

Purpose

The purpose of this quick reference guide is to step through the process of Finalising a Pay Batch through the Pay Batch Manager. The intended audience for this document is Standard Payroll Users.

A Calculated Pay Batch must be Finalised, ensuring that any further changes to the Pay Batch are not possible, before the creation of Pay Advices and releasing the Payment File.

Once the Payment File is created, it may be required to be submitted for approval (where applicable) before it is Released. The status of the Pay Batch will be updated to Payment File Released.

Despite a Pay Batch being Finalised, the 2cloudnine Pay Batch has the flexibility of being rolled back to prior statuses and adjusted until it reaches the Pay Batch Status of Payment File Released. A popup reminder has been included to ensure Users are aware of this being the 'point of no return'.

Steps

To Finalise a Pay Batch, the users may need to complete one or more of the following steps depending on what their requirements are:

1. Finalise a Pay Batch
2. Unfinalise a Pay Batch (if needed)
3. Create Pay Advices
4. Preview a Pay Advice (if needed)
5. Delete Pay Advice (if needed)
6. Create a Payment File
7. Delete the Payment File (if needed)
8. Payment File Approval (if needed)
9. Download/Release Payment File
10. Review Payment File details for Individual Payee Pay Batch

Finalise a Pay Batch

To Finalise a Pay Batch, the following steps should be completed. Please skip to step 4, if you already have the Pay Batch Manager UI open on your screen:

1. Click on the **App Launcher** icon (see Figure 1).
2. Go to the **Pay Batches** object by using the Search function (see Figure 2).

Figure 1

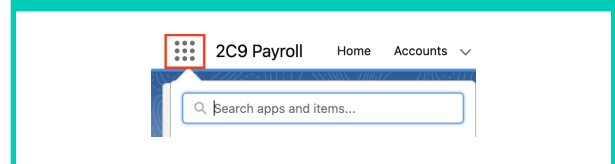

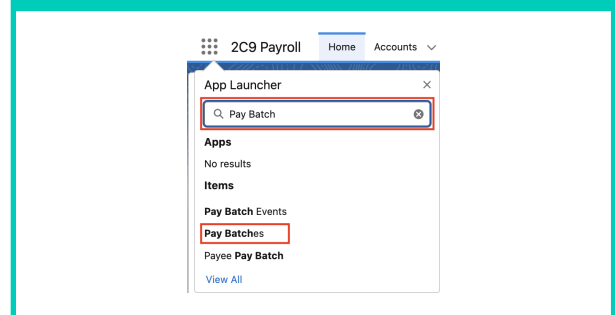

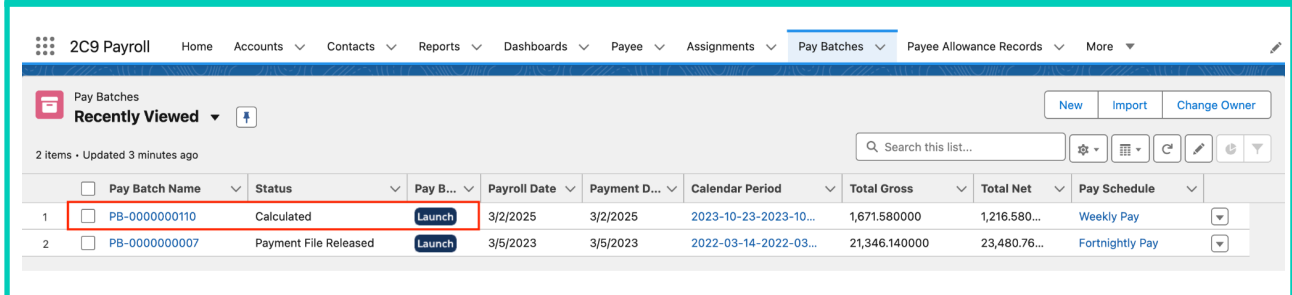

Figure 2

- From the List View, select the Pay Batch you want to review with the status of Calculated and click the **Launch** button (see Figure 3).

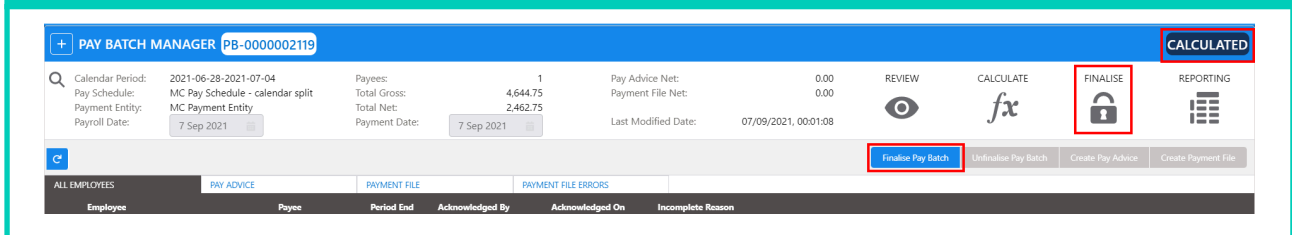

Figure 3

	Pay Batch Name	Status	Pay B...	Payroll Date	Payment D...	Calendar Period	Total Gross	Total Net	Pay Schedule
1	PB-000000110	Calculated	Launch	3/2/2025	3/2/2025	2023-10-23-2023-10...	1,671.580000	1,216.580...	Weekly Pay
2	PB-000000007	Payment File Released	Launch	3/5/2023	3/5/2023	2022-03-14-2022-03...	21,346.140000	23,480.76...	Fortnightly Pay

- Starting within a Pay Batch where the Status is Calculated, go to the **Finalise** navigation icon (see Figure 4).
- Click on the **Finalise Pay Batch** button.

Figure 4

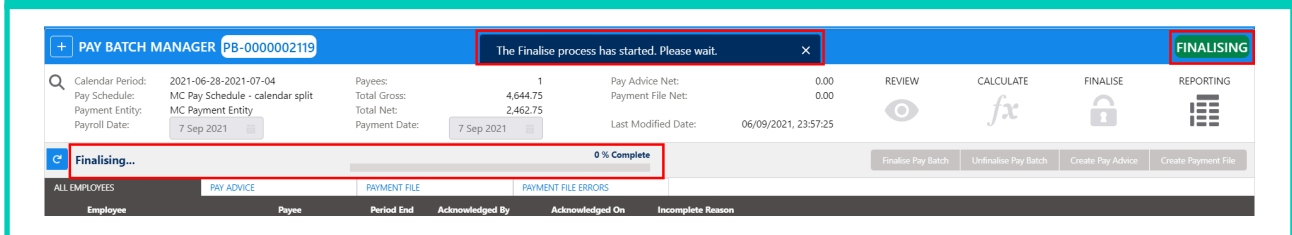

PAY BATCH MANAGER PB-000000219				CALCULATED	
Calendar Period:	2021-06-28-2021-07-04	Payees:	1	Pay Advice Net:	0.00
Pay Schedule:	MC Pay Schedule - calendar split	Total Gross:	4,644.75	Payment File Net:	0.00
Payment Entity:	MC Payment Entity	Total Net:	2,462.75	Last Modified Date:	07/09/2021, 00:01:08
Payroll Date:	7 Sep 2021	Payment Date:	7 Sep 2021		

Navigation icons: REVIEW, CALCULATE, **FINALISE** (padlock icon), REPORTING.

