

## Purpose

The purpose of this quick reference guide is to step through the process of creating an Assignment Department. The intended audience for this document is System Administrators / Standard Users.

## Steps

### Create Accounting Segments - Assignment Department

The Assignment Department Accounting Segment links to a dimension within the Accounting System. Example dimensions include department, division, location, site, etc.

To create an Assignment Department Accounting Segment, the following steps should be completed:

1. Click on the **App Launcher** icon. (See Figure 1)
2. Go to the **Accounting Segments** object by using the Search function. (See Figure 2)

Figure 1

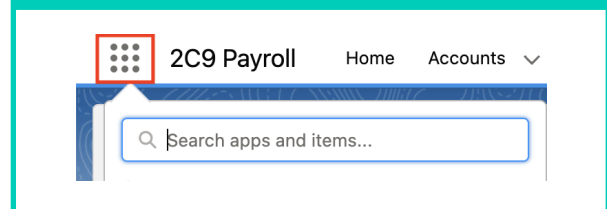

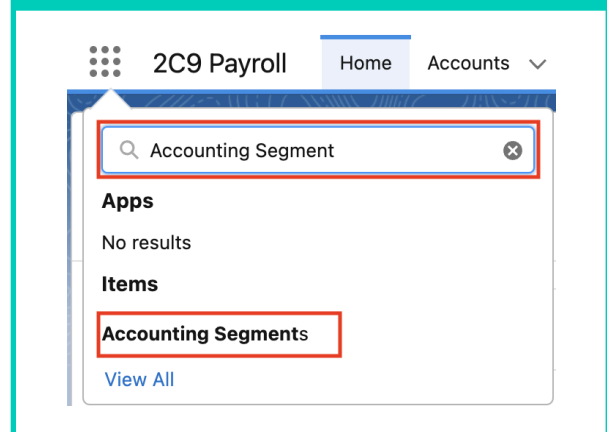

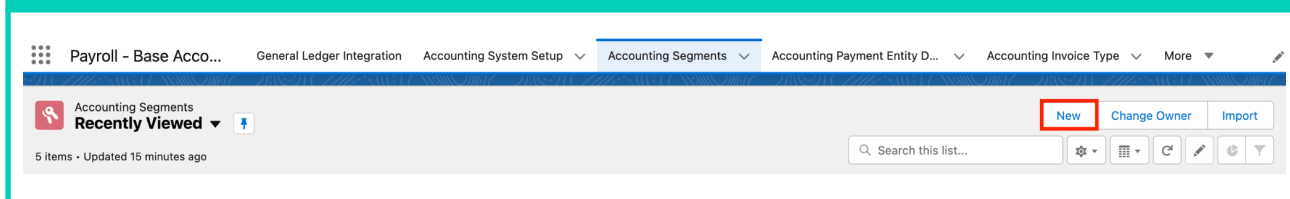

Figure 2

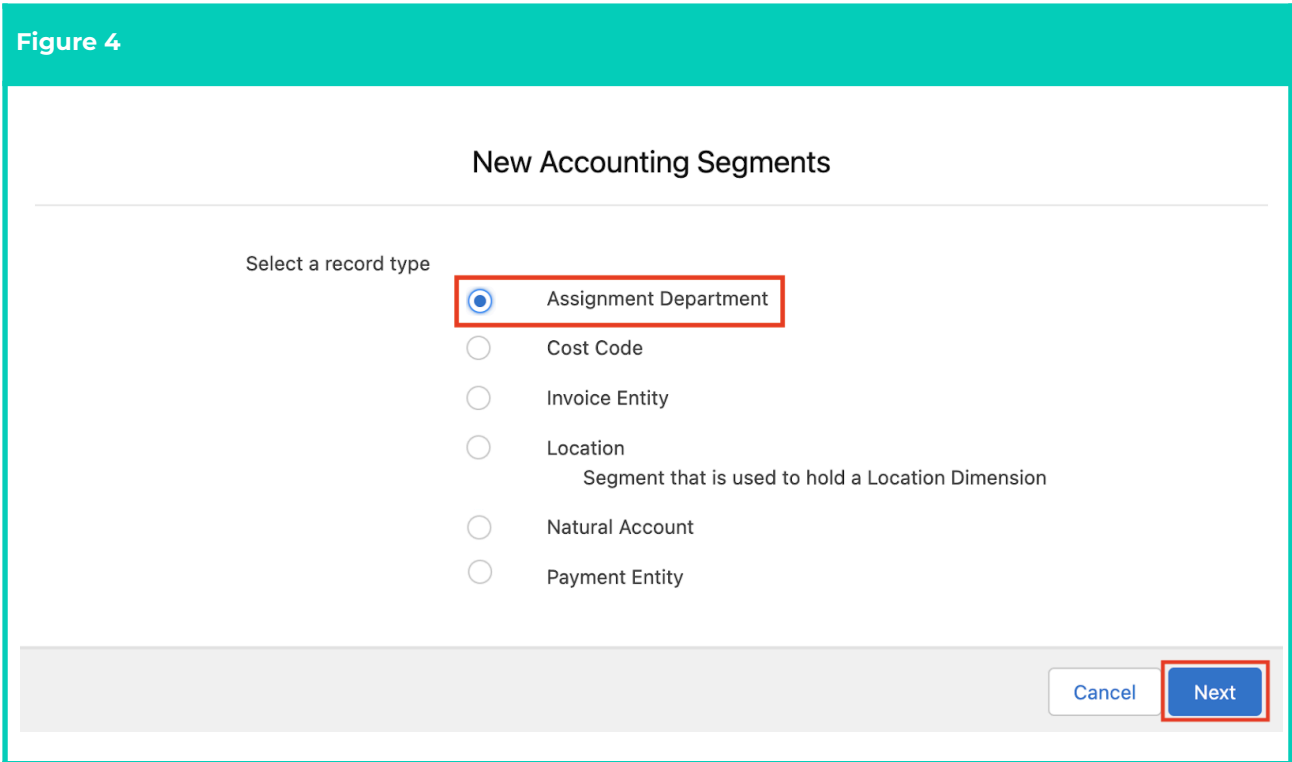

3. Click on the **New** button. (See Figure 3)

Figure 3

4. Select **Assignment Department** from the available record types and click on the **Next** button.  
(See Figure 4)

New Accounting Segments

Select a record type

- ☒ Assignment Department
- ☐ Cost Code
- ☐ Invoice Entity
- ☐ Location  
Segment that is used to hold a Location Dimension
- ☐ Natural Account
- ☐ Payment Entity

Cancel Next

5. Populate the following required fields to provide the base details of the Assignment Department record (see Figure 5):
  - a. **Accounting System**
  - b. **Active/Inactive** - set to true
  - c. **Segment Value** - this will be the accounting dimension code as per the Accounting system (eg AD-INT)
6. Populate the following optional fields as required (see Figure 5):
  - a. **Segment Description** - description of this Assignment Department (eg Accounts Department)
  - b. **Accounting System Reference** - can be used if the code requires additional description as detailed in the Accounting software.
  - c. **External ID** - optional field for exporting data using the Accounting Systems Record Id.
7. Click on the **Save** button (see Figure 5).

If there are a large number of Assignment Departments to create, it is advisable to data load these records using a suitable data loading tool.

8. A new **Assignment Department Accounting Segment** is now created (see Figure 6).

Figure 6

