

Purpose

The purpose of this quick reference guide is to step through the process of creating a Payroll Calendar & Calendar Periods. The intended audience for this document is system administrators.

Steps

Create Payroll Calendar

To create a Payroll Calendar record, follow the steps below:

1. Click on the **App Launcher** icon. (See Figure 1)

Figure 1

2. Go to the **Schedules** object by using the Search function. (See Figure 2)

Figure 2

3. Open the required Schedules record with the record type of **Pay Schedule**. (See Figure 3)

Figure 3

	Schedule	Record Type	Period Type	Split Option	Payee Selec...	Pay Advice Deta...	Earliest Payroll...
1	☐ Monthly Pay	Pay Schedule	Monthly	Per Calendar	All	Assignment	17/2/2021
2	☐ Weekly Pay	Pay Schedule	Weekly	Per Calendar	All	Assignment	1/7/2020
3	☐ Weekly Invoices	Invoice Schedule	Weekly	No Split			
4	☐ Employee Assignment Example Pay Schedule	Pay Schedule	Monthly	Per Calendar	All	Payee	17/11/2021
5	☐ Fortnightly Pay	Pay Schedule	Fortnightly	Per Calendar	All	Assignment	1/7/2020
6	☐ Temp Assignment Schedule	Pay Schedule	Monthly	Per Calendar	All	Payee	1/1/2021

4. On the Schedule record, locate the Calendars panel on the right hand side and click on  and then click on the **New** button. (See Figure 4)

Figure 4

5. Choose the record type of **Payroll** and click **Next**. (See Figure 5)

Figure 5

6. Populate the following required fields to provide the base details of the Payroll Calendar record: (See Figure 6)
 - a. **Name**
 - b. **Start Date**
 - c. **End Date**
 - d. **No. Days Payroll Date after End Date**
 - e. **No. Days Payment Date after End Date**
 - f. **Payment Entity**
 - g. **Pay Schedule**
 - h. **Default Payee Aggregate Dates**

7. Populate the following optional fields as needed:
 - a. To kick off the creation of the Calendar Periods automatically without the requirement to select the button on the Calendar, tick the **Generate Calendar Period records** checkbox.
 - b. To prevent the Status of the Payroll Calendar from being automatically updated by the automatic status update scheduled job, check the **Exclude From Auto Update** checkbox.
8. Click on the **Save** button.

Cancel Save & New Save

The Status field needs to be Pending for the creation of the Calendar Periods to work and will update automatically to Active after it has completed successfully.

If the Generate Calendar Period records checkbox is ticked, it will kick off the creation of the Calendar Periods without the requirement to select the button on the Calendar.

One Schedule can cover multiple Payment Entities and multiple Calendars, however when you create Calendars, these must be specific to each Payment Entity.

Calendar Period Creation Failed checkbox will populate automatically if the Calendar Periods failed to create. The field is editable but should not be manually updated by users.

9. A new Payroll Calendar record has been created. (See Figure 7)

- To modify an existing **Payroll Calendar** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing or just click on the pencil icon  that appears within fields when you move your cursor over the field.
- When complete, click on the **Save** button.

Payroll Calendar records **CANNOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

Create Payroll Calendar Periods

To create Payroll Calendar Periods within this Calendar record, follow the steps below:

1. Click on the **Create Calendar Periods** button. (See Figure 8)

Figure 8

The screenshot shows the 'Weekly Payroll Calendar' record in the 2C9 Payroll system. The top bar includes buttons for 'New Note', 'Edit', 'Delete', 'Sharing Hierarchy', 'Create Calendar Periods' (highlighted in red), and 'Remove Calendar Periods'. Below the top bar, the record details are displayed in a table format:

Record Type	Status	Payment Entity	Pay Schedule	Start Date	End Date
Payroll	Pending	Training - 2c9	Weekly Pay	10/1/2022	18/12/2026

Below the table, there are two tabs: 'Details' and 'Related'. The 'Details' tab is active, showing various fields for the calendar record, including Name, Start Date, End Date, No. Days Payroll Date after End Date, No. Days Payment Date after End Date, Calendar Period Creation Failed, Generate Calendar Period records, Owner, Record Type, Payment Entity, Pay Schedule, Default Payee Aggregate Dates, Status, and Exclude From Auto Update. The 'Create Calendar Periods' button is highlighted in red in the top right action bar.

On the right side, there is a 'Calendar History (1)' section showing a single entry with details like Date, Field, User, Original Value, and New Value. A 'View All' link is also present.

2. You will see a confirmation message saying 'A job has been successfully initiated to create the Calendar Periods'. (See Figure 9)
3. Click on the **Return to Calendar** link below the confirmation message.

Figure 9

The screenshot shows the 2C9 Payroll system interface. At the top, there is a navigation bar with the 2C9 Payroll logo and links for Home, Accounts, Contacts, Reports, Dashboards, and Payee. Below the navigation bar, a confirmation message is displayed: 'A job has been successfully initiated to create the Calendar Periods.' Below the message, a link labeled 'Return to Calendar' is highlighted with a red box.

If the confirmation message doesn't appear, the Calendar Periods will not create. If you are not able to identify the issue, please contact your System Administrator or your support team for more assistance.

- On the Calendar record page, you will notice that the Calendar Periods have been created and are displayed at the bottom of the page in the Periods related list. (See Figure 10)
- The **Status** of the Calendar will be updated to Active.
- Click on **View All** button to see a full list of the Calendar Periods.

[View All](#)

If the Calendar Periods that have been created are incorrect, have not yet been used in any other records, and need to be deleted, then users should click the Remove Calendar Periods button. This will remove all the Calendar Periods relating to this Calendar, allowing for changes to be made to the Calendar, and then repeat the steps to recreate the Payroll Calendar Periods.

If a Payroll User is unable to create Payroll Calendar Periods, it is recommended the System Administrator confirm the Record Type of Payroll is set as the default Record Type on the Calendar Period Object for their Profile.

Create Payroll Calendar Periods for longer Periods

To create Calendar Periods after the initial 2.5 years, you will need to follow the steps below:

1. Change the End Date to be a further 2.5 years from the current End Date.
2. Click Create Calendar Periods.
3. Wait and confirm the batch job has successfully finished creating Calendar Periods for that new extended date range.
4. Repeat steps 1-3 as many times as required.

Note: You are advised to review the Payroll Date on each Calendar Period, particularly when they create a reference to a Public Holiday (i.e. Christmas Day, Anzac Day, etc). These dates can be amended manually directly in the Calendar Period record if required.

Field Descriptions

Calendar Period Creation Failed (checkbox) indicates that the Calendar Period creation Batch Job failed.

Default Payee Aggregate Dates indicates if the Australian standard values should be applied to the Month, Quarter, and Year End dates during Calendar Period creation.

End Date is the last date the Calendar Periods will create for this Calendar.

Exclude From Auto Update (checkbox) When this box is checked the record will be skipped by the Automatic Status Update scheduled job.

Generate Calendar Period records (checkbox) if ticked, will kick off the creation of the Calendar Periods without the requirement to select the button on the Calendar.

Name is the name given to the Calendars record that is being created.

No. Days Payment Date after End Date is the number of days after the Calendar Period End Date from which the Payment File (i.e. aba file) will be processed.

No. Days Payroll Date after End Date defines the number of days after the Calendar Period End Date that the Pay Batch will be calculated.

Pay Schedule defines the Pay Schedule that applies to the Calendar.

Payment Entity is the related Payment Entity.

Start Date is the first date the Calendar Periods will be created from.

Status is required to be Pending when the Calendar Periods are awaiting creation, however, will be Active once the Calendar Periods have been created.
