

Purpose

The purpose of this quick reference guide is to step through the process of Reviewing a Pay Batch within Pay Batch Manager. The intended audience for this document is Standard Payroll Users.

The Review button is selected by default when a new Pay Batch is created or an existing Pay Batch is opened. The functions available under the Review button provide Users with all options required to manage the Pay Batch and individual Payee Pay Batches.

Some examples include adding and removing Pay Transactions in the Payee Pay Batches, Bulk adding and removing Payee Pay Batches, and deleting the entire or individual Payee Pay Batches.

Users can review the Payee Pay Batches via different views like the default table view for a summary level review, individual Detail View, and the Adjustments screen for detailed reviews and making changes.

Steps

To Review a Pay Batch, Users may need to complete one or more of the following steps depending on what your requirements are:

1. Review Payee Pay Batch within the Pay Batch Manager
2. Review the Detail View for Individual Payee Pay Batches (and Remove Pay Transactions or Payee Pay Batch Records)
3. Use the Bulk Add Functionality
4. Use the Bulk Remove Functionality
5. Make Manual Adjustments
6. Delete a Pay Batch

Review Payee Pay Batch within the Pay Batch Manager

To open a Pay Batch for review, follow the steps below. Please skip to step 4, if you already have the Pay Batch Manager UI open on your screen:

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

2. Go to the **Pay Batches** object by using the Search function (see Figure 2).

Figure 2

- From the List View, select the Pay Batch you want to review and click the **Launch** button (see Figure 3).

Figure 3

- Once the Pay Batch Manager opens, you will notice that there will be one Payee Pay Batch created per Payee / Calendar Period combination. Each will be reflected as a row within the records table that provides a high-level summary of the Payee Pay Batch totals. Each vertical column displays the total for the relevant type of Pay Transaction, split across each Payee Pay Batch (see Figure 4).

When a new Pay Batch is created, by default it will automatically open at this screen of the Pay Batch Manager. There would be no need to go back to the list view of all Pay Batches.

Payee Pay Batch records will only be displayed on the All Employees and Uncalculated Quick Filter Tabs until that Pay Batch has a Status of Calculated. Once Calculated, the Payee Pay Batches will appear on other Quick Filter Tabs as appropriate.

If there are filters applied to the view of Payee Pay Batches preventing some from displaying here, this will not prevent the processing of them through the various stages of the Pay Batch.

Review the Detail View for Individual Payee Pay Batches (and Remove Pay Transactions or Payee Pay Batch Records)

To view detailed information relating to each Payee Pay Batch Record, the following steps should be completed:

1. While still navigating through the **Review** navigation icon, click the action dropdown button at the end of the row for the **Payee Pay Batch** record to be viewed (see Figure 5).
2. Select the **View Details** option.

Figure 5

The screenshot shows the 'PAY BATCH MANAGER' interface for pay batch PB-0000000110. It displays a table of pay batches with columns for Employee, Period End, Units, Gross, Pre Tax Dedn, Taxable Gross, Total Tax, Post Tax Dedn, Expenses, Net, and Super. The first two rows are highlighted. The 'View Details' option is selected in the action dropdown menu for the first row.

3. Upon selecting the View Details option, the Payee Pay Batch Summary View will be displayed within the Pay Batch Manager (see Figure 6).

Figure 6

The screenshot shows the 'SUMMARY VIEW' of the Payee Pay Batch for Angela Froude. It displays a table with columns for Description and Value. The table includes various financial details such as Units, Gross, Lump Sums, ETPs, Non Taxable Payments & Allowances, Taxable Payments & Allowances, Pre Tax Deductions, Taxable Gross, Tax Withheld, GST, Post Tax Deductions, Net Earnings, Expenses, Net Earnings + Expenses, Ordinary Time Earnings, and Employer Superannuation Contributions.

Description	Value
Units	26.000000
Gross	650.000000
Lump Sums	0.000000
ETPs	0.000000
Non Taxable Payments & Allowances	0.000000
Taxable Payments & Allowances	650.000000
Pre Tax Deductions	0.000000
Taxable Gross	650.000000
Tax Withheld	305.000000
GST	0.000000
Post Tax Deductions	0.000000
Net Earnings	345.000000
Expenses	0.000000
Net Earnings + Expenses	345.000000
Ordinary Time Earnings	650.000000
Employer Superannuation Contributions	74.750000

As with the Summary View, while the Payee Pay Batch has a Status of Uncalculated, only the records related to the Units and Gross values are displayed. Once the Payee Pay Batch is Calculated additional details/records will be provided.

- Clicking on the **Detail View** tab allows Users to drill down to individual records that attribute to the totals reflected (see Figure 7)

Use the Detail View Remove Pay Transactions and Remove Payee Pay Batch Record Functionality

To remove Pay Transactions from a Pay Batch, the following steps should be completed:

- From the **Detail View** for an individual **Payee Pay Batch** record, use the checkboxes available to select the **Pay Transaction(s)** that need to be removed (see Figure 8).
- Click on the action button at the top right of the view.
- Select the **Remove Selected Pay Transactions** option.