Buttons: **Finalise Pay Batch** (highlighted), Unfinalise Pay Batch, Create Pay Advice, Create Payment File.

- A pop-up message indicating that the Finalisation Process has commenced will be shown. The Pay Batch Status will be updated to Finalising, and a progress bar showing the progression of the Finalisation Process will be displayed (see Figure 5).

Figure 5

PAY BATCH MANAGER PB-000000219				FINALISING	
The Finalise process has started. Please wait.					
Calendar Period:	2021-06-28-2021-07-04	Payees:	1	Pay Advice Net:	0.00
Pay Schedule:	MC Pay Schedule - calendar split	Total Gross:	4,644.75	Payment File Net:	0.00
Payment Entity:	MC Payment Entity	Total Net:	2,462.75	Last Modified Date:	06/09/2021, 23:57:25
Payroll Date:	7 Sep 2021	Payment Date:	7 Sep 2021		

Navigation icons: REVIEW, CALCULATE, **FINALISE** (padlock icon), REPORTING.

Buttons: Finalise Pay Batch, Unfinalise Pay Batch, Create Pay Advice, Create Payment File.

Progress bar: **Finalising...** 0 % Complete

- Once the Finalisation Process is complete, the Pay Batch Status will be updated to one of the below:
 - If the Calculation Process is completed successfully, the Status of the Pay Batch will be updated to **Finalised**, therefore Users can now proceed to the next steps of creating Pay Advices.
 - If the Finalisation Process fails, it means that an error has been found with one or more associated records, and the Status of the Pay Batch will be updated to **Finalise Failed**. When this occurs, a Debug Log will be created to provide details of the error. The reason for the failure must be addressed before the Pay Batch can be Finalised.

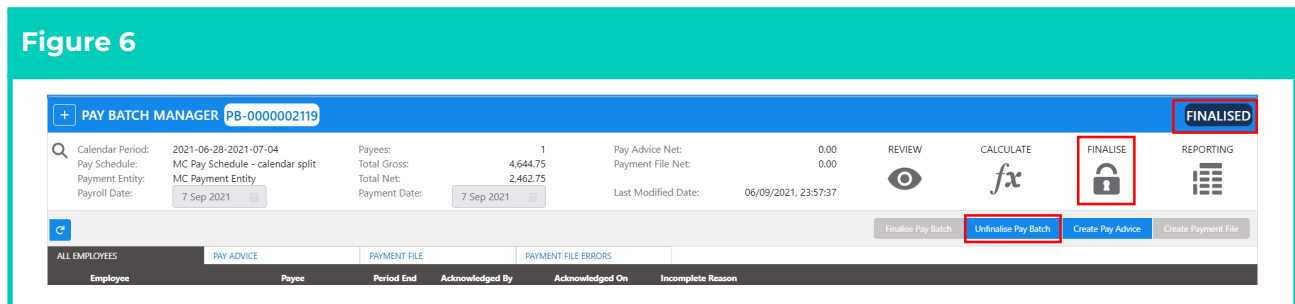

Unfinalise a Pay Batch (Optional)

Once a Pay Batch is Finalised, you cannot make any changes to the associated Pay Transactions and other related records to the Pay Batch. However, if you need to go back and make some changes, you can roll back the Status of the Pay Batch to be Calculated, so any changes can be made as required. You can Unfinalise a Pay Batch only until the Payment File is released.

A Pay Batch must have a Status of Finalised before it can be Unfinalised. To Unfinalise a Pay Batch, the following steps should be completed:

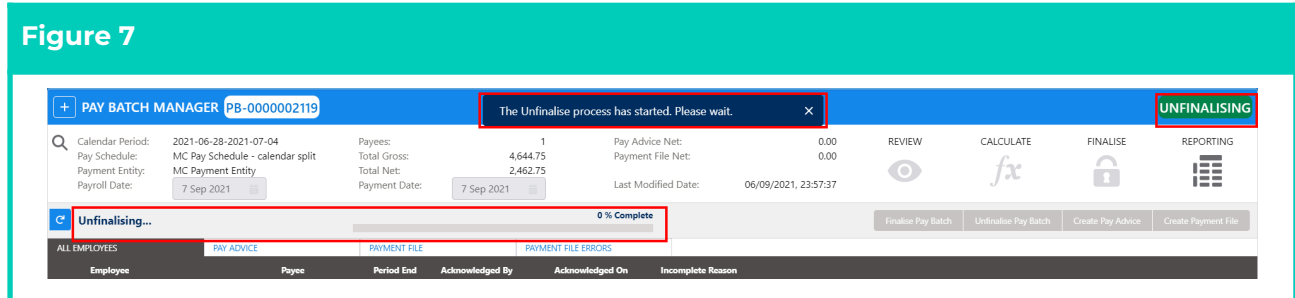

1. For a Pay Batch with a Status of Finalised, go to the **Finalise** navigation icon (see Figure 6).
2. Click on the **Unfinalise Pay Batch** button.

Figure 6

3. A pop-up message indicating that the Unfinalisation Process has commenced will be shown. The Pay Batch Status will be updated to Unfinalising and a progress bar showing the progression of the Unfinalisation Process will be displayed (see Figure 7).

Figure 7

4. Once the Unfinalise Process is complete, the Payee Pay Batch Status will be updated to either Calculated or Unfinalise Failed based on the successful completion of the process:
 - a. If the Unfinalise Process is completed successfully, the Status of the Pay Batch will be updated to Calculated, which means any changes can now be made as required.
 - b. If the Unfinalise process fails, it means there is an error found with one or more of the associated records. The Status of the Pay Batch will be updated to Unfinalise Failed. When this occurs, a Debug Log will provide details of the error. The reason for the failure must be addressed before the Pay Batch can be Unfinalised.

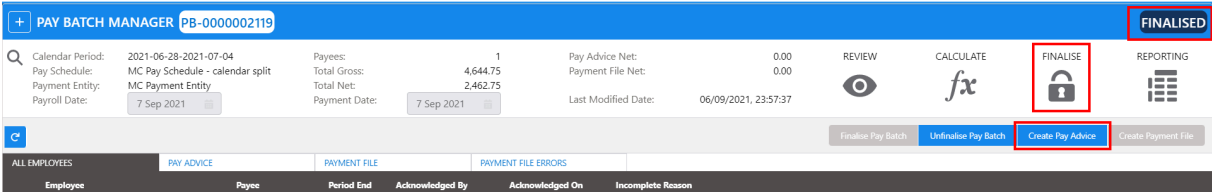

On clicking the Unfinalise Pay Batch button, all the Payee Aggregate records are deleted ready for new ones to be created when the Pay Batch is eventually Finalised.

