

Clone a Public Holiday Calendar

Purpose

The purpose of this quick reference guide is to step through the process of cloning Public Holiday Calendars & Calendar Periods. The intended audience for this document is System Administrators.

This process makes it easier to clone existing Public Holiday Calendars as a basis for regional Public Holidays, saving time without the need to manually create or data load them.

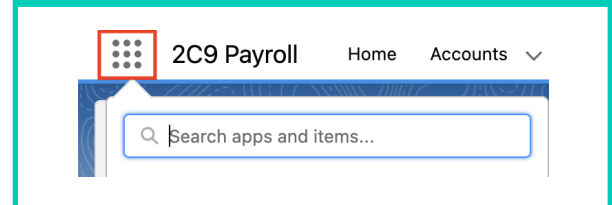

Steps

Clone an existing Public Holiday Calendar

To clone an existing Public Holiday Calendar record, follow the steps below:

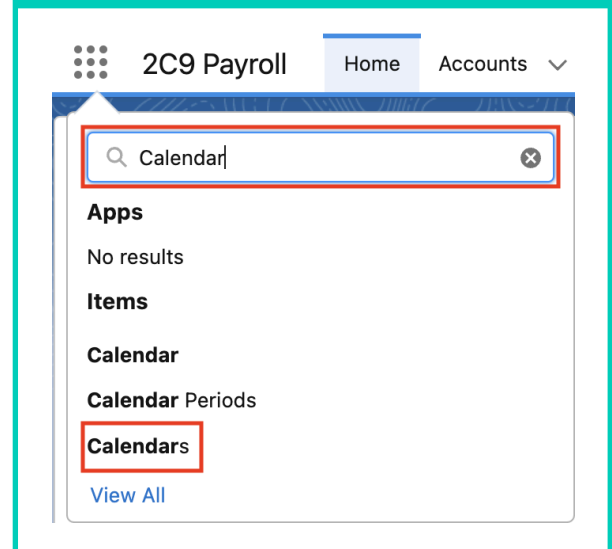

1. Click on the **App Launcher** icon (see Figure 1).

Figure 1

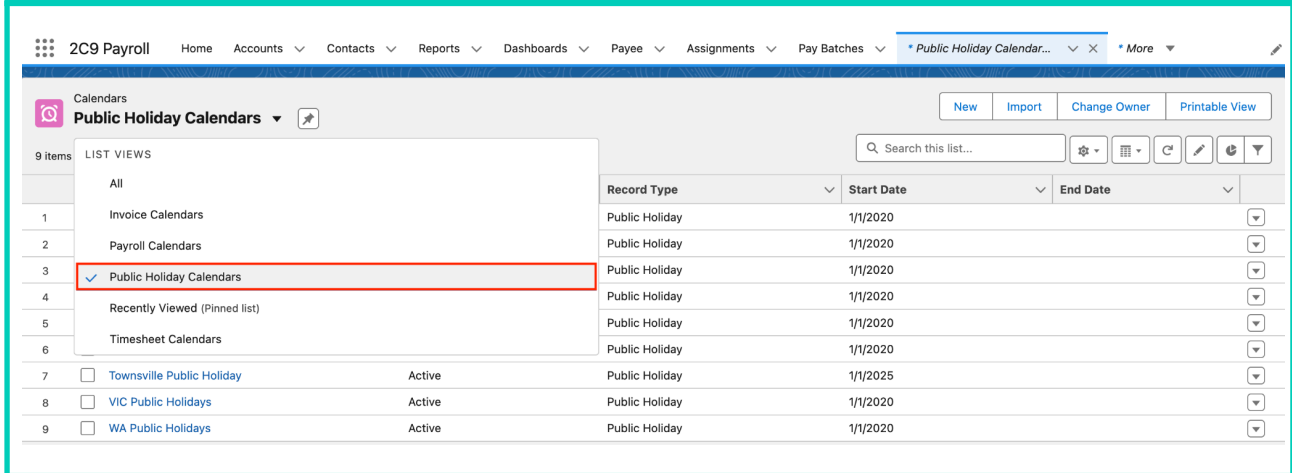

2. Go to the **Calendars** object by using the Search function (see Figure 2).

Figure 2

- To view the available Public Holiday Calendars, select the **Public Holiday Calendars** List View (see Figure 3).

