

Purpose

The purpose of this quick reference guide is to step through the process of Calculating a Pay Batch, and Reviewing and Resolving / Acknowledging Flags through the Pay Batch Manager. The intended audience for this document is Standard Payroll Users.

Once the Pay Batch has been created, the first step is to Calculate the Pay Batch which changes the status from Uncalculated. Pay Batches will be required to have a Part Calculate or Calculate All performed once or multiple times as required, before the eventual Finalise of a Pay Batch, to ensure any adjustments or changes made have been included in the overall calculations of the Pay Batch.

A Pay Batch is considered as successfully calculated when the Status changes to Calculated. This is done by using the Part Calculate or Calculate All buttons as required. After calculating, the Pay Batch will display amounts in the Total Gross and Total Net fields.

If there are any errors or warnings during the Calculate process, they must be acknowledged or resolved before proceeding with the Calculate process again, or with Finalising the Pay Batch.

Steps

Calculate a Pay Batch

To Calculate a Pay Batch, the following steps should be completed. Please skip to step 4, if you already have the Pay Batch Manager UI open on your screen:

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

2. Go to the **Pay Batches** object by using the Search function (see Figure 2).

Figure 2

3. From the List View, select the Pay Batch you want to review with the status of Uncalculated, Part Calculated, Calculated with Errors, or Calculate Failed and click the **Launch** button (see Figure 3).

Figure 3

4. From within the Pay Batch Manager, go to the **Calculate** navigation icon available from the vertical navigation icons (see Figure 4).

Figure 4

5. Click on the **Calculate All** button.
A pop-up message indicating that the Calculation Process has commenced will be shown. The Pay Batch Status will be updated to Calculating, and a progress bar showing the progress of the Calculation Process will be displayed (see Figure 5).

Figure 5

6. Once the Calculation Process is complete, the Payee Pay Batch Status will be updated to Calculated, Calculate Failed, or Calculated with Errors, based on the successful completion of the process:
 - a. If the Calculation Process is completed successfully, the Status of the Pay Batch will be updated to Calculated.

The Pay Batch will now display values in the Total Gross and Total Net fields (see Figure 6). Any applicable PAYG Tax, GST, Superannuation, Deductions, and Allowance Pay Transactions will be available for review via Record Detail View or Adjustments Manager for each Payee Pay Batch.

REVIEW CALCULATE FINALISE REPORTING

Part Calculate Calculate All

	UNCALCULATED	CALCULATED	CALCULATE FAILED	PAYG	NON PAYG	TOTAL
Payee Pay Batches	0	1	0	1	0	1

- b. If the Calculation Process fails, the Status of the Pay Batch will be updated to Calculated with Errors or Calculate Failed. The reason for the failure must be addressed before the Pay Batch can be Calculated again or Finalised.

Generally, a Calculation Failed status results from an error with one or more of the records associated with the Pay Batch. If this occurs, a Debug Log will be created to provide details of the error.

7. Within the All Employees tab of the Payee Pay Batch table, the Payee Pay Batch records that are successfully Calculated will display a blue coloured dot to the left of the Payee Name. A red coloured dot will display if the Calculation Failed. The orange coloured dot will be displayed for those Payee Pay Batch records that remain Uncalculated or Part Calculated, which occurs when additions are made to the Payee Pay Batch since the last Calculation was performed on the Pay Batch (see Figure 7).

To assist Users in isolating the Payees with a status that needs to be reviewed (except Calculated), the Filter Tabs of Uncalculated / Calculate Failed / Calculated Quick can be used to filter these records.

Re-Calculate a Pay Batch

After making adjustments or changes to Calculated records, use the Part Calculate or Calculate All buttons to recalculate the values held for each Payee Pay Batch. This can be completed in 2 ways:

1. **Calculate All** - to kick off the Calculate process for an entire Pay Batch; or
2. Part Calculate - to kick off the Calculate process for only Payees who have Payee Pay Batches where the status is Uncalculated via the standard UI List.