Create Pay Advices

Once a Pay Batch is Finalised, the next stage is to create Pay Advices. To create Pay Advices, the following steps should be completed:

1. From within a Pay Batch with a Status of Finalised, go to the **Finalise** navigation icon (see Figure 8).
2. Click on the **Create Pay Advice** button.

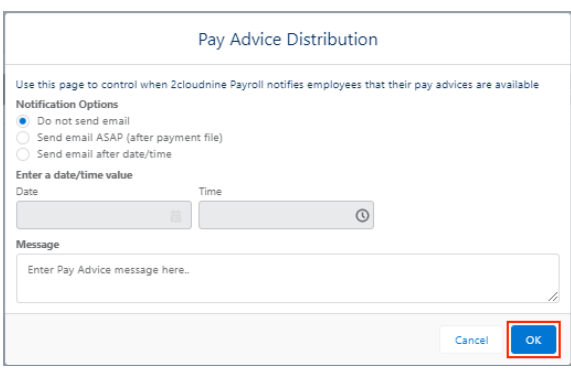

Figure 8

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'FINALISED'. The interface includes fields for Calendar Period, Pay Schedule, Payment Entity, Payroll Date, Payees, Total Gross, Total Net, Payment Date, Pay Advice Net, Payment File Net, and Last Modified Date. At the bottom, there are buttons for 'Finalise Pay Batch', 'Unfinalise Pay Batch', 'Create Pay Advice' (highlighted with a red box), and 'Create Payment File'.

3. The Pay Advice Distribution pop-up page will be displayed (see Figure 9).
4. Select the Distribution Option to be applied:
 - a. **Do not send email:** The Pay Advices are not emailed to any of the Payees.
 - b. **Send email ASAP:** The Pay Advice emails are sent in a Scheduled Job after the Pay Batch has a status of Payment File Released.
 - c. **Send email after date/time:** Enables entry of specific date and time for Pay Advice emails to be distributed, via a Scheduled Job after the Pay Batch has a status of Payment File Released.

Figure 9

The screenshot shows the 'Pay Advice Distribution' pop-up page. It includes a section for 'Notification Options' with three radio buttons: 'Do not send email' (selected), 'Send email ASAP (after payment file)', and 'Send email after date/time'. Below this is a section for 'Enter a date/time value' with 'Date' and 'Time' input fields. There is also a 'Message' field with the placeholder text 'Enter Pay Advice message here..'. At the bottom right, there are 'Cancel' and 'OK' buttons, with the 'OK' button highlighted by a red box.

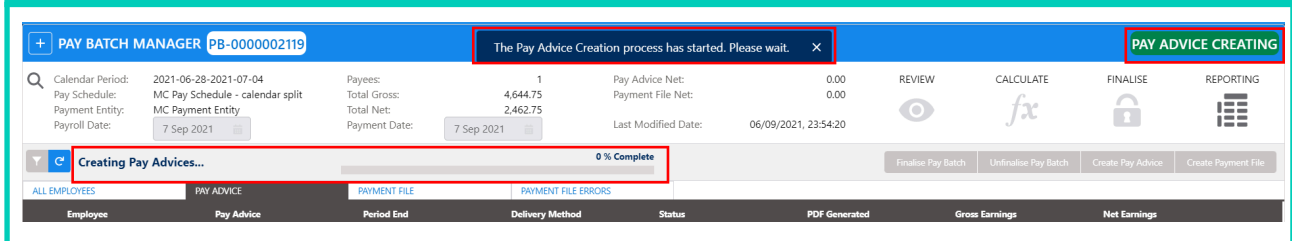

5. If required, populate a customised **Message** to be displayed on all the **Pay Advices** created for the Pay Batch. Payment Entity, Pay Advice Template, and Payee level messages will also still apply (see Figure 9).
6. Click on the **OK** button.

If the Pay Advice Message field is populated on multiple records, the Pay Advice PDF will merge all of them to display only up to a maximum of 255 characters.

7. A pop-up message indicating that the Pay Advice Creation process has commenced will be shown. The Pay Batch Status will be updated to Pay Advice Creating, and a progress bar showing the progress of the Pay Advice creation will be displayed (see Figure 10).

Figure 10

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. A blue banner at the top contains a message: 'The Pay Advice Creation process has started. Please wait.' and a 'PAY ADVICE CREATING' status indicator. Below the banner, a summary table displays key metrics: Calendar Period (2021-06-28-2021-07-04), Payees (1), Pay Advice Net (0.00), and Total Gross (4,644.75). A progress bar labeled 'Creating Pay Advices...' shows '0 % Complete'. The interface includes tabs for 'ALL EMPLOYEES', 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. At the bottom, a table header lists columns: Employee, Pay Advice, Period End, Delivery Method, Status, PDF Generated, Gross Earnings, and Net Earnings.

8. Once the Pay Advice Creation process is complete, the Status of the Pay Batch will be updated to either Pay Advice Created or Pay Advice Failed based on the successful completion of the process:
 - a. If the Pay Advice Creation process is completed successfully, the Status of the Pay Batch will be updated to Pay Advice Created. A draft of the Pay Advice document(s) can now be viewed within Pay Batch Manager.
 - b. If the Pay Advice Creation fails, it means there is an error with one or more of the records associated with the Pay Batch, and the Status of the Pay Batch will be updated to Pay Advice Failed. The reason for the failure must be addressed before the Pay Advices can be created. If this occurs, a Debug Log will be created to provide details of the error.

Before creating Pay Advices, ensure that a Pay Advice Template is defined. This can be either an organisation-wide Default template, Payment Entity/Pay Schedule, or Payee specific. Also, ensure that the Pay Advice distribution method is defined against all Payees included within the Pay Batch.

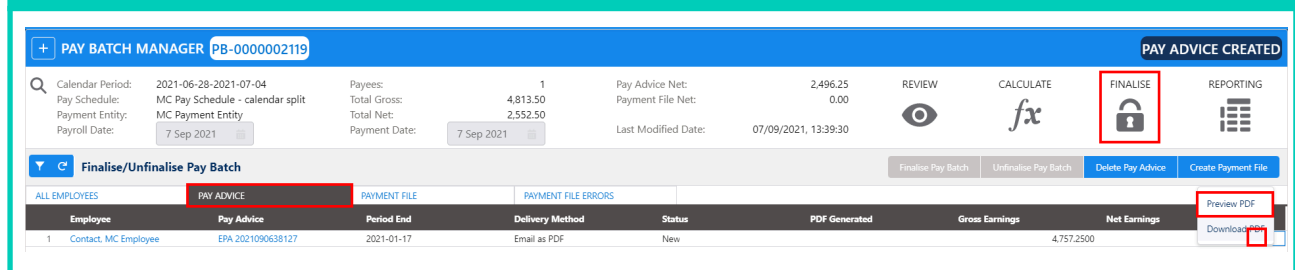

The Create Pay Advice process creates draft Pay Advice documents. The final version of the Pay Advice document, in PDF format, will not be created until the Pay Batch Status is updated to the Payment File Released. Once this occurs, the PDFs will be generated on the next scheduled job available.

