

Define Payee Opening Balances - Superannuation Withholding

Purpose

The purpose of this quick reference guide is to step through the process of defining the Payee Opening Balances. The intended audience for this document is Standard Users.

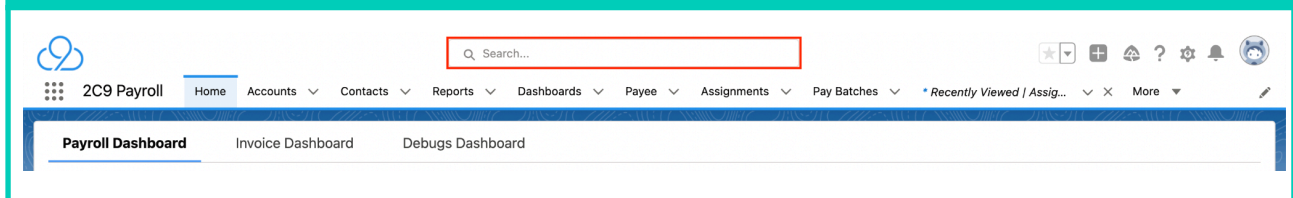

Steps

Create Payee Opening Balances - Withholding Superannuation

To create a Payee Opening Balance record:

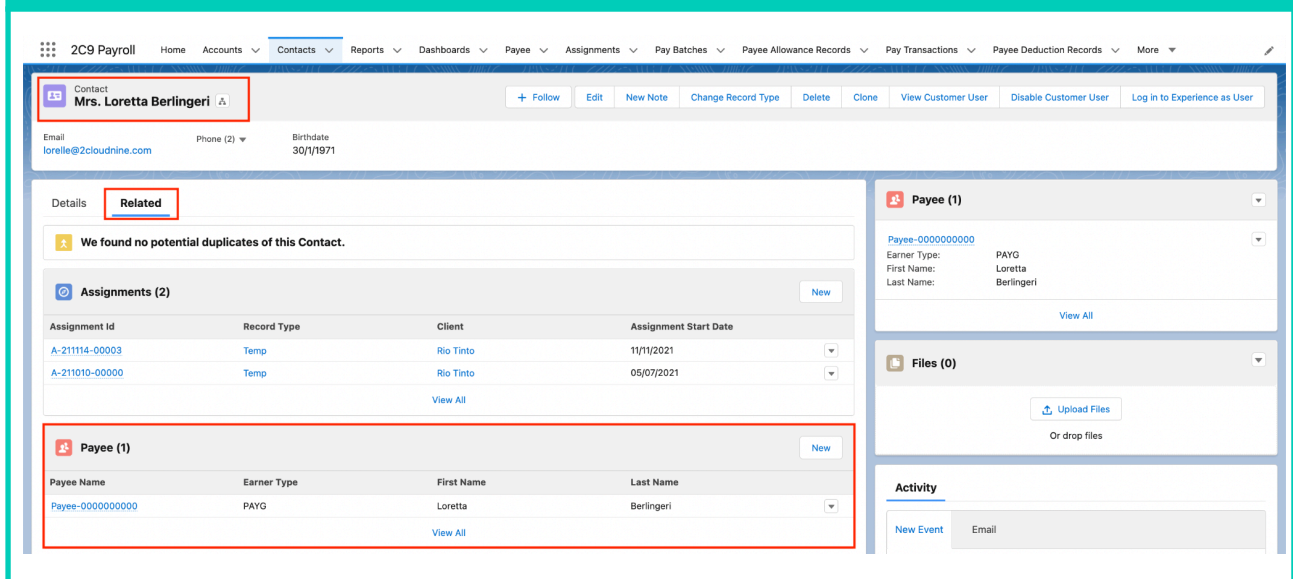

1. Go to the **Payee** record.
 - a. To identify a Payee record from an Employee record, enter the Employee name into the Global Search (see Figure 1).
 - b. Select the Employee record from the suggestions provided.

