

Purpose

The purpose of this quick reference guide is to step through the process of creating Employer ID Junction Superannuation Fund records. The intended audience for this document is System Administrators and Payroll Users.

The Employer ID Junction record is used to record different Employer IDs for different Payment Entities against the same Superannuation Fund and will be referenced in your 2cloudnine SuperStream lodgements.

Steps

Create an Employer ID Superannuation Fund record

To create an Employer ID Junction Superannuation Fund record, follow the steps below:

1. Click on the **App Launcher** icon (see Figure 1).
2. Go to the **Superannuation Funds** object by using the Search function (see Figure 2).

Upcoming & Overdue

No activities to show. Get started by sending an email, scheduling a task, and more.

- To modify an existing **Employer ID Junction** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double click in any of the fields that need editing, or just click on the pencil icon  that appears within fields when you move your cursor over the field.
- When complete, click on the **Save** button.

Superannuation Fund records **CANNOT** be deleted if they have related records or are used in other records. Deleting records is not recommended unless absolutely essential.

Field Descriptions

Field Name	Description
Parent Superannuation Fund	when defining an Employer Id Junction record, this is the Superannuation Fund you are creating a Payment Entity-level Employer Id record for.
Payment Entity	is the Payment Entity that the Employer ID relates to.
Employer ID	The Employer ID that is defined for the Superannuation Fund and Payment Entity combination.