Preview a Pay Advice

Once the Pay Advices are created, they can be previewed through the Detail View for the Payee Pay Batch. To preview a Pay Advice the following steps must be completed:

1. For a Pay Batch with a Status of Pay Advice Created, go to the **Finalise** navigation icon (see Figure 11)
2. From the **Pay Advice** tab, click the action dropdown button  at the end of the row for the **Pay Advice** to be previewed.
3. Select the **Preview PDF** option.

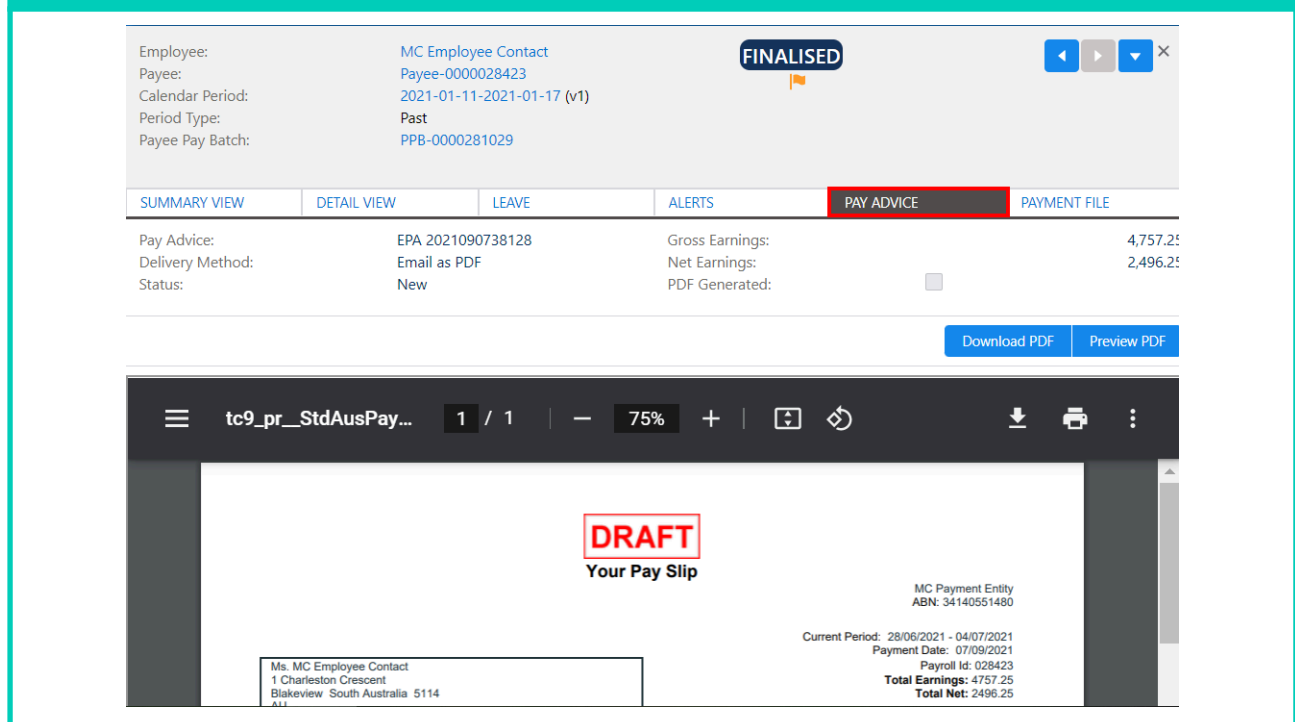

Figure 11

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-000002119. The status is 'PAY ADVICE CREATED'. The 'FINALISE' button is highlighted with a red box. Below the main header, there is a table with columns: Employee, Pay Advice, Period End, Delivery Method, Status, PDF Generated, Gross Earnings, and Net Earnings. The first row shows 'Contact, MC Employee' with Pay Advice 'EPA 201090638127' and Net Earnings of 4,757.2500. A 'Preview PDF' button is visible at the end of the row.

4. The Detail View for the corresponding Payee Pay Batch record will be opened with a preview of the Pay Advice displayed (see Figure 12).

Figure 12

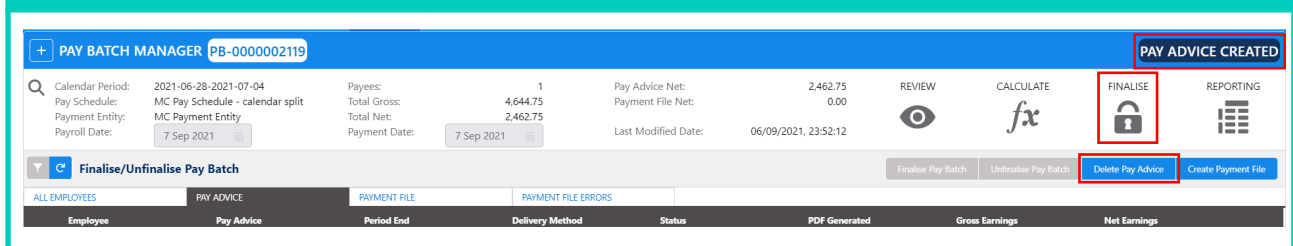

The screenshot shows the 'FINALISED' Pay Advice Detail View. The top section displays employee details: 'MC Employee Contact', 'Payee-0000028423', 'Calendar Period: 2021-01-11-2021-01-17 (v1)', 'Period Type: Past', and 'Payee Pay Batch: PPB-0000281029'. Below this is a tabbed interface with 'PAY ADVICE' selected. The 'PAY ADVICE' tab shows details: 'Pay Advice: EPA 2021090738128', 'Delivery Method: Email as PDF', 'Status: New', 'Gross Earnings: 4,757.25', 'Net Earnings: 2,496.25', and 'PDF Generated: [checkbox]'. At the bottom, there are 'Download PDF' and 'Preview PDF' buttons. The 'Preview PDF' button is highlighted with a red box. Below the buttons, a preview of the pay slip is shown. The pay slip header reads 'DRAFT Your Pay Slip'. The pay slip body includes the employee's name and address: 'Ms. MC Employee Contact, 1 Charleston Crescent, Blakeview South Australia 5114'. The pay slip footer includes the 'MC Payment Entity' details: 'ABN: 34140551480', 'Current Period: 28/06/2021 - 04/07/2021', 'Payment Date: 07/09/2021', 'Payroll Id: 028423', 'Total Earnings: 4757.25', and 'Total Net: 2496.25'.