Figure 1

- c. Open the Related tab (see Figure 2).
- d. Identify the Payee related list.
- e. Select the Payee record.

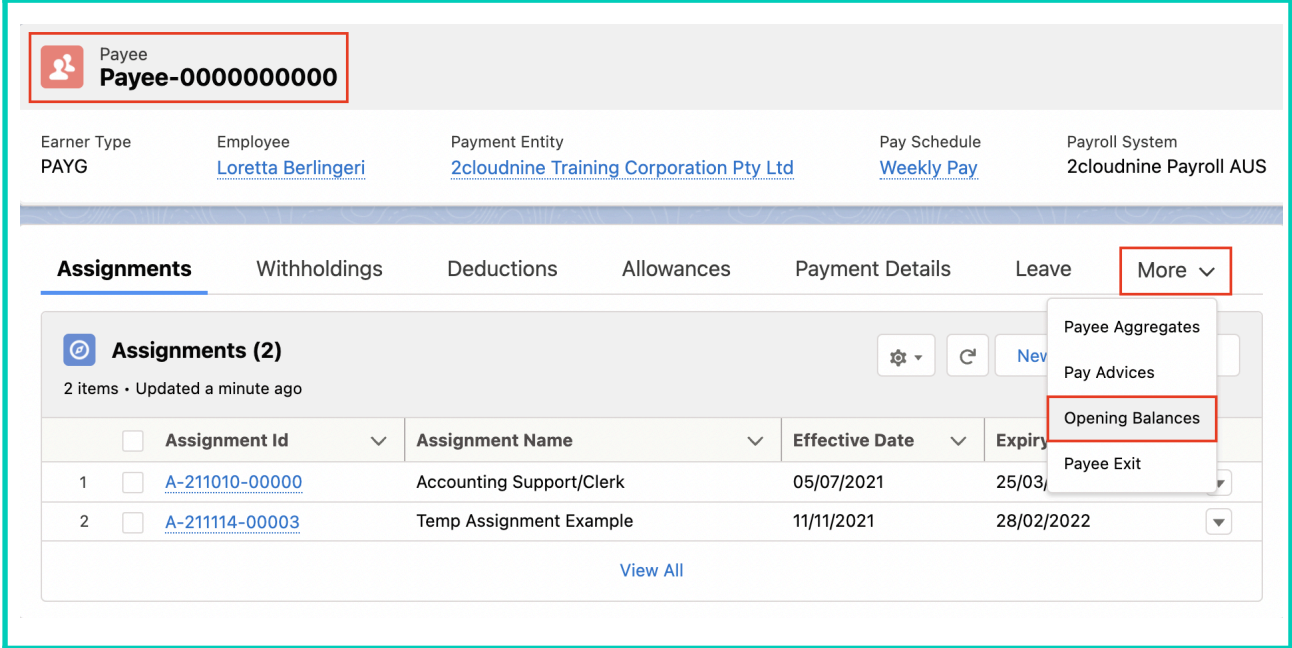

Figure 2

Define Payee Opening Balances - Superannuation Withholding

2. Within the Payee record, click on the **More** button (see Figure 3).
3. Click on **Opening Balances**.

Define Payee Opening Balances - Superannuation Withholding

7. Populate the following required fields to provide the base details of the Payee Opening Balance record: (see Figure 6)
 - a. **Payee**
 - b. **Employee**
 - c. **Effective Date**
 - d. **Status**
 - e. **ATO Income Classification**
 - f. **Superannuation Fund**
 - g. **Employer Additional Super**
 - h. **YTD Value**

**Important Notes***(Page 4)*

The Status must be entered as Confirmed, which creates a Pay Batch Event and automatically populates the fields of Pay Batch Event and Pay Batch Event Processing Status upon saving this Record. Ensure that the Payee Opening Balance records are processed in a Pay Batch so that they are included in the Payee Aggregate Records.