Calculate All

To perform a full Calculation on the entire Pay Batch, even for Pay Batches that already have a Status of Calculated, the following steps should be completed:

1. Go to the **Calculate** navigation icon.
2. Click the **Calculate All** button (see Figure 8).

Figure 8

Part Calculate an Entire Pay Batch

To Calculate only Payees within a Pay Batch, who have Payee Pay Batches that are not a Status of Calculated, the following steps should be completed:

1. Go to the **Calculate** navigation icon.
2. Click the **Part Calculate** button (see Figure 9).

Figure 9

The Calculation process will commence with a summary of the Calculation progress shown on the page (see Figure 10).

Figure 10

Calculate Payee Pay Batches for a Single Payee

To learn more about calculating Payee Pay Batches for an individual Payee, please refer to the QRG Calculate a Single Payee within a Pay Batch.

Viewing, Actioning, and Acknowledging Flags

Flags are used to provide Users with a way of identifying Warnings and Critical Alerts. While Payee Pay Batches with Warnings can be included within a Finalised Pay Batch, those with Critical Alerts can not. The Calculation Process determines if one or more Flags apply.

Users can identify flags that apply to a Pay Batch by completing the following:

1. Go to the Review navigation icon.
2. If there are any flags that apply to a Payee Pay Batch, outlined on the **All Payees, Uncalculated**, **Calculate Failed**, and **Calculated** tabs, a **Flag Icon** ( ,  ,  and/or ) will be displayed at the end of the row of the table, to the left of the action button  (See Figure 11).

Figure 11

The screenshot shows the 'PAY BATCH MANAGER' interface for pay batch PB-0000002119. It includes a search bar, filters for 'All', 'PAYG', and 'Non PAYG', and a table of pay batches. The table has columns for Employee, Period End, Units, Gross, Pre Tax Dedn, Taxable Gross, Total Tax, Post Tax Dedn, Expenses, Net, and Super. Two pay batches are listed, both with a red flag icon in the 'Super' column.

The messages related to any flags need to be reviewed and acknowledged before the Pay Batch can be Finalised, if the Custom Setting for 'Enforce Flag Validation' on Payroll Configuration is set.

3. If there are any Flags identified, the details of Flags can be viewed/actioned:

- **On a Pay Batch level**, through the flag filter tabs of Payee, Employee, Transactions and Payee Pay Batch (see Figure 12).
- **On an individual Payee Pay Batch record level**, through the Payee Pay Batch View Details screen within the Alerts tab (see Figure 13).

Figure 12

The screenshot shows the 'PAY BATCH MANAGER' interface with the 'Alerts' tab selected. It displays a table of alerts with columns for Employee, Period End, Acknowledged By, Acknowledged On, Incomplete Reason, and Alert. Two alerts are listed, both with a red flag icon in the 'Alert' column.

Figure 13

The screenshot shows the 'PAY BATCH MANAGER' interface with the 'Alerts' tab selected. It displays a table of alerts with columns for Employee, Period End, Acknowledged By, Acknowledged On, Incomplete Reason, and Alert. Two alerts are listed, both with a red flag icon in the 'Alert' column. The first alert is expanded, showing the 'Incomplete Reason' as 'At least one balance payment detail must be present.'

Critical Alerts must be resolved. Warnings must also be reviewed, and possibly resolved and/or acknowledged.

4. The reason provided in the area 'Incomplete Reason' for the Flag(s) to be reviewed/acknowledged, can be used to determine the action required to correct the issue.

To Resolve the Warnings and Critical Alerts

To Resolve Warnings and Critical Alerts:

1. Create any additional source records and/or edit existing source records to resolve the issue detailed as the flag reason.
2. To verify that the Warning / Critical Alert is resolved, perform a Calculate Payee on the Payee Pay Batch or a Part Calculate on the Pay Batch.

