

Overview

Release:	Payroll Aus Extension v1.48
Version:	v1.48
Release Date:	20/05/2021
Packages updated:	2cloudnine Payroll Australia Extension v1.48 (incorporates v1.48)

Important Information

This guide is intended for certified Salesforce System Administrators and/or suitably trained 2cloudnine Payroll Partners and System Administrators. Only these people should be actioning any installation, configuration items and tasks.

Any configuration undertaken without 2cloudnine guidance that interferes with the performance of 2cloudnine Payroll will be addressed on a time and materials basis. Resources for these fixes cannot be guaranteed and will be allocated in the next available time slot.

All packages within the release must be installed. There may be compulsory and optional configuration items and tasks that need to be completed prior to and post the installation of the packages. These will be highlighted in the below checklists with further details given within this document.

The installer will be responsible for ensuring all these configuration items and tasks are completed within a reasonable timeframe of the packages being installed. Please ensure you have familiarised yourself with all the requirements PRIOR to installing the packages and ensure you have sufficient time and resources available. Failing to do so can negatively impact the user experience and stability of 2cloudnine Payroll.

Installation Checklist

The following items must be completed in the listed order to install and configure the packages within this release.

Configuration Item / Task		Requirement?
Package Installation
