menu with 'Payment' selected.
- \* Invoice Item**: A dropdown menu with 'Payment' selected.
- \* Accounting System**: A dropdown menu with 'Xero' selected.
- GL Revenue Account**: A dropdown menu with '1320' selected.

The 'System Information' section is currently empty, showing only the 'Owner' label. At the bottom of the form, there are three buttons: 'Cancel', 'Save & New', and 'Save'. The 'Save' button is highlighted with a red rectangular box.

7. A new **Accounting Invoice Type** is now created. (See Figure 5)

Figure 5

The screenshot shows the 2C9 Payroll interface. The top navigation bar includes links for Home, Accounts, Contacts, Reports, Dashboards, Payee, Assignments, Pay Batches, and a dropdown for 'Payment / Accounting In...'. A red box highlights the 'Accounting Invoice Type' section, which shows 'Payment' as the selected type. Below this, the 'Details' tab is active, displaying a table with the following information:

| Related                 | Details                    |
|-------------------------|----------------------------|
| Information             |                            |
| Invoice Type<br>Payment | Accounting System<br>Xero  |
| Invoice Item<br>Payment | GL Revenue Account<br>1320 |

Accounting Invoice Types CAN NOT be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

8. To modify an existing **Accounting Invoice Type**, select the required record and select the **Edit** button available on the top right side of the page. You can also double click within fields that need editing or just click on the pencil icon  that appears within fields when hovering with your cursor.
9. When complete, click on the **Save** button.

### Field Descriptions

**Accounting System** is the Accounting System this Accounting Invoice Type relates to.

**Invoice Type** is the name given to the Accounting Invoice Type being created.

**Invoice Item** select the Invoice Item value from the picklist that matches this record.

**GL Revenue Account** is the Revenue Natural Account this Accounting Invoice Type relates to.

### Further Information

| Document                                             | Document Type     | Description                                                                                                                                                          |
