

Purpose

The purpose of this quick reference guide is to step through the process of reviewing the Reconciliation results, which is the next step after the creation of a Reconciliation record. The intended audience for this document are System Administrators and Payroll Users.

The review of Reconciliation History is performed to view Successful and Failed results of a Reconciliation and to manually investigate the Results Status and the Variances within them via the Reconciliation Item.

Steps

Review Reconciliation History (Results)

To review Reconciliation History (Results), the following steps should be completed:

1. Click on the **App Launcher** icon. (See Figure 1)
2. Go to the **Reconciliation Manager** App by using the Search function. (See Figure 2)

Figure 1

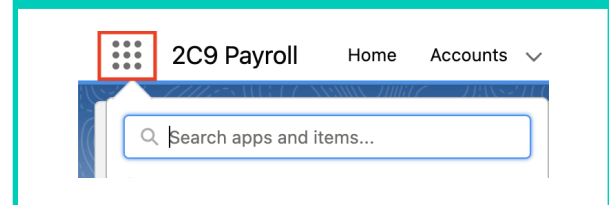

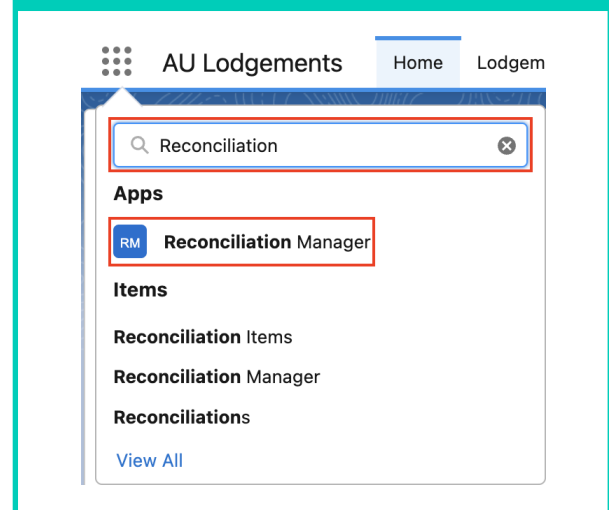

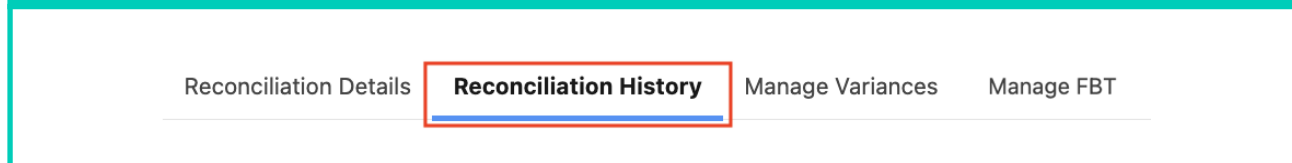

Figure 2

3. In the Reconciliation Manager App, ensure **Reconciliation History** sub-tab is selected to view Reconciliation Results. (See Figure 3)