The correct Effective Date must be populated, otherwise, it can't be picked up in a Pay Batch to be included in the Superannuation Withholding Balance for an Employee.

If there is Employer Additional Super, it has to be held in a separate Payee Opening Balance record to the amount that is NOT classed as additional (i.e. if the Payee's Super is 20%, you would need to have one Payee Opening Balance record for the amount of standard Superannuation rate with Employer Additional Super = No, and another Payee Opening Balance record for the amount above the standard Superannuation rate with Employer Additional Super = Yes).

8. Populate the following optional fields as needed:
 - a. If the ATO Income Classification is an Approved Working Holiday Maker, Inbound Assignee to Australia, or Foreign Employment Income, populate the field Country of Work/Visa with the relevant country from the list available. This should match the details provided in their PAYG Payee Withholding Record.
 - b. If Superannuation units are required for MTD, QTD and YTD, and/or values are required for MTD and QTD, the following fields should be populated:
 - i. **MTD Units, QTD Units, YTD Units**
 - ii. **MTD Value, QTD Value**
 - c. To indicate that this Payee Opening Balance record will be used only during the Pay Batch calculations, but not included in the Finalisation process, tick the optional Exclude from Finalise checkbox. This would normally be populated when the Payee is classified as a Working Holiday Maker on their PAYG Payee Withholding Record.
9. Click on the **Save** button.

Important Notes

(Figure 7)

If you try to delete a Payee Opening Balance that has been included in a Pay Batch, you will receive 'ERROR: You cannot delete a Payee Opening Balance when it has been included in a Pay Batch.'

- To modify an existing **Payee Opening Balance** record, open the required record and select the **Edit** button available on the top right side of the page. You can also double-click in any of the fields that need editing, or just click on the pencil icon  that appears within fields when you move your cursor over the field.
- When complete, click on the **Save** button.

Define Payee Opening Balances - Superannuation Withholding

Field Descriptions

Field Name	Description
ATO Income Classification	This is the associated ATO Income Classification for this Opening Balance.
Country of Visa/Work	The home country for WHM (Working Holiday Maker) and IAA (Inbound Assignees to Australia), or the country of work for FEI (Foreign Employment Income).
Effective Date	determines which Calendar Period the Payee Opening Balance record should be included in the Pay Batch processing based on the Payee's pay schedule.
Employee	This is the related Employee record.
Employer Additional Super	This indicates this is an Employer's additional superannuation Payee Opening Balance. The standard and additional components are tracked via separate Payee Aggregate records during the Pay Batch Finalise process.
Exclude From Finalise	This indicates that a confirmed Payee Opening Balance record will be used during Pay Batch calculations, but not included in the Finalise process, which gets included in the Payee Aggregates and then sent via STP to the ATO. If this field is checked, any MTD, QTD, or YTD values will not be added to Payee Aggregates.
MTD Units	These are the units to be included in the Month to Date of this Payee Opening Balance.
MTD Value	The Month to Date monetary value that was paid as Superannuation using a prior software system and is being brought into the new software system.
Pay Batch Event	This is the associated Pay Batch Event created automatically by the system for inclusion in the Pay Batch creation process.
Payee	This is the related Payee record.
Payee Opening Balance Name	The automatically generated name given to the new Payee Opening Balance record upon saving the record.
Payee Pay Batch Processed	This is the Payee Pay Batch this Payee Opening Balance was processed in.
QTD Units	These are the units to be included in the Quarter to Date of this Payee Opening Balance Record.
QTD Value	The Quarter to Date monetary value that was paid as Superannuation using a prior software system and is being brought into the new software system.
Status	Indicates at which point in the payrun process this Payee Opening Balance is sitting.
Superannuation Fund	This is the related superannuation fund for Employer and Employee contributions.
YTD Units	These are the units to be included in the Year to Date of this Payee Opening Record.
YTD Value	The Year to Date monetary value that was paid as Superannuation using a prior software system and is being brought into the new software system.