To Acknowledge Flags for Warnings

1. To Acknowledge Warnings, at the Pay Batch level:
 - a. Multi-select the checkboxes alongside the Flag(s) to be acknowledged.
 - b. Click on the **Acknowledge Alerts** button (see Figure 14).

Figure 14

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'CALCULATE FAILED'. The interface includes a search bar, filters for 'All Employees', 'UNCALCULATED', 'CALCULATE FAILED', 'CALCULATED', 'LEAVE', and 'PAYEE'. A table lists employees with checkboxes for selection. The 'Acknowledge Alerts' button is highlighted in red in the top right corner.

2. To Acknowledge Warnings at the Payee Pay Batch level:
 - a. From within the Pay Batch, go to the **Payee Pay Batch** Tab (see Figure 15).
 - b. Click the Action drop-down button  next to the relevant **Payee Pay Batch**.

Figure 15

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000000110. The status is 'CALCULATED'. The interface includes a search bar, filters for 'All Employees', 'UNCALCULATED', 'CALCULATE FAILED', 'CALCULATED', 'LEAVE', and 'PAYEE'. A table lists employees with checkboxes for selection. The 'PAYEE PAY BATCH' tab is highlighted in red in the bottom right corner.

- c. Select the **Acknowledge Alerts** option. (see Figure 16).

Figure 16

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000000110. The status is 'CALCULATED'. The interface includes a search bar, filters for 'All Employees', 'UNCALCULATED', 'CALCULATE FAILED', 'CALCULATED', 'LEAVE', and 'PAYEE'. A table lists employees with checkboxes for selection. The 'Acknowledge Alerts' button is highlighted in red in the bottom right corner.

Field Descriptions

Field Name	Description
Main UI	
Calculate All (Blue Button)	click this button to Calculate the Pay Batch.
Calculate (navigation icon)	click this navigation icon to view options related to calculating the Pay Batch and the Part Calculate or Calculate All buttons.
Calendar Period	is the date range applicable for this Pay Batch. The Pay Batch may also contain Payee Pay batches relating to earlier Pay Calendar Periods if it was created with the 'Include Earlier Periods' checkbox selected.
Finalise (navigation icon)	click this navigation icon to view and action various options related to finalising the Pay Batch.
Part Calculate (Blue Button)	click this button to Part Calculate the Pay Batch that has been Calculated already or where the required adjustments have been made.
Pay Advice Net	is the total net amount of related Pay Advices.
Pay Schedule	defines the Pay Schedule of the Pay Batch.
Payees	is the count of unique Payees from related Payee Pay Batch records.
Payment Date	defines the Payment Date on the Payment File. This can be in the future, but it can not be in the past.
Payment Entity (on the Main UI)	is the Payment Entity that this Pay Batch is associated with.
Payment File Net	is the total net amount of the related Payment File.
Payroll Date	is the date that a Pay Batch will be finalised. This date can be in the future, but can not be a historic date
Reporting (navigation icon)	click this navigation icon to generate a Variation Report for this Pay Batch to compare it to another Pay Batch.
Review (navigation icon)	click this navigation icon to view options related to reviewing the Pay Batch.
Total Gross	is the total gross earnings from all related Payee Pay Batch records.
Total Net	is the total net earnings from all related Payee Pay Batch records.
Payee Pay Batch rows (under the action drop-down button next to Payee Pay Batch rows)	
Adjustments	click this button to open the Adjustments screen for an individual Payee Pay Batch.
Calculate Payee	use this button to calculate the individual Payee Pay Batch.
Exclude from Payment File	use this button to exclude the total net amount associated with this Payee Pay Batch from the Payment File. This can be reversed at any time up until the Payment File is a status of Released.
Include in Payment File	use this button to include this Payee Pay Batch if previously 'excluded from the Payment File' back into the Payment File.
Remove Payee Pay Batch Record	use this button to delete the individual Payee Pay Batch record.
Reverse Payee Pay Batch	use this button to reverse all components of this Payee Pay Batch, to be processed in a new Pay Batch.
View Details	click this button to open the View Details Panel.