Delete Pay Advice (Optional)

Once a Pay Batch has the Pay Advices created, it can not be rolled back to a status of Unfinalised without first deleting any Pay Advice records that have been created. To delete Pay Advices, the following steps should be completed:

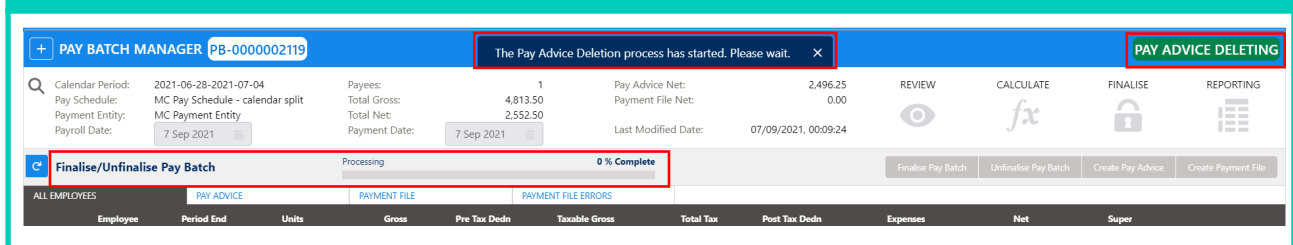

1. For a Pay Batch with a Status of Pay Advice Created, go to the **Finalise** navigation icon (see Figure 13).
2. Click on the **Delete Pay Advice** button.
A pop-up confirming you want to delete the Pay Advice will display.
3. Click on the **Delete** button.

Figure 13

4. A pop-up message indicating that the Pay Advice Deletion process has commenced will be shown. The Pay Batch Status will be updated to Pay Advice Deleting and a progress bar showing the progression of the Pay Advice Deletion process will be displayed (see Figure 14).

Figure 14

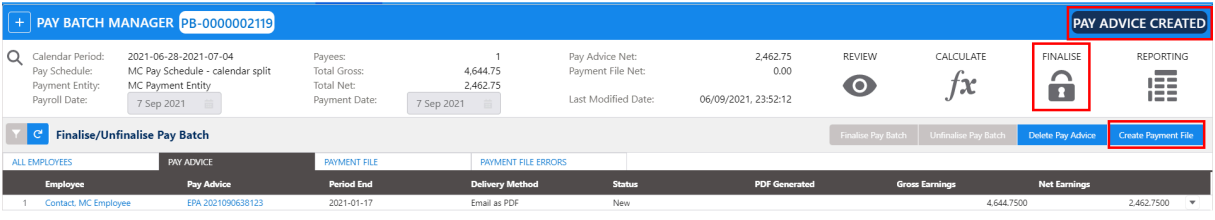

5. Once the Pay Advice Deletion Process is complete the Status of the Pay Batch will be updated to either Finalised or Pay Advice Delete Failed based on the successful completion of the process:
 - If the Pay Advice Deletion Process is completed successfully, the Status of the Pay Batch will be updated to Pay Advice Created, therefore the Pay Batch can now be rolled back to a status of Unfinalised so any changes required can be made.
 - If the Pay Advice Deletion process fails, it means that an error has been found with one or more of the records associated with the Pay Batch, and the Status of the Pay Batch will be updated to Pay Advice Delete Failed. If this occurs, a Debug Log will provide details of the error. The reason for the failure must be addressed before another attempt to delete the Pay Advices can be done.

Create a Payment File

Once a Pay Batch has had its Pay Advices Created, any required Payment File can be created. To create a Payment File, the following steps should be completed:

1. For a Pay Batch with a Status of Pay Advice Created, go to the **Finalise** navigation icon (see Figure 15).
2. Click on the **Create Payment File** button.

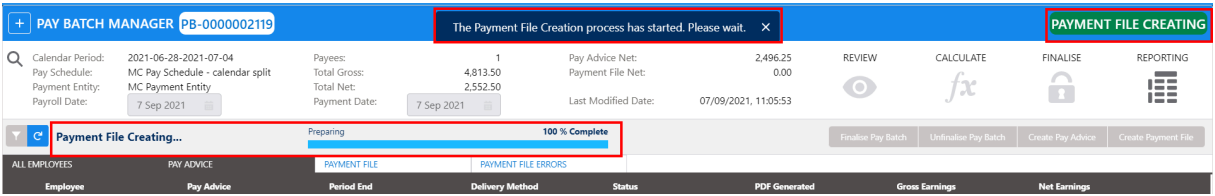

Figure 15

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'PAY ADVICE CREATED'. The 'Finalise/Unfinalise Pay Batch' section has tabs for 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. The 'Create Payment File' button is highlighted in red. Below the tabs is a table with columns: Employee, Pay Advice, Period End, Delivery Method, Status, PDF Generated, Gross Earnings, and Net Earnings. The table shows one employee, 'Contact, MC Employee', with a pay advice of 'EPA 2021090638123' and a status of 'New'.

3. A pop-up message indicating that the Payment File Creation process has commenced will be shown. The Pay Batch Status will be updated to Payment File Creating and a progress bar showing the progression of the Payment File Creation process will be displayed (see Figure 16)

Figure 16

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'PAYMENT FILE CREATING'. A pop-up message 'The Payment File Creation process has started. Please wait.' is displayed. The 'Payment File Creating...' section shows a progress bar at '100 % Complete'. The 'Finalise/Unfinalise Pay Batch' section has tabs for 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. The 'Create Payment File' button is highlighted in red. Below the tabs is a table with columns: Employee, Pay Advice, Period End, Delivery Method, Status, PDF Generated, Gross Earnings, and Net Earnings. The table shows one employee, 'Contact, MC Employee', with a pay advice of 'EPA 2021090638123' and a status of 'New'.

4. Once the Payment File Creation process is complete, the Status of the Pay Batch will be updated to either Payment File Created or Payment File Creation Failed based on the successful completion of the process:
 - If the Payment File Creation process is completed successfully, the Status of the Pay Batch will be updated to Payment File Created. Therefore the Payment File can now be submitted for approval (if required) and released.
 - If the Payment File Creation fails, there is an error with one or more records associated with the Pay Batch, and the Status of the Pay Batch will be updated to Payment File Failed. If this occurs, a Debug Log will provide details of the error. The reason for the failure must be addressed before the Payment File can be created.