Figure 3

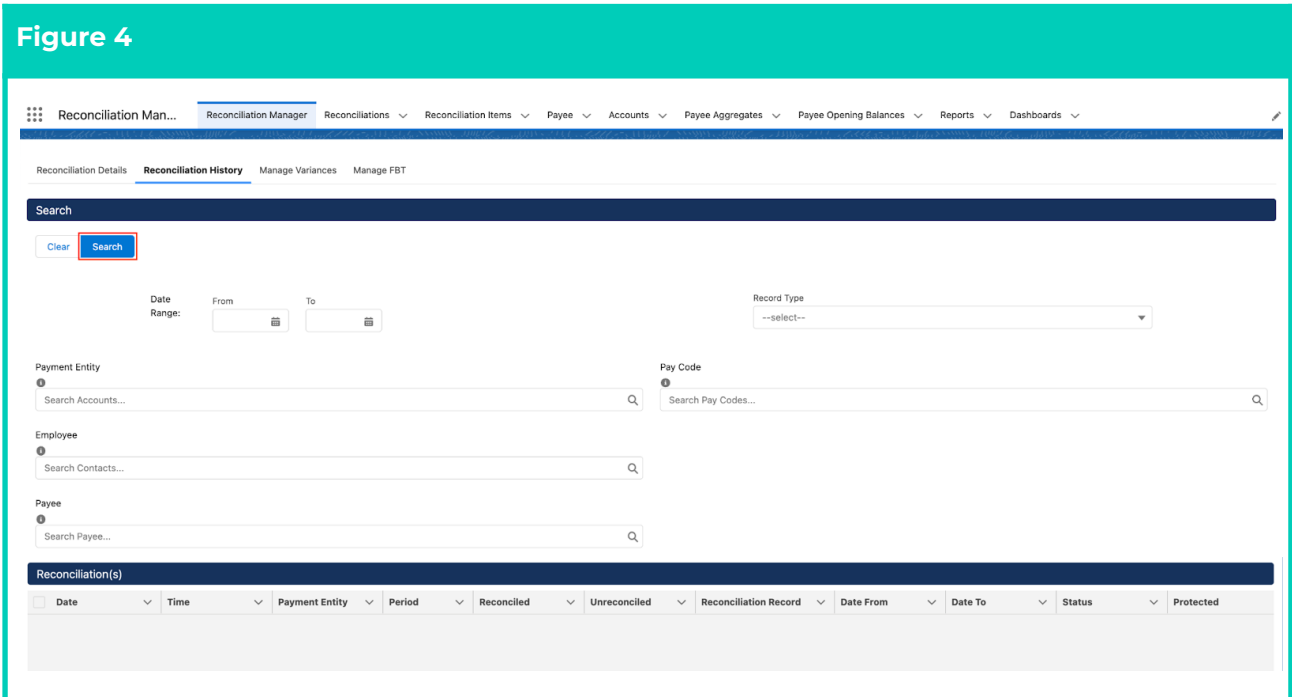

- To filter the Reconciliation Processes that will display, populate from the available fields of **Date Range From** and **To**, **Record Type**, **Payment Entity**, **Pay Code**, **Employee** and **Payee** as required. To search for all the Reconciliation Processes, you can leave the fields blank and skip to step 5.
- Click on the **Search** button. (See Figure 4)

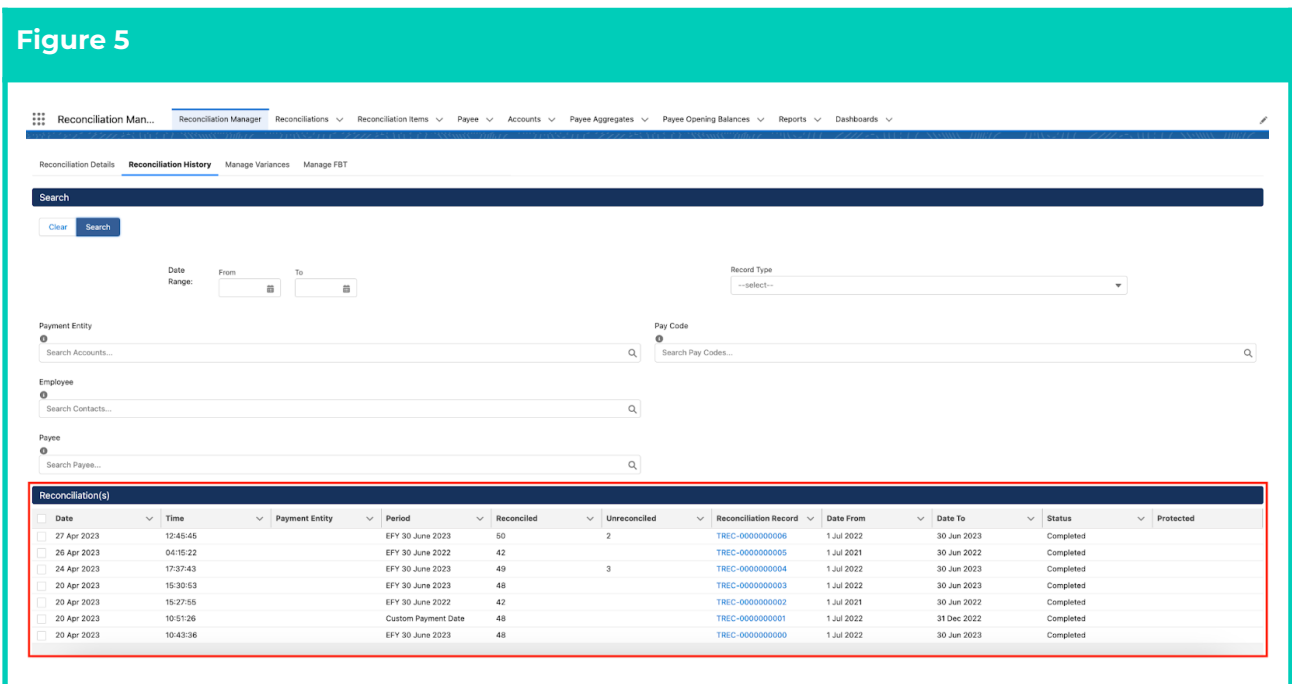

All of the filters above allow only one value in each field. Therefore, you can either search one item at a time or you can search all (if you skip the filter fields).

Figure 4

- A list of Reconciliations matching any filters used will appear in order of most recent at the top. (See Figure 5)

- Within the Reconciliation Items related list, click the **View All** button on the bottom of that section. (See Figure 8)

Figure 8

- On the Reconciliation Items Related List View, users can arrange the results in ascending order to view the failed results on top.