Some Pay Transactions can not be removed from a Pay Batch, for example, Withholding Pay Transactions added during Pay Batch Calculation. If the Pay Transaction can not be removed, a checkbox will not be available for selection.

When a Payee Pay Batch record is Removed from a Pay Batch, all the source records related to that Payee Pay Batch are reset ready for inclusion within another Pay Batch.

The ability to remove, add, or edit Pay Transactions within a Pay Batch is only possible until the Pay Batch has a Status of Finalised. After that stage, any changes will require the Pay Batch to be Unfinalised and rolled back to the Status of Calculated to perform these actions.

Use the Bulk Add Functionality

To Bulk Add Transactions to a Pay Batch, the following steps should be completed:

- From the **Review** navigation icon, click on the **Bulk Add** button (see Figure 10). The Bulk Add screen will be displayed.

- From the **Bulk Add** screen, select the checkboxes of records to be added (see Figure 11). You can select:
 - Individual records to add by selecting individually
 - All records for a Payee by selecting the Payee

- All records for a Calendar Period related to Payee by selecting the Calendar Period
 - All the records within the list by checking the Select All checkbox in the table header
3. Click on **Add Selected** to add the records (see Figure 11).

Figure 11

Use the Bulk Remove Functionality

To Bulk Remove Payee Pay Batch records from a Pay Batch, the following steps should be completed:

1. From the **Review** navigation icon, select the checkboxes on the left-hand side of the records to be removed (see Figure 12)
2. Click on the **Bulk Remove** button.

Figure 12

3. A pop-up message will appear saying 'Are you sure you want to delete the selected Payee Pay Batch?' (see Figure 13).
4. Click on the **Delete** button.

Make Manual Adjustments

To review or make Manual Adjustments, the following steps should be completed:

1. From the **All Employee, Uncalculated, Calculate Failed, or Calculated** tab, click the action button

at the end of the row for the **Payee Pay Batch** record that requires adjustment.

2. Select the **Adjustments** option (see Figure 14)

The Manual Adjustments screen will be displayed.

Figure 14

If additional Pay Transactions are to be added to the Pay Batch, for example, from Timesheets, the Bulk Add functionality should be used to add it to the Pay Batch. Where an existing record does not exist, the Manual Adjustments functionality should be used to create and add the new Pay Transaction(s) as required.

3. From the **Manual Adjustments screen**, new **Adjustment Transactions** can be created and/or existing **Pay Transactions** can be edited/deleted (see Figure 15). The tabs can be used to quickly view specific types of records included and the manual Adjustment Options available.

Figure 15

4. Where the Adjustment is for an existing record:
 - a. Click the  button against the record to be adjusted
The Add Adjustment Transaction screen will be displayed where the required details can be entered
 - b. Once the required fields are populated, click the Save button
An Adjustment Transactions, with the Adjustment field automatically set to True, will be created. The initial record for which the adjustment was added will remain unchanged.
5. To delete existing Pay Transactions:
 - a. Click the  against the record to be deleted
A pop-up with an 'Are you sure you wish to delete this Pay Transaction?' will be displayed
 - b. Click the Delete button.

To edit an existing pay Transaction:

- c. Click the  button against the record to be edited
The existing record will be opened
- d. Once the required changes are made, click the Save button
The initial record from which the edit button was clicked will be updated. No Adjustment Transactions will be created

Not all Pay Transactions can be edited and/or deleted. If the record can not be edited/deleted the corresponding edit / delete buttons will not be displayed.

AutoPay / Remuneration-based Employees can only have Payment Pay Transactions that are flagged as Adjustment Transactions edited and deleted. Timesheet-based Employees can have all Payment and Timesheet Allowance Pay Transactions edited/deleted.

Only Pay Transactions that are flagged as Adjustment Transactions can be edited and Removed for Payee Allowances (except Timesheet Allowances), Deductions, Withholding and Leave.

6. If an existing **Pay Transaction** does not exist to create an Adjustment Transaction against:
 - a. Click on the Tab that corresponds to the **Adjustment Type** to be added (see Figure 16)
 - b. Click on the **Add Adjustments** button. The Add Adjustments button is only available where there are no existing Pay Transactions to be adjusted. If the tab shows existing Pay Transactions, the adjustments should be made against those records.

Review a Pay Batch

Delete A Pay Batch

If at any point before the Finalisation of the Pay Batch, the Pay Batch is identified as not required, or it would be easier to start the Review and Calculation again, the Pay Batch can be Deleted. To do this, the following steps should be completed:

1. Go to the **Review** navigation icon (see Figure 17)
2. Click on the **Delete Pay Batch** button
The Pay Batch Deletion Process will commence
3. When the Pay Batch Deletion is completed, a message reflecting this will be displayed

Figure 17

When a Pay Batch record is Deleted, all the source records that were created outside of the Pay Batch are reset, ready for inclusion within another Pay Batch. System-generated records created within the Pay Batch (i.e. Withholding Pay Transactions) will be deleted, however, Manual Adjustments created via the Adjustments screen will not be deleted.