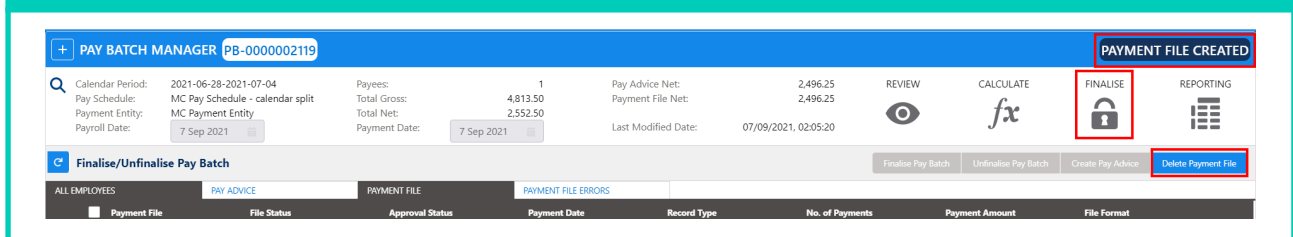

During Payment File Creation, if any Payees have incomplete Payment Details, the process will fail. The Payees with incomplete Payment Details will be identified under the Payment File Errors tab. The complete details for the listed Payees must be provided before the Payment File can be created.

Delete the Payment File (Optional)

Once a Pay Batch has had a Payment File Created, it can not be Unfinalised without first deleting any Payment Files and Pay Advice records that have been created. To delete Payment Files, the following steps should be completed:

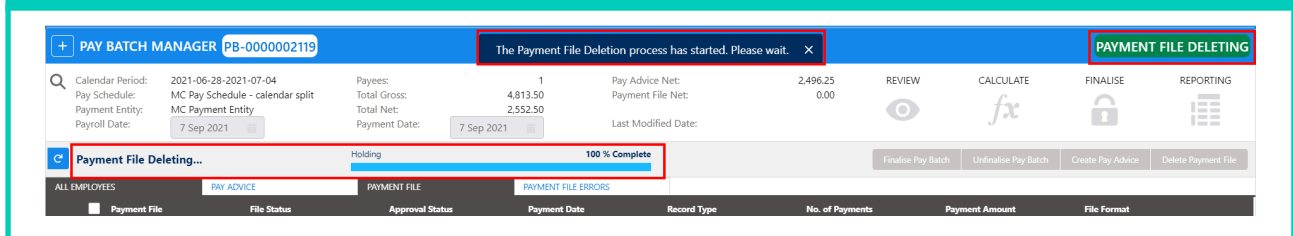

1. For a Pay Batch with a Status of Payment File Created, go to the **Finalise** navigation icon (see Figure 17).
2. Click on the **Delete Payment File** button.
A pop-up confirming you want to delete the Payment File will display.
3. Click on the **Delete** button.

Figure 17

4. A pop-up message indicating that the Payment File Deletion process has commenced will be shown. The Pay Batch Status will be updated to Payment File Deleting and a progress bar showing the progress of the Payment File Deletion process will be displayed (see Figure 18).

Figure 18

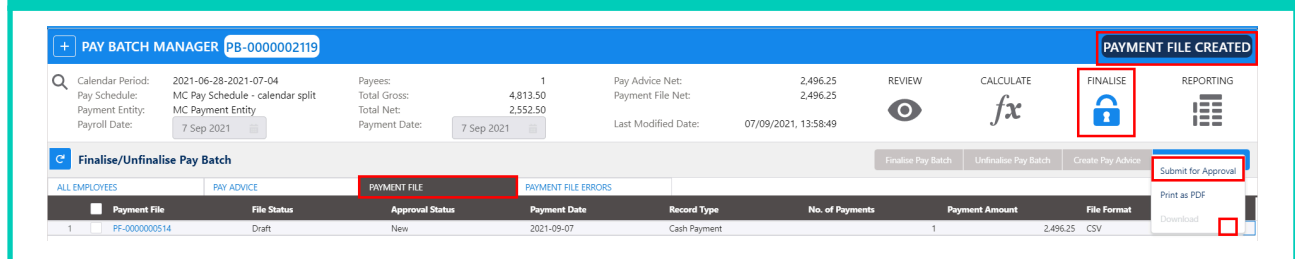

5. Once the Payment File Deletion process is complete, the Status of the Pay Batch will be updated to either Pay Advice Created or Payment File Delete Failed based on the successful completion of the process:
 - If the Payment File Deletion process is completed successfully, the Status of the Pay Batch will be updated to Pay Advice Created. The Pay Batch can now have Pay Advice records deleted so that it can be rolled back to a status of Unfinalised, and any changes required can be made.
 - If the Payment File Deletion fails, there is an error with one or more of the records associated with the Pay Batch, and the Status of the Pay Batch will be updated to Payment File Delete Failed. If this occurs, a Debug Log will detail the error. The reason for the failure must be addressed before the Payment Files can be deleted.

Payment File Approval (Optional)

Once the Payment File is created, if Payment File Approval is required, the approval process needs to be completed before the next stage can be completed. To receive Payment File Approval the following steps must be completed:

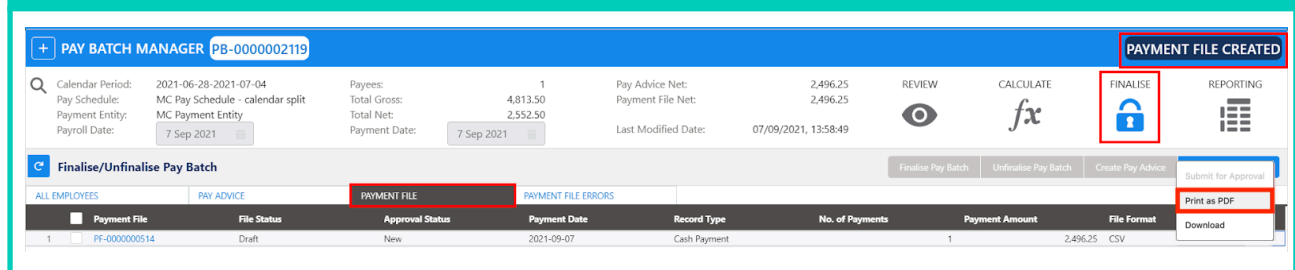

1. For a Pay Batch with a Status of Payment File Created, go to the **Finalise** navigation icon (see Figure 19).
2. From the **Payment File** tab, click the action dropdown button  at the end of the row for the **Payment File** requiring approval.
3. Select the **Submit for Approval** option.

Figure 19

4. An email will be sent to the Authorised Approver(s). The processing of the Pay Batch can not proceed until the required approval is actioned. Once approval is received, the Payment File can be downloaded and released.
5. To download the Payment File in PDF format, click on the **Print as PDF** button, as shown in the screenshot below, which downloads and saves the file (see Figure 20).