Figure 3

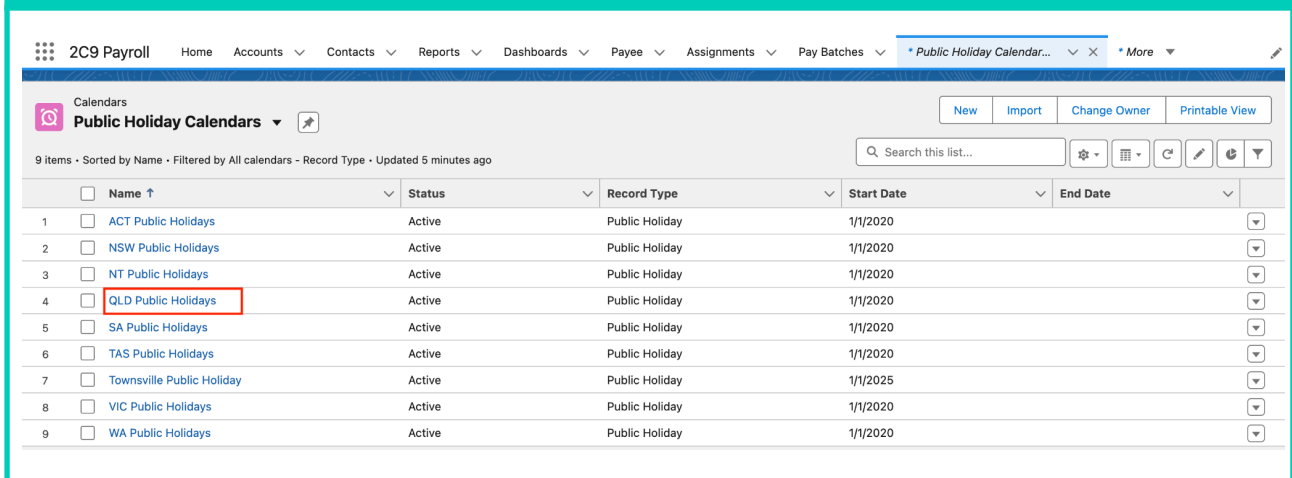

The screenshot shows the 2C9 Payroll interface with the 'Public Holiday Calendars' list view selected. The left-hand menu shows 'Public Holiday Calendars' highlighted. The main table displays a list of public holiday calendars.

15. To modify an existing **Public Holiday Calendar** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing, or just click on the pencil icon  that appears within fields when you move your cursor over the field.
16. When complete, click on the **Save** button.

Public Holiday Calendar records **CANNOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

The Clone Public Holiday function will not include any values populated in the Start Time and End Time fields of the original Public Holiday Calendar Periods. Therefore, if you have cloned a Public Holiday with Part Day Public Holidays, you will need to manually update these fields on the newly created Public Holiday Calendar Periods as required.

Field Descriptions

Field Name	Description
End Date	is the last date in the validity range of this Calendar, but for the Calendar Period, it's the date the public holiday applies to it.
End Time	allows for a defined time to cease the application of public holiday treatment for that day, providing the ability to interpret part-day public holidays. This is applicable only for Timesheet Entries.
Exclude From Auto Update (checkbox)	when this box is checked, the record will be skipped by the Automatic Status Update scheduled job.
Name	is the name given to the Calendar record that is being created.
Start Date	is the first date in the validity range of this Calendar, but for the Calendar Period, it's the date the public holiday treatment applies.
Start Time	allows for a defined start time to commence the application public holiday treatment for that day, providing the ability to interpret part-day public holidays. This is applicable only for Timesheet Entries.
Status	is the current status of this record based on the Effective Date and Expiry Date.