The screenshot shows the 'Accounting Segments' page in the 2C9 Payroll system. The 'AD-INT' segment is selected. The 'Record Type' is 'Assignment Department'. The 'Accounting System' is 'Xero'. The 'Accounting System Reference' is 'AD-INT'. The 'Active/Inactive' status is 'Active'.

| Segment Description | Record Type           | Accounting System | Accounting System Reference | Active/Inactive                     |
|---------------------|-----------------------|-------------------|-----------------------------|-------------------------------------|
| Admin - Internal    | Assignment Department | Xero              | AD-INT                      | <input checked="" type="checkbox"/> |

**Details** | Related

**Key Fields**

|                   |        |                     |                                     |
|-------------------|--------|---------------------|-------------------------------------|
| Accounting System | Xero   | Active/Inactive     | <input checked="" type="checkbox"/> |
| Segment Value     | AD-INT | Segment Description | Admin - Internal                    |

**Optional Fields**

|                             |        |             |  |
|-----------------------------|--------|-------------|--|
| Accounting System Reference | AD-INT | External ID |  |
|-----------------------------|--------|-------------|--|

Assignment Department records **CAN NOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

9. To modify an existing **Assignment Department Accounting Segment**, select the required record and select the **Edit** button available on the top right side of the page. You can also double click within fields that need editing or just click on the pencil icon  that appears within fields when hovering with your cursor.
10. When complete, click on the **Save** button.

### Field Descriptions

**Accounting System** is the Accounting System this Assignment Department relates to.

**Accounting System Reference** is the reference given to this Assignment Department within the external Accounting System.

**Active/Inactive** defines if the record is currently active.

**External ID** defines the ID of the corresponding record in an external Accounting System that has been used to create/update this record, or used if this data is integrated to an external Accounting system.

**Segment Description** is a description that is provided to the Assignment Department .

**Segment Value** is the value given to the Assignment Department for use within the Cost of Payroll Journals and Accounting Invoices.