Figure 20

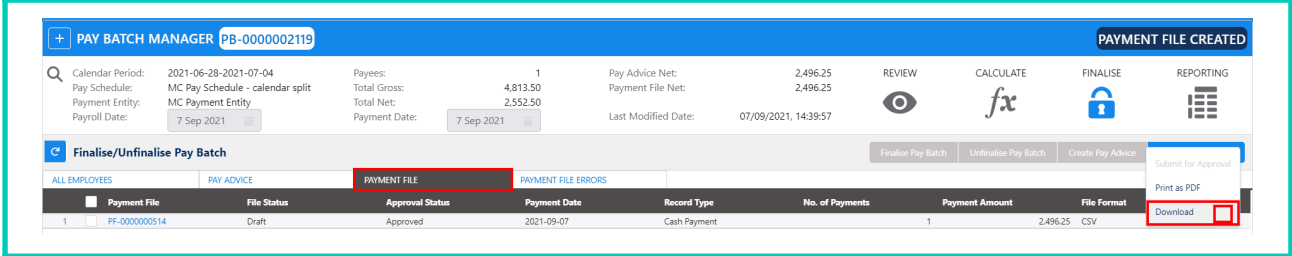

Download/Release Payment File

Once the Payment File approval is received, or if Approval is not required, the aba file can be downloaded which updates the status to Payment File Released.

To download a Payment File, the following steps must be completed:

1. For a Pay Batch with a Status of Payment File Created, go to the **Finalise** navigation icon (see Figure 21).
2. From the **Payment File** tab, click the action dropdown button  at the end of the row for the **Payment File** you wish to download.
3. Select the **Download** option.

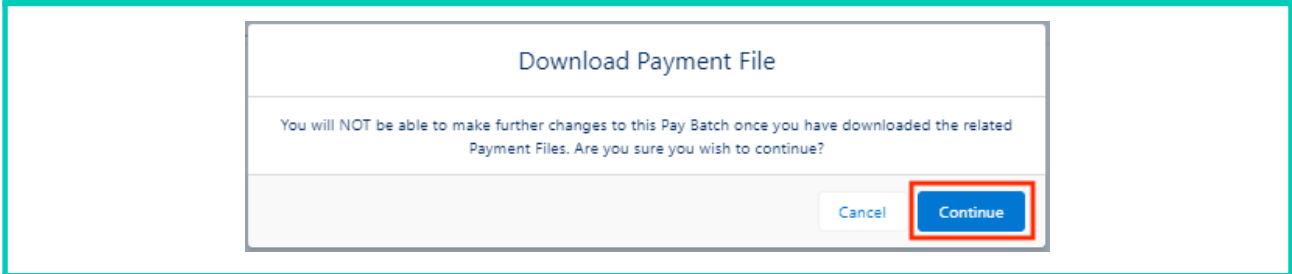

Figure 21

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'PAYMENT FILE CREATED'. The interface includes tabs for 'ALL EMPLOYEES', 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. The 'PAYMENT FILE' tab is active, showing a table with one entry: 'PF-0000000514' with a status of 'Draft' and 'Approved'. The 'Download' button is highlighted in the bottom right corner.

4. A pop-up window confirming you want to download the Payment File will display (see Figure 22).
5. Click on the **Continue** button.

Figure 22

The screenshot shows a 'Download Payment File' pop-up window. The text inside reads: 'You will NOT be able to make further changes to this Pay Batch once you have downloaded the related Payment Files. Are you sure you wish to continue?'. There are two buttons: 'Cancel' and 'Continue'. The 'Continue' button is highlighted with a red box.

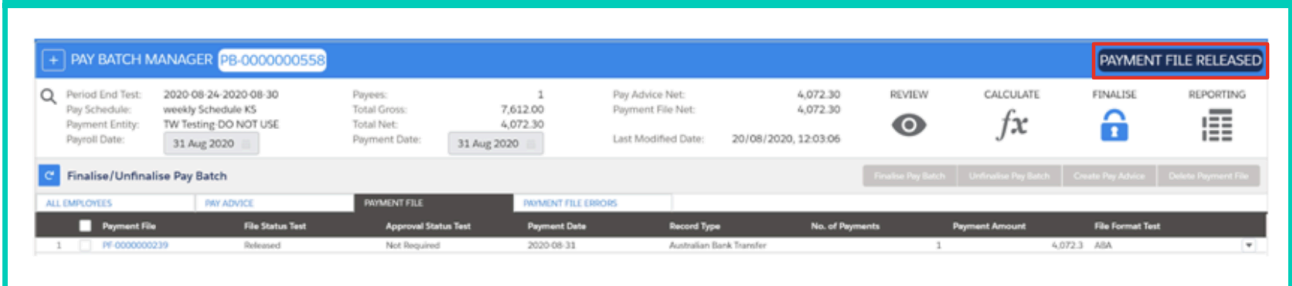

6. The Status of the Payment File is updated to Released. Once all related Payment Files to a Pay Batch have a Status of Released, the Status of the Pay Batch is updated to Payment File Released (see Figure 23).

The Payment File will download to your computer (shown at the bottom of your screen or in your downloads folder). The file can be opened to review, moved to another folder if required, and is ready to upload to your online banking system.

This is the **POINT OF NO RETURN**, so once downloaded, you can never revert the Pay Batch to any previous statuses, and therefore can not make any amendments at all.

Figure 23

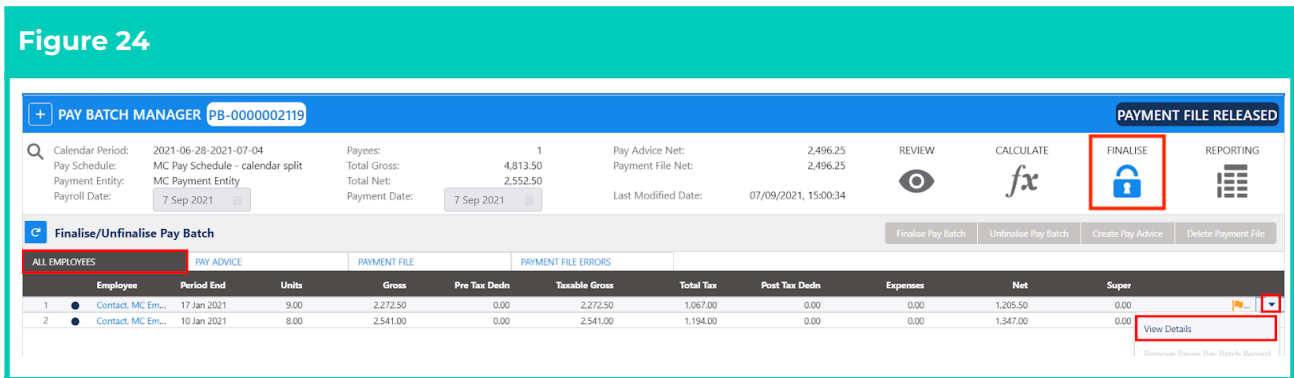

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000000558. The status is 'PAYMENT FILE RELEASED'. The interface includes tabs for 'ALL EMPLOYEES', 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. The 'PAYMENT FILE' tab is active, showing a table with one entry: 'PF-0000000239' with a status of 'Released' and 'Not Required'. The 'Delete Payment File' button is highlighted in the bottom right corner.