Figure 9

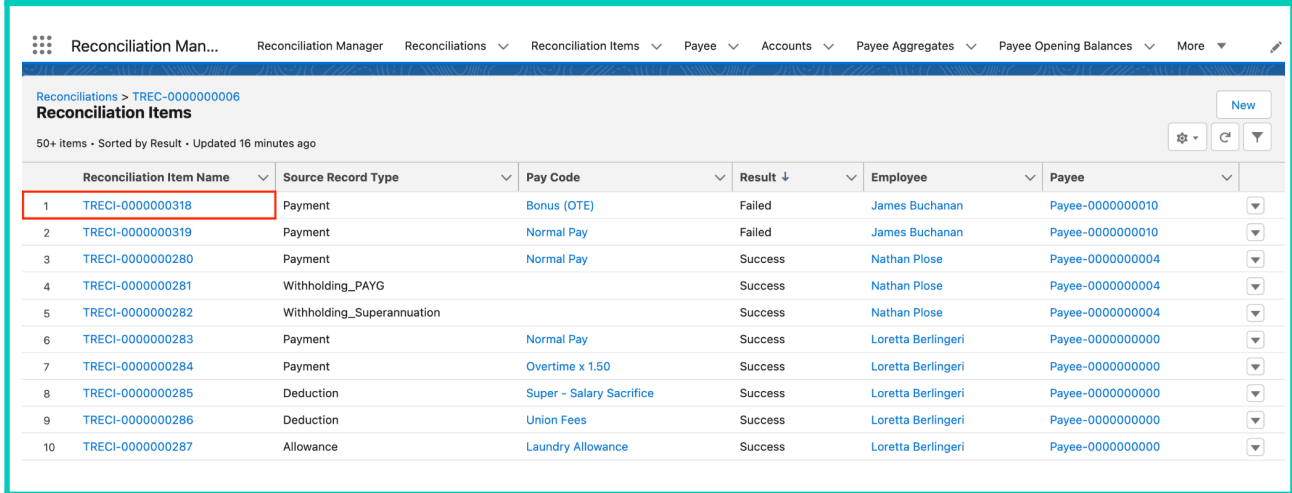

If the Reconciliation contains only success results, there is no need to proceed to the steps contained in the QRG Resolving Failed Reconciliation Results. The Manage Variance tab is only required to be accessed if there is a need to resolve failed Reconciliation Items.

A separate Reconciliation Item record is created for each unique Record Type and Pay Code combination.

- Click the Reconciliation Item Name **TRECI-xxxxxxx** to view in further detail the Reconciliation Item. (See Figure 10)

- A failed result occurs when the Opening Balance YTD plus the Pay Transactions YTD does not balance the amount in the Payee Aggregates YTD. The result of this equation will populate in the Variance field, so any value other than \$0.00 will be failed and require investigation before proceeding with year end processing.

The screenshot shows the 'Reconciliation Manager' interface with the 'Reconciliation Items' tab selected. The 'Pay Batch Information' section is expanded, and the 'Pay Batch' field is highlighted with a red box. The 'Pay Batch' field contains the value 'PB-0000000076'. Other fields visible include 'Payment Date' (24/4/2023), 'Date Time Finalised' (24/4/2023, 5:30 pm), 'Created By' (2cloudnine Admin, 27/4/2023, 12:45 pm), and 'Last Modified By' (2cloudnine Admin, 27/4/2023, 12:45 pm).

Delete Reconciliation History (Results)

To delete Reconciliation records and the associated Reconciliation Items, the following steps should be followed:

- Go to the list of Reconciliations within the Reconciliation History page and select the checkbox(es) of Reconciliations to be deleted.
- A **Delete** button will display.
- Select the **Delete** button to delete the selected Reconciliation(s) and the related Reconciliation Items. (See Figure 13)

Figure 13

The screenshot shows the 'Reconciliation(s)' table with a list of reconciliation records. The first record is selected, and the 'Delete' button is visible. The table has columns for Date, Time, Payment Entity, Period, Reconciled, Unreconciled, Reconciliation R..., Date From, Date To, Status, and Protected.

The 'Reconciliation Results' section shows a donut chart with a record count of 52 (Success) and 51 (Failed). The 'Detailed Reconciliation Report' section shows a list of payees.

- All Reconciliations marked as **Do No Delete** will display a tick in the **Protected** column within the Review Reconciliation Manager, and will not be deleted using the Manager whilst the checkbox remains checked. (See Figure 18)

Figure 18

The screenshot displays the 'Reconciliation Manager' interface, specifically the 'Reconciliation History' tab. The interface includes a search bar at the top and several filter sections: 'Date Range' (From/To), 'Record Type' (dropdown), 'Payment Entity' (Search Accounts...), 'Employee' (Search Contacts...), and 'Payee' (Search Payees...). Below these filters is a table of reconciliation records. The table has columns for Date, Time, Payment Entity, Period, Reconciled, Unreconciled, Reconciliation Record, Date From, Date To, Status, and Protected. The first record is highlighted with a red box, showing a 'Protected' status with a checkmark.