Review Payment File Released Pay Batch

Once the Payment File is released, the details of the Payment File in respect to an individual Payee Pay Batch can be viewed via the Detail View. To view the Payment File details for an individual Payee Payment File, the following steps must be completed:

1. For a Pay Batch with a Status of Payment File Released, go to the **Finalise** navigation icon (see Figure 24).
2. Click on the Filters icon and add the **Employee**.
3. You can review the Pay Advice, Payment File, and Payment File Errors from different tabs as required.
4. To review individual Payee Pay Batch, from the **All Employees** tab, click the action dropdown button  at the end of the row for the **Payee** to be reviewed.
5. Select the **View Details** option.

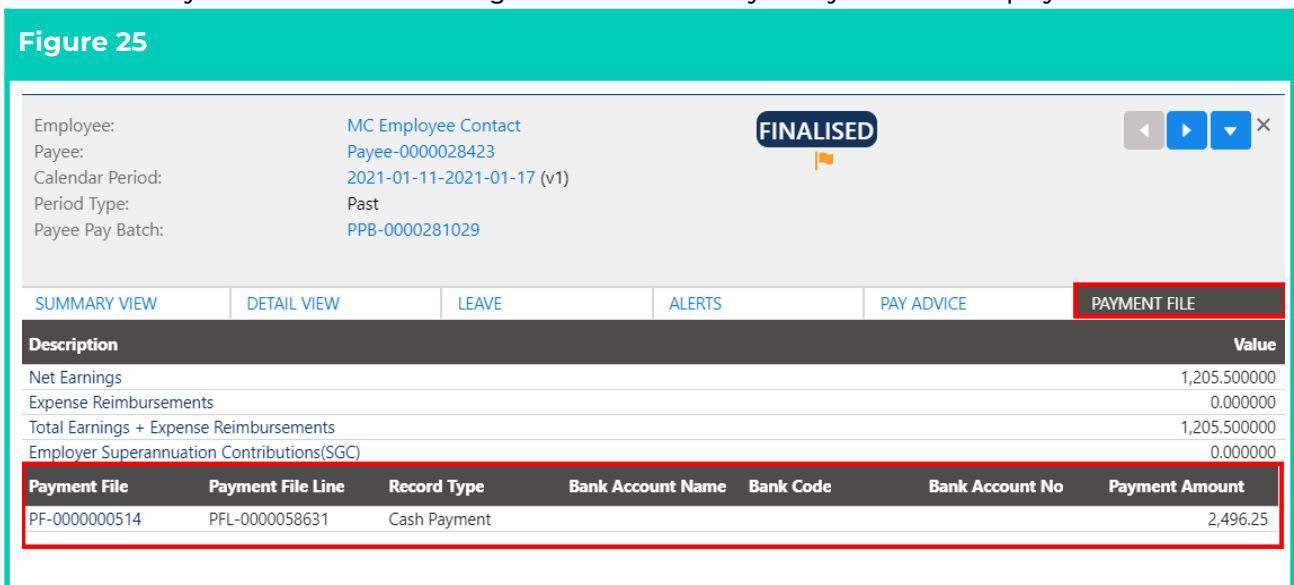

Figure 24

The screenshot shows the 'PAY BATCH MANAGER' interface for batch PB-0000002119. The status is 'PAYMENT FILE RELEASED'. The 'FINALISE' button is highlighted with a red box. Below the status bar, there are tabs for 'ALL EMPLOYEES', 'PAY ADVICE', 'PAYMENT FILE', and 'PAYMENT FILE ERRORS'. The 'ALL EMPLOYEES' tab is active, showing a table of employees. The first employee, 'Contact MC Em...', is highlighted, and a 'View Details' button is visible at the end of the row.

6. The Detail View for the corresponding Payee Pay Batch record will be opened (see Figure 25).
 7. Click the **Payment File** tab.
- The Payment File Details relating to the individual Payee Pay Batch are displayed.

Figure 25

The screenshot shows the 'FINALISED' status of the pay batch. The 'PAYMENT FILE' tab is highlighted with a red box. Below the status bar, there are tabs for 'SUMMARY VIEW', 'DETAIL VIEW', 'LEAVE', 'ALERTS', 'PAY ADVICE', and 'PAYMENT FILE'. The 'PAYMENT FILE' tab is active, showing a table of payment file details. The first row, 'PF-0000000514', is highlighted, and a 'View Details' button is visible at the end of the row.

Outside of the Pay Batch Manager, the details of the Payment File in respect to an individual Payee can also be viewed from the Payment File Line related list on the Payment File object.

Field Descriptions

Field Name	Description
Main UI	
Calculate (navigation icon)	click this navigation icon to view options related to calculating the Pay Batch and the Part Calculate or Calculate All buttons.
Calendar Period	is the date range applicable for this Pay Batch. The Pay Batch may also contain Payee Pay batches relating to earlier Pay Calendar Periods if it was created with the 'Include Earlier Periods' checkbox selected.
Create Pay Advice	click this button to view options related to Creating and Distributing Pay Advices.
Create Payment File	click this button to create the Payment File.
Delete Pay Advice	is used to Delete the Pay Advice if there is a need to roll back the Pay Batch to a previous status.
Delete Payment File	is used to Delete the Payment File if there is a need to roll back the Pay Batch to a previous status.
Download PDF	is used to download the individual Pay Advice PDF file.
Finalise (navigation icon)	click this navigation icon to view and action various options related to finalising the Pay Batch.
Finalise Pay Batch	is clicked when the users want to Finalise the Pay Batch.
Pay Advice Net	is the total net amount of related Pay Advices.
Pay Schedule	defines the Pay Schedule of the Pay Batch.
Payees	is the count of unique Payees from related Payee Pay Batch records.
Payment Date	defines the Payment Date on the Payment File. This can be in the future, but it can not be in the past.
Payment Entity	is the Payment Entity that this Pay Batch is associated with.
Payment File Net	is the total net amount of the related Payment File.
Payroll Date	is the date that a Pay Batch will be finalised. This date can be in the future, but can not be a historic date
Preview PDF	is clicked when Users want to preview a Draft Pay Advices PDF.
Print as PDF	is clicked when Users want to download the Pay Advices PDF for printing.
Reporting (navigation icon)	click this navigation icon to generate a Variation Report for this Pay Batch to compare it to another Pay Batch.
Review (navigation icon)	click this navigation icon to view options related to reviewing the Pay Batch.
Submit for Approval	is an optional button that is used to request approval of the Pay Batch to proceed to Payment File Released. This option is available only when it is pre-configured.
Total Gross	is the total gross earnings from all related Payee Pay Batch records.
Total Net	is the total net earnings from all related Payee Pay Batch records.
Unfinalise Pay Batch	is used to roll back the status of a Pay Batch to Calculated, so that further changes can be made to the Pay Batch or individual Payee Pay Batches.
